ABSTRACT

Before the author writes about Allah is within human, in the form of Allah's energy, Allah's particles and Allah's spirit, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of Allah is within human, in the form of Allah's energy, Allah's particles and Allah's spirit, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about Allah is within human, in the form of Allah's energy, Allah's particles and Allah's spirit, namely the following verses:

"And why don't they think about themselves? Allah did not create the skys and the earth and what is between them but with the haq and the specified time. And most of people really deny meeting their God. (Ar Ruum: 30: 8)

"So when I have perfected the life of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"Then He perfected and breathed into Adam His spirit and He made for you hearing, sight and heart, you are very grateful. (As Sajdah: 32: 9)

"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit appeared before Maryam, the perfect human being. (Maryam: 19: 17)

"Who has created the seven skys in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn, there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

In an effort to reveal the secret of Allah about Allah is within human, in the form of Allah's energy, Allah's particles and Allah's spirit, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis Allah is within human, in the form of Allah's energy, Allah's particles and Allah's spirit, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the

body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

ALLAH IS WITHIN HUMAN, IN THE FORM OF ALLAH'S ENERGY, ALLAH'S PARTICLES AND ALLAH'S SPIRIT

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...I breathed into Adam my spirit...(Shaad : 38: 72)"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)"...Allah did not create the skys and the earth and what is between them but with the haq and the specified time...(Ar Ruum: 30: 8)*

Apparently, here Allah opens up Allah's secret about *"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)*

Well, Allah's declaration, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)*

Now the question arises,

Why did Allah create everything in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)?*

The answer is in the secret behind the verse: *"...Allah...create the skys and the earth...with the haq and the specified time...(Ar Ruum: 30: 8)*

Well, whatever is in *"...the seven skys...(Al Mulk: 67: 3)"...is in balance...(Al Mulk: 67: 3)* because, *"...Allah...create the skys and the earth...with the haq and the specified time...(Ar Ruum: 30: 8)*

This means, *"...with the haq and the specified time...(Ar Ruum: 30: 8)* is, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* can be studied, calculated, researched and proven empirically.

Well now, because whatever is in *"...the seven skys...(Al Mulk: 67: 3)"...is in balance...(Al Mulk: 67: 3)*, then in the form of Allah too *"...balanced...(Al Mulk: 67: 3).*

This means that in Allah's form there is something eternal and something uneternal.

What is eternal in Allah's form?

Well, what is eternal in Allah's is Allah's energy, quarks and Allah's particles. *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Allah's energy is very small, **0.000000000 000000000 000000000 01** grams per cubic cm required by Allah particles which are also very small, almost nothing, **0.000000000 000000000 000000000 000000000 000000000 00000 33359175420918 89** grams, which is the speed of light **5 475 103 664 604.84** km per second.

Well, with Allah's particles using Allah's energy at an extraordinary speed, *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115).*

Most people in the world do not understand, including Muslims in the world, that Allah actually has Allah particles that use Allah's energy at extraordinary speeds. This can be proven empirically, meaning scientifically and experimentally.

Now, what is uneternal in Allah's form?

Well, uneternal thing that exists in Allah's form is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)*

Why *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* uneternal?

Because *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

These atoms live until the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years, because the nuclear energy that binds quarks in atoms disappears, turning back into energy.

So, in fact, by using the law *"...in balance...(Al Mulk: 67: 3)* Allah's form exists. This means that Allah's form exists, because in Allah's form there are eternal and uneternal elements.

As Allah created *"...the seven skys...(Al Mulk: 67: 3)"...in balance...(Al Mulk : 67: 3)*

Well, apparently, Allah's form is in the form of eternal and uneternal elements, namely Allah's energy, quarks, Allah's particles and *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)* is within humans.

Or in other words, Allah is within humans, in the form of Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)*

Why does Allah exist within humans, in the form of Allah's energy, Allah's particles and *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad: 38: 72)* or *"... Our spirits...(Maryam: 19: 17)*?

Because humans are built with **7 000000000 000000000 000000000** atoms, including carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

The atoms are built with quarks, quarks are formed by Allah's energy and Allah's particles.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"...I breathed into Adam my spirit...(Shaad : 38: 72)"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3) "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)"...Allah did not create the skys and the earth and what is between them but with the haq and the specified time...(Ar Ruum: 30: 8)*

Apparently, here Allah opens up Allah's secret about *"...You do not see in the creation of the Most Gracious God anything that is not balanced...(Al Mulk: 67: 3)*

Well, Allah's declaration, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)*

Now the question arises,

Why did Allah create everything in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced...(Al Mulk: 67: 3)?*

The answer is in the secret behind the verse: *"...Allah...create the skys and the earth...with the haq and the specified time...(Ar Ruum: 30: 8)*

Well, whatever is in *"...the seven skys...(Al Mulk: 67: 3)"...is in balance...(Al Mulk: 67: 3)* because, *"...Allah...create the skys and the earth...with the haq and the specified time...(Ar Ruum: 30: 8)*

This means, *"...with the haq and the specified time...(Ar Ruum: 30: 8)* is, whatever is in *"...the seven skys...(Al Mulk: 67: 3)* can be studied, calculated, researched and proven empirically.

Well now, because whatever is in *"...the seven skys...(Al Mulk: 67: 3)"...is in balance...(Al Mulk: 67: 3)*, then in the form of Allah too *"...balanced...(Al Mulk: 67: 3).*

This means that in Allah's form there is something eternal and something uneternal.

What is eternal in Allah's form?

Well, what is eternal in Allah's is Allah's energy, quarks and Allah's particles. *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Allah's energy is very small, **0.000000000 000000000 000000000 01** grams per cubic cm required by Allah particles which are also very small, almost nothing, **0.000000000 000000000 000000000 000000000 00000 33359175420918 89** grams, which is the speed of light **5 475 103 664 604.84** km per second.

Well, with Allah's particles using Allah's energy at an extraordinary speed, *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115).*

Most people in the world do not understand, including Muslims in the world, that Allah actually has Allah particles that use Allah's energy at extraordinary speeds. This can be proven empirically, meaning scientifically and experimentally.

Now, what is uneternal in Allah's form?

Well, uneternal thing that exists in Allah's form is "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17)

Why "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17) uneternal?

Because "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17) is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

These atoms live until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years, because the nuclear energy that binds quarks in atoms disappears, turning back into energy.

So, in fact, by using the law "...in balance...(Al Mulk: 67: 3) Allah's form exists. This means that Allah's form exists, because in Allah's form there are eternal and uneternal elements.

As Allah created "...the seven skys...(Al Mulk: 67: 3)"...in balance...(Al Mulk : 67: 3)

Well, apparently, Allah's form is in the form of eternal and uneternal elements, namely Allah's energy, quarks, Allah's particles and "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17) is within humans.

Or in other words, Allah is within humans, in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17)

Why does Allah exist within humans, in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad: 38: 72) or "... Our spirits...(Maryam: 19: 17)?

Because humans are built with 7 000000000 000000000 000000000 atoms, including carbon atoms, hydrogen atoms, nitrogen atoms and oxygen atoms.

The atoms are built with quarks, quarks are formed by Allah's energy and Allah's particles.
