ABSTRACT

Before the author writes about all religions source to, Allah's spirit, Allah's particles and Allah's energy, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of all religions source to, Allah's spirit, Allah's particles and Allah's energy, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about all religions source to, Allah's spirit, Allah's particles and Allah's energy, namely the following verses:

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "Our God, You did not create this in vain, Glory be to You, so protect us from the torment of Hell. (Ali 'Imran : 3: 191)

"And why don't they think about themselves? Allah did not create the skys and the earth and what is between them but with haq (right) and a determined time. And most of people really deny meeting their Lord. (Ar Ruum: 30: 8)

"And We have created humans from the essence of soil. (Al Mu'minuun: 23: 12)

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"Then He perfected and breathed into Adam His spirit and He made for you hearing, sight and heart, you are very grateful. (As Sajdah: 32: 9)

"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit incarnated before Maryam, the perfect human. (Maryam: 19: 17)

"Angels and spirits ascend to God in a day that is worth fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, you see something that is not balanced (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

In an effort to reveal the secret of Allah about all religions source to, Allah's spirit, Allah's particles and Allah's energy, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis that all religions source to, Allah's spirit, Allah's particles and Allah's energy, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

ALL RELIGIONS SOURCE TO, ALLAH'S SPIRIT, ALLAH'S PARTICLES AND ALLAH'S ENERGY

So now, we are still concentrating our minds on uncovering the secrets contained behind the verses: *"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)"... wherever you turn there is the face of Allah...(Al Baqarah : 2: 115) "...I breathed into Adam my spirit...(Shaad : 38: 72)"...Allah did not create the skys and the earth and what is between them but with haq (right) and a determined time...(Ar Ruum: 30: 8) "Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali ' Imran : 3: 191)*

Apparently, here Allah reveals the secret of Allah widely, about *"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali ' Imran : 3: 191)*

Well, Allah's declaration, whatever is in *"...the seven skys...(Al Mulk : 67: 3)* is *"...balanced...(Al Mulk : 67: 3)"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)*

Now the question arises,

Why did Allah declare, *"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)* and whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)?*

The answer is in the secret behind the verse: *"...Allah did not create the skys and the earth and what is between them but with haq (right) and a determined time...(Ar Ruum: 30: 8)*

Well, it turns out, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)* because, *"...Allah...created the skys and the earth...with haq (right) and a determined time...(Ar Ruum: 30: 8)*

This means, *"...with haq (right) and a determined time...(Ar Ruum: 30: 8)* is, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* can be studied, calculated, researched and proven empirically.

Now, because whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)*, then in Allah's form, also *"...balanced...(Al Mulk : 67: 3)*.

Well, here, the key to Allah's secrets, *"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)* and whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)*, because in Allah's form there is something eternal and something uneternal.

So, what is eternal and uneternal, which is in Allah's form ?

Well, what is eternal in Allah's form is Allah's energy, quarks and Allah's particles *"...wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*

Allah's energy is very small, 0.000000000 000000000 000000000 01 grams per cubic cm required by Allah's particles which are also very small, almost nothing, 0.000000000 000000000 000000000 000000000 00000 3335917542091889 gram, which has the speed of light 5 475 103 664 604.84 km per second.

Well, with Allah's particles using Allah's energy at an extraordinary speed, *"...wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*.

Most people in the world do not understand, including Muslims in the world, that Allah actually has Allah's particles that use Allah's energy at extraordinary speeds. This can be proven empirically, meaning scientifically and experimentally.

Then, what is uneternal in Allah's form ?

Well, uneternal thing that exists in Allah's form is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)*

Why *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* uneternal ?

Because *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

These atoms live until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, because the nuclear energy that binds quarks in the atom disappears, turning back into energy.

So, in fact, by using the law *"...in balance...(Al Mulk: 67: 3)* Allah's form exists.

This means that Allah's form exists, if in Allah's form there are eternal elements and uneternal elements.

As Allah created *"...the seven skys...(Al Mulk : 67: 3)"...in balance...(Al Mulk : 67: 3)*

Well, now, if there is a human being in the world, who thinks and worships anything other than worshipping Allah, then that human still does not understand that whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirits...(Maryam: 19: 17)* which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, humans in the world, who think and worship anything other than worshipping Allah, then those humans still do not understand that whatever is in *"...the seven skys...(Al Mulk: 67 : 3)* built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Where hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are uneternal.

Or it could also be said, all religions are based on *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirits...(Maryam: 19: 17)*, Allah's particles and Allah's energy.

As Allah declares *"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*

Where *"... the skys and the earth...(Ali 'Imran: 3: 191)* were built with *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirits...(Maryam: 19: 17)*, Allah's particles and Allah's energy.

This is Allah's secret, which is still not understood by almost all people in the world, including Muslims in the world.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"... You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)"... wherever you turn there is the face of Allah...(Al Baqarah : 2: 115) "...I breathed into Adam my spirit...(Shaad : 38: 72)"...Allah did not create the skys and the earth and what is between them but with haq (right) and a determined time...(Ar Ruum: 30: 8) "Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali ' Imran : 3: 191)*

Apparently, here Allah reveals the secret of Allah widely, about *"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali ' Imran : 3: 191)*

Well, Allah's declaration, whatever is in *"...the seven skys...(Al Mulk : 67: 3)* is *"...balanced...(Al Mulk : 67: 3)"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)*

Now the question arises,

Why did Allah declare, *"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)* and whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)"*?

The answer is in the secret behind the verse: *"...Allah did not create the skys and the earth and what is between them but with haq (right) and a determined time...(Ar Ruum: 30: 8)*

Well, it turns out, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)* because, *"...Allah...created the skys and the earth...with haq (right) and a determined time...(Ar Ruum: 30: 8)*

This means, *"...with haq (right) and a determined time...(Ar Ruum: 30: 8)* is, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* can be studied, calculated, researched and proven empirically.

Now, because whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)*, then in Allah's form, also *"...balanced...(Al Mulk : 67: 3)*.

Well, here, the key to Allah's secrets, *"...they think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)* and whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk : 67: 3)*, because in Allah's form there is something eternal and something uneternal.

So, what is eternal and uneternal, which is in Allah's form ?

Well, what is eternal in Allah's form is Allah's energy, quarks and Allah's particles *"...wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*

Allah's energy is very small, **0.000000000 000000000 000000000 01** grams per cubic cm required by Allah's particles which are also very small, almost nothing, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** gram, which has the speed of light **5 475 103 664 604.84** km per second.

Well, with Allah's particles using Allah's energy at an extraordinary speed, *"...wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)*.

Most people in the world do not understand, including Muslims in the world, that Allah actually has Allah's particles that use Allah's energy at extraordinary speeds. This can be proven empirically, meaning scientifically and experimentally.

Then, what is uneternal in Allah's form ?

Well, uneternal thing that exists in Allah's form is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)*

Why *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* uneternal ?

Because *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

These atoms live until the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years, because the nuclear energy that binds quarks in the atom disappears, turning back into energy.

So, in fact, by using the law *"...in balance...(Al Mulk: 67: 3)* Allah's form exists.

This means that Allah's form exists, if in Allah's form there are eternal elements and uneternal elements.

As Allah created *"...the seven skys...(Al Mulk : 67: 3)"...in balance...(Al Mulk : 67: 3)*

Well, now, if there is a human being in the world, who thinks and worships anything other than worshipping Allah, then that human still does not understand that whatever is in "*...the seven skys...(Al Mulk: 67: 3)*" is "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...Our spirits...(Maryam: 19: 17)*" which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, humans in the world, who think and worship anything other than worshipping Allah, then those humans still do not understand that whatever is in "*...the seven skys...(Al Mulk: 67 : 3)*" built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Where hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are uneternal.

Or it could also be said, all religions are based on "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...Our spirits...(Maryam: 19: 17)*", Allah's particles and Allah's energy.

As Allah declares "*Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*"

Where "*... the skys and the earth...(Ali 'Imran: 3: 191)*" were built with "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*" or "*...Our spirits...(Maryam: 19: 17)*", Allah's particles and Allah's energy.

This is Allah's secret, which is still not understood by almost all people in the world, including Muslims in the world.
