ABSTRACT

Before the author writes about because Muslims do not understand the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then Muslims enter the trap, people who worship Allah's spirit, first the author asks forgiveness from God SWT. Here the author tries to open the veil that covers the secret about because Muslims do not understand the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then Muslims enter the trap, people who worship Allah's spirit, based on to deoxyribonucleic acid (DNA).

There are several verses to reveal the secrets of Allah about because Muslims do not understand the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then Muslims enter the trap, people who worship Allah's spirit, namely in the verses:

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"Then He perfected and breathed into Adam His spirit and He made for you hearing, sight and heart, you are very grateful. (As Sajdah: 32: 9)

"And indeed We have created human and know what his heart whispers, and We are closer to human than his jugular vein (Qaf: 50:16)

"And when My servants ask you about Me, I am near. I grant the request of those who pray when they ask Me, then they will fulfill it and they will believe in Me, so that they will always be in the truth (Al Baqarah: 2: 186)

"Angels and spirits ascend to God in a day worth fifty thousand years (Al Ma'aarij: 70:4)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

"And Mary bint Imran who maintained her honour, then We breathed into Mary's womb Our spirit, and she confirmed the words of her Rabb and His Books, and she was one of those who obeyed. (At Tahrim: 66: 12)

"And We made a wall before them and a wall behind them, and We covered them so that they could not see." (Yaasiin: 36: 9)

In an effort to reveal the secret of Allah because Muslims do not understand the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then Muslims enter the trap, people who worship Allah's spirit, the author uses deoxyribonucleic acid .

HYPOTHESIS

Here the author proposes hypothesis because Muslims do not understand the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then Muslims enter the trap, people who worship Allah's spirit,, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

BECAUSE MUSLIMS DO NOT UNDERSTAND THE REAL ALLAH, THROUGH ALLAH'S FORM, IN THE FORM OF ALLAH'S ENERGY, IN THE FORM OF ALLAH'S PARTICLE AND IN THE FORM OF ALLAH'S SPIRIT, THEN MUSLIMS ENTER THE TRAP, PEOPLE WHO WORSHIP ALLAH'S SPIRIT

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...We are closer to human than his jugular vein (Qaf: 50:16)"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115) "...I am near...(Al Baqarah: 2: 186) "...I breathed into Adam my spirit...(Shaad : 38: 72) "... We breathed into Maryam's womb Our spirit...(At Tahrir: 66: 12).*

Well, here, Allah declares *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115)"...We are closer to human than his jugular vein (Qaf: 50:16)".. I breathed into Adam My spirit...(Shaad : 38: 72) "...We breathed into Mary's womb Our spirit...(At Tahrir : 66: 12).*

It turns out that this declaration of Allah reveals the secrets of Allah, about the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's

spirit.

Now, every human being in the world, if he has understood the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then the human mind has reached the level of Allah's mind, humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit.

Well, this is something that most Muslims in the world still don't understand.

Now, what secret is hidden behind the verse: "*...wherever you turn there is the face of Allah...*(*Al Baqarah : 2: 115*)?"

Apparently, the secret contained in Allah's declaration: "*...wherever you turn there is the face of Allah...*(*Al Baqarah : 2: 115*) is Allah's energy and Allah's particle.

Well, with Allah's energy, which is very small, **0.000000000 000000000 000000000 01** grams per cubic cm, required by Allah particles, which are also very small, almost nothing, **0.000000000 000000000 000000000 000000000 000000000 000000 33359175420 91889** grams, with more speed than the speed of light, **5475103664604.84** km per second, then it can be proven empirically, Allah is everywhere, "*...wherever you turn there is the face of Allah...*(*Al Baqarah : 2: 115*)

This means that when the human eye is directed at one point on the human body, then before the eye is directed to that point on the human body, the Allah's particle using Allah's energy, at a speed greater than the speed of light, **5475103664604.84** km per second, is already present on point, on that human body.

Or in other words, "*...the face of Allah...*(*Al Baqarah: 2: 115*) is everywhere, because of Allah's energy and Allah's particle which have a speed greater than the speed of light, **5475103664604.84** km per second.

This is empirical evidence, "*...wherever you turn there is the face of Allah...*(*Al Baqarah : 2: 115*)

Well, what is still not understood by almost all Muslims in the world is, Allah's declaration: "*...I breathed into Adam My spirit...*(*Shaad: 38: 72*) "*...We breathed into Mary's womb Our spirit. ..*(*At Tahrir : 66: 12*)

Well, Allah's declaration: "*...I breathed into Adam My spirit...*(*Shaad: 38: 72*) "*...We breathed into Maryam's womb Our spirit...*(*At Tahrir: 66: 12*) containing "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) or "*...Our spirit...*(*At Tahrir : 66: 12*) is there in every human body.

This Declaration of Allah, which describes the real Allah, through Allah's form, in the form of "*...my spirit...*(*Shaad : 38: 72*) or "*...Allah's spirit...*(*Shaad : 38: 72*) or "*...Our spirit...*(*At Tahrir : 66: 12*) which is built with carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms and becomes a deoxyribonucleic building (DNA), where human DNA consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms, and 35.59% hydrogen atoms. As for carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms as well as other atoms, they are formed by quarks, quarks are formed by Allah's energy and Allah's particle.

So, in fact, if Muslims throughout the world, have understood the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then the human mind has reached the level of Allah's mind, humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit

If humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then human thoughts cannot be separated from Allah's thoughts. Wherever humans are, there Allah is.

Or in other words, *"...I am near...(Al Baqarah: 2: 186) "...We are closer to human than his jugular vein (Qaf: 50:16)*

If Muslims all over the world, had understood *"...I am near...(Al Baqarah: 2: 186) "...We are closer to human than his jugular vein (Qaf: 50:16)*, then there will be no glancing in the Muslim mind, to enter the human mind, which considers *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* or *"...Our spirit...(At Tahrir : 66: 12)* is God, as believed by orthodox Christians, Catholics and Protestants.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"...We are closer to human than his jugular vein (Qaf: 50:16) "...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115) "...I am near...(Al Baqarah: 2: 186) "...I breathed into Adam my spirit...(Shaad : 38: 72) "... We breathed into Maryam's womb Our spirit...(At Tahrir: 66: 12).*

Well, here, Allah declares *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115) "...We are closer to human than his jugular vein (Qaf: 50:16) "... I breathed into Adam My spirit...(Shaad : 38: 72) "...We breathed into Mary's womb Our spirit...(At Tahrir : 66: 12).*

It turns out that this declaration of Allah reveals the secrets of Allah, about the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit.

Now, every human being in the world, if he has understood the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then the human mind has reached the level of Allah's mind, humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit.

Well, this is something that most Muslims in the world still don't understand.

Now, what secret is hidden behind the verse: *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115)?*

Apparently, the secret contained in Allah's declaration: *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115)* is Allah's energy and Allah's particle.

Well, with Allah's energy, which is very small, **0.000000000 000000000 000000000 01** grams per cubic cm, required by Allah particles, which are also very small, almost nothing, **0.000000000 000000000 000000000 000000000 000000000 000000000 00000 33359175420 91889** grams, with more speed than the speed of light, **5475103664604.84** km per second, then it can be proven empirically, Allah is everywhere, *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115)*

This means that when the human eye is directed at one point on the human body, then before the eye is directed to that point on the human body, the Allah's particle using Allah's energy, at a speed greater than the speed of light, **5475103664604.84** km per second, is already present on point, on that human body.

Or in other words, *"...the face of Allah...(Al Baqarah: 2: 115)* is everywhere, because of t Allah's

energy and Allah's particle which have a speed greater than the speed of light, **5475103664604.84** km per second.

This is empirical evidence, *"...wherever you turn there is the face of Allah...(Al Baqarah : 2: 115)*

Well, what is still not understood by almost all Muslims in the world is, Allah's declaration: *"...I breathed into Adam My spirit...(Shaad: 38: 72) "...We breathed into Mary's womb Our spirit. ..(At Tahrir : 66: 12)*

Well, Allah's declaration: *"...I breathed into Adam My spirit...(Shaad: 38: 72) "...We breathed into Maryam's womb Our spirit...(At Tahrir: 66: 12)* containing *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* or *"...Our spirit...(At Tahrir : 66: 12)* is there in every human body.

This Declaration of Allah, which describes the real Allah, through Allah's form, in the form of *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* or *"...Our spirit...(At Tahrir : 66: 12)* which is built with carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms and becomes a deoxyribonucleic building (DNA), where human DNA consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms, and 35.59% hydrogen atoms. As for carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms as well as other atoms, they are formed by quarks, quarks are formed by Allah's energy and Allah's particle.

So, in fact, if Muslims throughout the world, have understood the real Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then the human mind has reached the level of Allah's mind, humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit

If humans are united with Allah, through Allah's form, in the form of Allah's energy, in the form of Allah's particle and in the form of Allah's spirit, then human thoughts cannot be separated from Allah's thoughts. Wherever humans are, there Allah is.

Or in other words, *"...I am near...(Al Baqarah: 2: 186) "...We are closer to human than his jugular vein (Qaf: 50:16)*

If Muslims all over the world, had understood *"...I am near...(Al Baqarah: 2: 186) "...We are closer to human than his jugular vein (Qaf: 50:16)*, then there will be no glancing in the Muslim mind, to enter the human mind, which considers *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* or *"...Our spirit...(At Tahrir : 66: 12)* is God, as believed by orthodox Christians, Catholics and Protestants.
