ABSTRACT

Before the author writes about all Gods appeared after quark formed, except Allah or Jahve or Adonai, there is united with energy, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of all Gods appeared after quark formed, except Allah or Jahve or Adonai, there is united with energy, based on deoxyribonucleic acid (DNA).

There are several verses that become Allah's secret, about all Gods appeared after quark formed, except Allah or Jahve or Adonai, there is united with energy, namely the following verses:

"So when I have perfected the body and I have breathed on him my spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)

"He is the First and the Last, the Zhahir and the Inner, and He is All-Knower of all things. (Al Hadiid: 57: 3)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

In an effort to open the veil of Allah's secret about all Gods appeared after quark formed, except Allah or Jahve or Adonai, there is united with energy, the author using deoxyribonucleic acid base.

HYPOTHESIS

Here the author proposes hypothesis that all Gods appeared after quark formed, except Allah or Jahve or Adonai, there is united with energy, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers.

This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ALL GODS APPEARED AFTER QUARK FORMED, EXCEPT ALLAH OR JAHVE OR ADONAI, THERE IS UNITED WITH ENERGY, WHICH CANNOT BE SEPARATED, EACH OTHER

So now, we are still concentrating on dismantling the secrets contained behind the verses: *"He is the First ... (Al Hadiid : 57: 3)" ... I breathed on him my spirit ... (Shaad : 38: 72)" ... seven skys ... balanced (Al Mulk: 67: 3)*

Here Allah or Jahve or Adonai, declares, *"He is the First ... (Al Hadiid : 57: 3)" ... seven skys ... balanced (Al Mulk: 67: 3)*

Here Allah or Jahve or Adonai, reveals the true secret, how in fact, Allah or Jahve or Adonai existed, before, the universe or *"...seven skys ... (Al Mulk: 67: 3)* was created.

So, now the question arises,

How can humans prove empirically, Allah or Jahve or Adonai existed, before, the universe or *"...the seven heavens ... (Al Mulk: 67: 3)* were created?

The answer is in the secret behind the verse: *"...seven heavens ... balanced (Al Mulk: 67: 3)*

Well, it turns out, in *"...seven heavens ... balanced (Al Mulk: 67: 3)* contains empirical evidence which states that Allah or Jahve or Adonai, existed, before, the universe or *"...seven skys ... (Al Mulk: 67: 3)* created.

Well, *"...seven skys ... balanced (Al Mulk: 67: 3)* means, whatever is in *"...the seven skys ... (Al Mulk: 67: 3)* can be counted, can be researched, can be proven experimentally, can be proven empirically.

Well, so also in the form of Allah or the form of Jahve or the form of Adonai *"...balanced (Al Mulk: 67: 3)* means that in the form of Allah or the form of Jahve or the form of Adonai, there is an eternal element and there is an not eternal element.

Well, this eternal element, which will be empirical evidence, Allah or Jahve or Adonai existed, before, the universe or *"...seven skys ... (Al Mulk: 67: 3)* was created.

The eternal elements that exist in the form of Allah or the form of Jahve or the form of Adonai are energy and particles. Where between Allah or Jahve or Adonai and energy cannot be separated from each other. Energy and Allah or Jahve or Adonai are united.

Likewise with particles. Allah or Jahve or Adonai, energy, particles are united, inseparable. **Allah or Jahve or Adonai – energy – particle - Allah or Jahve or Adonai.**

Where the particles with the help of energy transform quarks. Mathematically, it can be written

Allah or Jahve or Adonai – energy – particles – quarks - Allah or Jahve or Adonai.

Well, because in the form of Allah or the form of Jahve or the form of Adonai "... *balanced (Al Mulk: 67: 3)*, then there is an element that is not eternal. Where this not eternal element is "...*my spirit...(Shaad : 38: 72)* or "...*the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where these atoms are not eternal.

Well now, because in the form of Allah or the form of Jahve or the form of Adonai there are eternal elements, namely the energy of Allah and the particles of Allah. Where the energy of Allah is very small **0.000000000 000000000 000000000 01** grams per cubic cm that is needed by Allah's particles, which is almost non-existent,**0.000000000 000000000 000000000 00000 00000 3335917542091889** gram which has a light speed of **5 475 103 664 604.84** km per second.

Well, this empirical evidence, Allah or Jahve or Adonai, energy, particles are united, inseparable, which is the proof, **Allah or Jahve or Adonai – energy – particles – quarks - Allah or Jahve or Adonai** existed before the universe or "...*seven skys...(Al Mulk: 67: 3)* were created.

Or in other words, Allah or Jahve or Adonai existed, before the universe or "...*seven skys...(Al Mulk: 67: 3)* was created.

It could also be said, Allah or Jahve or Adonai existed, before the quarks were created.

So, with this empirical evidence, one might say, all Gods that came into existence after the formation of quarks, except Allah or Jahve or Adonai, existed in union with energy.

Or in other words, all Gods that appear after the formation of quarks, are the result of human creation and human mind. Mathematically, it can be written, **all God after quark = human mind.**

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verses: "*He is the First ... (Al Hadiid : 57: 3)*" "*I breathed on him my spirit...(Shaad : 38: 72)*" "...*seven skys...balanced (Al Mulk: 67: 3)*

Here Allah or Jahve or Adonai, declares, "*He is the First ... (Al Hadiid : 57: 3)*" "...*seven skys...balanced (Al Mulk: 67: 3)*

Here Allah or Jahve or Adonai, reveals the true secret, how in fact, Allah or Jahve or Adonai existed, before, the universe or "...*seven skys...(Al Mulk: 67: 3)* was created.

So, now the question arises,

How can humans prove empirically, Allah or Jahve or Adonai existed, before, the universe or "...the seven heavens...(Al Mulk: 67: 3) were created?

The answer is in the secret behind the verse: "...seven heavens...balanced (Al Mulk: 67: 3)

Well, it turns out, in "...seven heavens...balanced (Al Mulk: 67: 3) contains empirical evidence which states that Allah or Jahve or Adonai, existed, before, the universe or "...*seven skys...(Al Mulk: 67: 3)* created.

Well, "...*seven skys...balanced (Al Mulk: 67: 3)* means, whatever is in "...*the seven skys...(Al Mulk: 67:*

3) can be counted, can be researched, can be proven experimentally, can be proven empirically.

Well, so also in the form of Allah or the form of Jahve or the form of Adonai "**...balanced (Al Mulk: 67: 3)**" means that in the form of Allah or the form of Jahve or the form of Adonai, there is an eternal element and there is an not eternal element.

Well, this eternal element, which will be empirical evidence, Allah or Jahve or Adonai existed, before, the universe or "**...seven skys...(Al Mulk: 67: 3)**" was created.

The eternal elements that exist in the form of Allah or the form of Jahve or the form of Adonai are energy and particles. Where between Allah or Jahve or Adonai and energy cannot be separated from each other. Energy and Allah or Jahve or Adonai are united.

Likewise with particles. Allah or Jahve or Adonai, energy, particles are united, inseparable. **Allah or Jahve or Adonai – energy – particle - Allah or Jahve or Adonai.**

Where the particles with the help of energy transform quarks. Mathematically, it can be written **Allah or Jahve or Adonai – energy – particles – quarks - Allah or Jahve or Adonai.**

Well, because in the form of Allah or the form of Jahve or the form of Adonai "**... balanced (Al Mulk: 67: 3)**", then there is an element that is not eternal. Where this not eternal element is "**...my spirit...(Shaad : 38: 72)**" or "**...the spirit of Allah...(Shaad : 38: 72)**" or the spirit of Jahve or the spirit of Adonai, which is built by hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms. Where these atoms are not eternal.

Well now, because in the form of Allah or the form of Jahve or the form of Adonai there are eternal elements, namely the energy of Allah and the particles of Allah. Where the energy of Allah is very small **0.000000000 000000000 000000000 01** grams per cubic cm that is needed by Allah's particles, which is almost non-existent,**0.000000000 000000000 000000000 00000 00000 3335917542091889** gram which has a light speed of **5 475 103 664 604.84** km per second.

Well, this empirical evidence, Allah or Jahve or Adonai, energy, particles are united, inseparable, which is the proof, **Allah or Jahve or Adonai – energy – particles – quarks - Allah or Jahve or Adonai** existed before the universe or "**...seven skys...(Al Mulk: 67: 3)**" were created.

Or in other words, Allah or Jahve or Adonai existed, before the universe or "**...seven skys...(Al Mulk: 67: 3)**" was created.

It could also be said, Allah or Jahve or Adonai existed, before the quarks were created.

So, with this empirical evidence, one might say, all Gods that came into existence after the formation of quarks, except Allah or Jahve or Adonai, existed in union with energy.

Or in other words, all Gods that appear after the formation of quarks, are the result of human creation and human mind. Mathematically, it can be written, **all God after quark = human mind.**
