ABSTRACT

Before the author writes about all humans in the form "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and hell will be disappeared, become Allah's energy, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of all humans in the form "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and hell will be disappeared, become Allah's energy, based on Deoxyribonucleic acid (DNA)

There are a number of verses that become Allah's secret tools about all humans in the form "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and hell will be disappeared, become Allah's energy, namely the following verses :

"Then when I have completed the body and I have breathed on him my spirit, then you will fall down and prostrate to him (Shaad: 38: 72)

"Then He perfected and breathed into him His spirit and He made for you hearing, sight and heart, you are very little grateful. (As Sajdah: 32: 9)

"Allah, there is no God but He Who Lives eternally, constantly taking care of, not sleepy and does not sleep. What belongs to Him in the skys and on earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they do not know anything from Allah's knowledge except what He wills. Allah's Chair covers the skys and the earth. And Allah does not find it hard to care for them both, and Allah is Most High, Most Large (Al Baqarah: 2: 255)

"And give good tidings to those who believe and do good, that for them are prepared paradise with rivers flowing in them. Every time they are given sustenance of fruit in those heavens, they say: "This is what was given to us first." They were given similar fruits and for them in them are holy wives and they will abide in them forever. (Al Baqarah: 2: 25)

In an effort to open the veil of Allah's secret about all humans in the form "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and hell will be disappeared, become Allah's energy, the author uses deoxyribonucleic acid as a basis.

HYPOTHESIS

Here the author proposes the hypothesis that all humans in the form "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and hell will be disappeared, become Allah's energy, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

ALL HUMANS IN THE FORM OF ALLAH'S SPIRIT, WHO LIVES IN PARADISE AND HELL WILL BE DISAPPEARED, BECOME ALLAH'S ENERGY

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...I have breathed on him my spirit...(Shaad : 38: 72)"...they will abide in them forever (Al Baqarah: 2 : 25) "... Allah Who Lives eternally...(Al Baqarah: 2: 255)*

Well, here, Allah has declared to all human beings, including all Muslims in the world, *"...they will abide in them forever (Al Baqarah: 2 : 25)"... Allah Who Lives eternally...(Al Baqarah: 2: 255)*

Now the question arises,

What, in fact, is meant by Allah, *"...they will abide in them forever (Al Baqarah: 2 : 25)"... Allah Who Lives eternally...(Al Baqarah: 2: 255)?*

The answer is in the secret behind the verse: *"...I have breathed on him my spirit...(Shaad : 38: 72)*

Well, it turns out, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* that comes out of the human body, when a human dies, some enters to paradise and some to hell.

Now, because *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, whereas, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, do not live forever, instead, these atoms will live to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 00000000 00 000000000 000000000 years.

Or in other words, the age of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* will

live to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Well, according to human calculations, the age of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) will live to the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, is eternal age.

So, when Allah declares, "...they will abide in them forever (Al Baqarah: 2 : 25) it refers to the reckoning of the ages of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) according to human calculations.

As for, the truth, "...the eternal...(Al Baqarah: 2: 255) is "... Allah Who Lives eternally...(Al Baqarah: 2: 255)

Now, another question arises,

What will happen to all humans in the form of "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and in hell, when, ages "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) has reached 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years ?

The answer is, the nuclear energy that binds three quarks, which is in "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) weakens and disappears.

Because of the nuclear energy that binds the three quarks, which is in "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) weakens and disappears, then these three quarks, free, cause "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) to vanish, becoming the energy of Allah.

So, now, the secret is revealed, that all humans in the form of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72), who lives in paradise and in hell will disappear.

Where, "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) returns to become Allah's energy.

So, in fact, "...the eternal...(Al Baqarah: 2: 255) is "...Allah...(Al Baqarah: 2: 255) and Allah's energy.

"...Allah...(Al Baqarah: 2: 255) and energy of "...Allah...(Al Baqarah: 2: 255) cannot be separated.

Speaking "... Allah ... (Al Baqarah: 2: 255) is the same as speaking energy of "... Allah ... (Al Baqarah: 2: 255).

Talking about energy of "...Allah...(Al Baqarah: 2: 255) is the same as talking "...Allah...(Al Baqarah: 2: 255).

This is the big secret of Allah, which almost all Muslims in the world still don't understand.

CONCLUSION

From what has been explained above, it can be concluded that the secrets contained behind the verses: "...I have breathed on him my spirit...(Shaad : 38: 72)"...they will abide in them forever (Al Baqarah: 2 : 25) "... Allah Who Lives eternally...(Al Baqarah: 2: 255)

Well, here, Allah has declared to all human beings, including all Muslims in the world, *"...they will abide in them forever (Al Baqarah: 2 : 25)"... Allah Who Lives eternally...(Al Baqarah: 2: 255)*

Now the question arises,

What, in fact, is meant by Allah, *"...they will abide in them forever (Al Baqarah: 2 : 25)"... Allah Who Lives eternally...(Al Baqarah: 2: 255)?*

The answer is in the secret behind the verse: *"...I have breathed on him my spirit...(Shaad : 38: 72)*

Well, it turns out, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* that comes out of the human body, when a human dies, some enters to paradise and some to hell.

Now, because *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, whereas, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, do not live forever, instead, these atoms will live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 00 000000000 000000000** years.

Or in other words, the age of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* will live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.

Well, according to human calculations, the age of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* will live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years, is eternal age.

So, when Allah declares, *"...they will abide in them forever (Al Baqarah: 2 : 25)* it refers to the reckoning of the ages of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* according to human calculations.

As for, the truth, *"...the eternal...(Al Baqarah: 2: 255)* is *"... Allah Who Lives eternally...(Al Baqarah: 2: 255)*

Now, another question arises,

What will happen to all humans in the form of *"...Allah's spirit...(Shaad : 38: 72)*, who lives in paradise and in hell, when, ages *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* has reached **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years ?

The answer is, the nuclear energy that binds three quarks, which is in *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* weakens and disappears.

Because of the nuclear energy that binds the three quarks, which is in *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* weakens and disappears, then these three quarks, free, cause *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* to vanish, becoming the energy of Allah.

So, now, the secret is revealed, that all humans in the form of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*, who lives in paradise and in hell will disappear.

Where, "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) returns to become Allah's energy.

So, in fact, "...the eternal...(Al Baqarah: 2: 255) is "...Allah...(Al Baqarah: 2: 255) and Allah's energy.

"...Allah...(Al Baqarah: 2: 255) and energy of "...Allah...(Al Baqarah: 2: 255) cannot be separated.

Speaking "... Allah ... (Al Baqarah: 2: 255) is the same as speaking energy of "... Allah ... (Al Baqarah: 2: 255).

Talking about *energy of* "...Allah...(Al Baqarah: 2: 255) is the same as talking "...Allah...(Al Baqarah: 2: 255).

This is the big secret of Allah, which almost all Muslims in the world still don't understand.
