ABSTRACT

Before the author writes about Allah is felt in the human body, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Allah is felt in the human body, based on deoxyribonucleic acid (DNA)

There are several verses that reveal Allah's secrets about Allah is felt in the human body, namely the verses:

"Allah holds soul when human die and soul that have not yet died while human sleep, then He holds soul that He has determined human to die and He releases other soul until the appointed time. Verily in that there are signs of Allah's power for people who think (Az Zumar: 39: 42)

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"...We are closer to human than his jugular vein (Qaaf : 50: 16)

In an effort to reveal the greatness of Allah SWT regarding how Allah is felt in the human body, the author uses the basis of deoxyribonucleic acid (DNA).

HYPOTHESES

Here the author proposes hypothesis Allah is felt in the human body, based on deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

ALLAH IS FELT IN THE HUMAN BODY

So now, we are still concentrating our minds on uncovering the secret behind the verse: *"Allah holds soul when human die...He releases other soul until the appointed time....(Az Zumar: 39: 42) "...We are closer to human than his jugular vein (Qaaf : 50: 16) "...I breathed into Adam my spirit...(Shaad : 38: 72)*

Here, Allah declares *"Allah holds soul...(Az Zumar: 39: 42) "...We are closer to human than his jugular vein (Qaaf : 50: 16)*

Now the question arises,

What does Allah really mean by *"...soul...(Az Zumar: 39: 42)?*

The answer is,

Stored in the secret behind the verse: *"...I breathed into Adam my spirit...(Shaad : 38: 72)*

It turns out that what Allah declared *"...soul...(Az Zumar: 39: 42)* is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*

So, actually what Allah always holds is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*

How does Allah hold *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)?*

The answer is,

Hidden in the secret behind the verse: *"Allah holds soul when human die and soul that have not yet died while human sleep...(Az Zumar: 39: 42)*

Well, it turns out that Allah holds *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* when humans are asleep.

This means, when the connection between the brain and the body is less than perfect. Where when humans are sleeping, the brain continues to work, while the body is in a calm state, where the heart continues to work.

So, when the connection between the brain and the body is less than perfect, that is when Allah holds *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*

Why is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* held by Allah, when the brain and body do not have a perfect connection?

The answer is,

Kept in the secret behind the verse: *"...We are closer to human than his jugular vein (Qaaf : 50: 16)*

Now Allah with Allah's energy through *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which *"...are closer to human than his jugular vein (Qaaf : 50: 16)* controls the human brain and body through the nerve network in the brain and throughout the body as well as the blood channels that come from the heart and enter the heart.

So, when human is sleeping and Allah has decided to withhold *"...soul ...(Az Zumar: 39: 42)* then Allah's energy which gives birth *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* stops the heart from working.

Well, with the cessation of the heart's work which was declared by Allah *"...He holds soul that He has determined human to die...(Az Zumar: 39: 42)*

So actually, with the energy of Allah which gives birth *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* stops the heart from working, then at that time human die.

Now, because the energy of Allah which gave birth *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is throughout the body and throughout the human brain tissue, then humans will feel directly *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* through the neural network in the brain and throughout the body as well blood vessels that come from the heart and enter the heart.

Or in other words, human will feel that Allah is in the human body through the pulse of the heart which circulates blood throughout the human body. And through the neural network in the brain, when humans are thinking, working, reading, walking, talking, sitting, standing and whatever else humans do.

Well, now, it has been revealed that it is very easy to know that Allah is in the human body. But most people don't understand.

CONCLUSION

Based on the description above we can conclude that the secret behind the verse: *"Allah holds soul when human die...He releases other soul until the appointed time....(Az Zumar: 39: 42)* *"...We are closer to human than his jugular vein (Qaaf : 50: 16)"...I breathed into Adam my spirit...(Shaad : 38: 72)*
