## ABSTRACT

Before the author writes about Muslims in the world, have not understand the real Allah, so Allah's energy, Allah's particles, are considered haram, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Muslims in the world, have not understand the real Allah, so Allah's energy, Allah's particles, are considered haram, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah about Muslims in the world, have not understand the real Allah, so Allah's energy, Allah's particles, are considered haram, namely the following verses:

*"So when I have perfected the body of Adam and breathed into Adam my spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)*

*"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit incarnated before Maryam, a perfect human (Maryam: 19: 17)*

*"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)*

*"Angels and spirits ascend to God in a day worth fifty thousand years (Al Ma'aarij: 70:4)*

*"And they ask you about spirits. Say: "Spirit is the interest of my God, and you have been given no knowledge except a little." (Al Israa' : 17: 85)*

In an effort to reveal the secret of Allah about Muslims in the world, have not understand the real Allah, so Allah's energy, Allah's particles, are considered haram, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes hypothesis Muslims in the world, have not understand the real Allah, so Allah's energy, Allah's particles, are considered haram, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## MUSLIMS IN THE WORLD, HAVE NOT UNDERSTAND THE REAL ALLAH, SO ALLAH'S ENERGY, ALLAH'S PARTICLES, ARE CONSIDERED HARAM

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)"...I breathed into Adam my spirit...(Shaad : 38: 72) "...a day worth fifty thousand years (Al Ma'aarij : 70:4) "...Our spirit incarnated before Maryam, a perfect human (Maryam: 19: 17)" ...Spirit is the interest of my God, and you have been given no knowledge except a little." (Al Israa' : 17: 85)*

Well, here Allah declares *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)"...I breathed into Adam my spirit...(Shaad : 38: 72)*

So, what exactly is meant by Allah *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*

It turns out, *"...the face of Allah...(Al Baqarah: 2: 115)* is everywhere.

Why is *"...the face of Allah...(Al Baqarah: 2: 115)* everywhere?

The answer is in the secret behind the verse: *"...I breathed into Adam my spirit...(Shaad : 38: 72)*

Well, it turns out *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks, formed with Allah's energy and Allah's particles.

Well, the energy of Allah is very small, **0.000000000 000000000 000000000 01** grams per cubic cm,

required by Allah particles, which are very small, almost nothing, **0.000000000 000000000 000000000 000000000 00000 3335917542091 889** grams, which has speed, more than speed of light, **5 475 103 664 604.84** km per second.

Well, without Allah's energy, without Allah's particles, there would be no *"...seven skys...which are balanced (Al Mulk: 67: 3), because "...seven skys...(Al Mulk: 67 : 3) and all its contents, which are built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks, formed with Allah's energy and Allah's particles.*

Well, this is still not understood by almost all Muslims in the world, so that Allah's energy, Allah's particles, are considered haram.

Well, with that, the very small energy of Allah is **0.000000000 000000000 000000000 01** grams per cubic cm, which is required by the Allah particle, which is very small, almost nothing, **0.000000000 000000000 000000000 00000 333591754 2091889** grams, which has speed, more than the speed of light, **5 475 103 664 604.84** km per second, then *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*

Well, it turns out, *"...the face of Allah...(Al Baqarah: 2: 115)* is everywhere, because, the real Allah, through Allah's form, in the form of Allah's energy, which is very small **0.000000000 000000000 000000000 01** grams per cubic cm, required by Allah particles, which are very small, almost nothing, **0.000000000 000000000 000000000 00000 3335917542091889** grams, which has a speed, more than the speed of light, **5 475 103 664 6 04.84** km per second .

This, the true secret of Allah, *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115).*

Now, when the human eye, will see a point, on his body, before the human eye, sees that point on his body, then Allah's particles using Allah's energy, and with speed **5 475 103 664 604.84** km per second, already in that point, in the human body.

So, now, if the majority of Muslims in the world think that Allah's energy, Allah's particles, are not explained by Allah in the Qur'an, it is only conjecture and speculation, so it is considered haram, then the majority of Muslims, when they read the verse *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115),* is considered a verse that does not reveal the true secrets of Allah.

Well, this is still not understood by almost all Muslims in the world, so that Allah's energy, Allah's particles, are considered haram.

## CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)"...I breathed into Adam my spirit...(Shaad : 38: 72) "...a day worth fifty thousand years (Al Ma'aarij : 70:4) "...Our spirit incarnated before Maryam, a perfect human (Maryam: 19: 17)" ...Spirit is the interest of my God, and you have been given no knowledge except a little." (Al Israa' : 17: 85)*

Well, here Allah declares *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)"...I breathed into Adam my spirit...(Shaad : 38: 72)*

So, what exactly is meant by Allah *"...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*

It turns out, "*...the face of Allah...(Al Baqarah: 2: 115)*" is everywhere.

Why is "*...the face of Allah...(Al Baqarah: 2: 115)*" everywhere?

The answer is in the secret behind the verse: "*...I breathed into Adam my spirit...(Shaad : 38: 72)*"

Well, it turns out "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" which is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks, formed with Allah's energy and Allah's particles.

Well, the energy of Allah is very small, **0.000000000 000000000 000000000 01** grams per cubic cm, required by Allah particles, which are very small, almost nothing, **0.000000000 000000000 000000000 000000000 000000000 00000 3335917542091 889** grams, which has speed, more than speed of light, **5 475 103 664 604.84** km per second.

Well, without Allah's energy, without Allah's particles, there would be no "*...seven skys...which are balanced (Al Mulk: 67: 3)*", because "*...seven skys...(Al Mulk: 67 : 3)*" and all its contents, which are built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, where hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms are formed with quarks, quarks, formed with Allah's energy and Allah's particles.

Well, this is still not understood by almost all Muslims in the world, so that Allah's energy, Allah's particles, are considered haram.

Well, with that, the very small energy of Allah is **0.000000000 000000000 000000000 01** grams per cubic cm, which is required by the Allah particle, which is very small, almost nothing, **0.000000000 000000000 000000000 00000 333591754 2091889** grams, which has speed, more than the speed of light, **5 475 103 664 604.84** km per second, then "*...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*"

Well, it turns out, "*...the face of Allah...(Al Baqarah: 2: 115)*" is everywhere, because, the real Allah, through Allah's form, in the form of Allah's energy, which is very small **0.000000000 000000000 000000000 01** grams per cubic cm, required by Allah particles, which are very small, almost nothing, **0.000000000 000000000 000000000 00000 3335917542091889** grams, which has a speed, more than the speed of light, **5 475 103 664 6 04.84** km per second .

This, the true secret of Allah, "*...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*".

Now, when the human eye, will see a point, on his body, before the human eye, sees that point on his body, then Allah's particles using Allah's energy, and with speed **5 475 103 664 604.84** km per second, already in that point, in the human body.

So, now, if the majority of Muslims in the world think that Allah's energy, Allah's particles, are not explained by Allah in the Qur'an, it is only conjecture and speculation, so it is considered haram, then the majority of Muslims, when they read the verse "*...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*", is considered a verse that does not reveal the true secrets of Allah.

Well, this is still not understood by almost all Muslims in the world, so that Allah's energy, Allah's particles, are considered haram.
