ABSTRACT

Before the author writes about Allah is united with energy, cannot be separated, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret Allah is united with energy, cannot be separated, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about Allah is united with energy, cannot be separated, namely the following verses:

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"He is the First and the Last, the Real and the Inner, and He is All-Knowing of everything. (Al Hadiid: 57: 3)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

In an effort to open the veil of God's secret about Allah is united with energy, cannot be separated, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis that Allah is united with energy, cannot be separated, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where Carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

ALLAH IS UNITED WITH ENERGY, CANNOT BE SEPARATED

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"He is the First...(Al Hadiid: 57: 3)"... I breathed into Adam my spirit...(Shaad: 38: 72)"...seven skys...balanced (Al Mulk: 67: 3)*

Well, Allah declared, *"He is the First...(Al Hadiid: 57: 3)"...seven skys...balanced (Al Mulk: 67: 3)*

Here Allah reveals the real secret, how Allah existed, before, the universe or *"...seven skys...(Al Mulk: 67: 3)* were created.

Well, now the question arises,

How can humans prove empirically that Allah existed before the universe or *"...seven skys...(Al Mulk: 67: 3)* were created?"

The answer is in the secret behind the verse: *"...seven skys...balanced (Al Mulk: 67: 3)*

Well, it turns out, in *"...seven skys...balanced (Al Mulk: 67: 3)* contains empirical evidence which states that Allah existed, before, the universe or *"...seven skys...(Al Mulk : 67: 3)* created.

Well, *"...seven skys...balanced (Al Mulk: 67: 3)* meaning, whatever is in *"...seven skys...(Al Mulk: 67: 3)* can be counted, can researched, can be proven experimentally, can be proven empirically.

Well, the same is Allah's form *"...balanced (Al Mulk: 67: 3)* meaning that in Allah's form there are eternal elements and there are uneternal elements.

Now, this eternal element, which will be empirical proof, that Allah existed, before, the universe or *"...seven skys...(Al Mulk: 67: 3)* was created.

The eternal elements that exist in Allah's form are energy and particles. Where Allah and energy cannot be separated from each other. Energy and Allah are one.

Likewise with particles. Allah, energy, particles are united, cannot be separated.

Allah – energy – particles - Allah.

Where particles with the help of energy, give birth to quark.

In a period of 0.0000000000 0000000000 0000000000 0000000000 001 seconds, quark is created, which will become the nucleus of the atom.

Mathematically, it can be written,

Allah – energy – particles – quark - Allah.

Well, because in Allah's form "*...is balanced (Al Mulk: 67: 3)*", then there is an element that is uneternal.

Where this uneternal element is "*...my spirit...(Shaad: 38: 72)*" or "*...Allah's spirit...(Shaad: 38: 72)*", which is built with hydrogen atoms, carbon atoms, nitrogen atom and oxygen atom. Where these atoms are not eternal.

Well now, because in Allah's form there are eternal elements, namely Allah's energy and Allah's particles. Where Allah's energy is very small, **0.000000000 000000000 000000000 01** grams per cubic cm which is really needed by Allah particles, which is almost non-existent, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** gram, which has a speed of light of **5 475 103 664 604.84** km per second.

Well, this empirical evidence, Allah, energy, particles are united, which is proof, **Allah – energy – particles – quarks - Allah** existed before the universe or "*...seven skys...(Al Mulk: 67: 3)*" were created .

Or in other words, Allah existed, before the universe or "*...seven skys...(Al Mulk: 67: 3)*" were created.

It could also be said that Allah existed before quark were created.

Or you could also say, Allah and energy cannot be separated from each other. Energy and Allah are one.

Allah – energy gives birth to quarks.

Allah – energy – quark - energy - Allah.

Well, this is empirical evidence, Allah and energy are united.

So, if there are still people all over the world, who ask, where does the energy come from, which makes quark?

Well, the answer

Allah – energy gives birth to quark.

Allah – energy – quark - energy - Allah.

Allah and energy cannot be separated from each other. Energy and Allah are one.

Where all humans, including all Muslims in the world, still don't understand.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verses: "*He is the First...(Al Hadiid: 57: 3)*" "*... I breathed into Adam my spirit...(Shaad: 38: 72)*" "*...seven skys... balanced (Al Mulk: 67: 3)*"
