ABSTRACT

Before the author writes about education in Indonesia must be changed, from separate education, become integral education, which is united, religion is united with science, curriculum: subjects of religion are united with science, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret that education in Indonesia must be changed, from separate education, become integral education, which is united, religion is united with science, curriculum: subjects of religion are united with science, based on deoxyribonucleic acid (DNA).

There are a number of verses that are Allah's revelation regarding education in Indonesia must be changed, from separate education, become integral education, which is united, religion is united with science, curriculum: subjects of religion are united with science, namely the following verses:

"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "O our God, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)

"And indeed We have created man from an extract from the ground. (Al Mu'minuun: 23: 12)

"Then when I have perfected what happened and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected what happened, and have breathed into him My spirit, then submit to him by prostrating (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We had made the apostle an angel, We would have made him a male and, surely We would have doubted about them what they doubted about themselves (Al An'aam: 6: 9)

"And it is not possible for any human being that Allah spoke with him except by means of revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Asy Shuura : 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And when My servants ask you about Me, then, that I am near. I grant the request of a person who prays when he asks Me, then let them fulfill it and let them believe in Me, so that they are always in truth (Al Baqarah: 2: 186)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al

Hadiid: 57: 3)

"He arranges affairs from skys to earth, then it rises to Him in one day, the amount of which is a thousand years according to your calculations (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day which is fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"And they ask you about the spirit. Say: "The spirit is a matter of my Lord, and you are not given knowledge but a little." (Al Israa ': 17: 85)

"And when Moses came at the time We had appointed and the Lord had spoken to him, Moses said: My Lord, show me so that I can see You. The Lord said: You cannot see Me, but look at the mountain then, if he stays where he is, you will be able to see Me. When his Lord appeared to the mountain, he caused it to crumble to pieces and Moses fell unconscious. So when Musa regained consciousness, he said: "Glory to You, I repent in You and I the first to believe." (Al A'raaf: 7: 143)

"And thus We showed Abraham the signs of majesty in the heavens and the earth and so that he would be among those who believe. (Al An'aam: 6: 75)

"When the night was dark, he saw a star he said: "This is my Lord", but when the star was setting he said: "I do not like the sinking." (Al An'aam: 6: 76)

"Then when he saw the moon rising he said: "This is my Lord." But after the moon had set, he said: "Surely if my Lord had not guided me, I would surely have been one of those who went astray." (Al An'aam: 6: 77)

"Then when he saw the sun rising, he said: "This is my Lord, this is greater." So when the sun was setting, he said: "O my people, indeed I am free from what you associate. (Al An'aam: 6: 78)

"It was He who created the skys and the earth in six days: Then He dwells on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is Seeing of what you do. (Al Hadiid: 57: 4)

"God created the heavens and the earth with rights. Indeed, in that there are signs of God's power for the believers (Al 'Ankabuut: 29: 44)

"When his Lord said to him: "Submit, obey!" Abraham replied: "I obey the Lord of the Worlds." (Al Baqarah: 2: 131)

In an effort to open the veil of education in Indonesia must be changed, from separate education, become integral education, which is united, religion is united with science, curriculum: subjects of religion are united with science, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis that education in Indonesia must be changed, from separate education, become integral education, which is united, religion is united with science, curriculum: subjects of religion are united with science, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

EDUCATION IN INDONESIA MUST BE CHANGED, FROM SEPARATE EDUCATION, BECOME INTEGRAL EDUCATION, WHICH IS UNITED, RELIGION IS UNITED WITH SCIENCE, CURRICULUM: SUBJECTS OF RELIGION ARE UNITED WITH SCIENCE

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"...We showed Abraham the signs of majesty in the skys and the earth and so that he would be among those who believe (Al An'aam: 6: 75) "...said Musa: "O my God, show me so that I may look at You" God said: "You are absolutely unable to see Me, but look at the mountain, then if it stays in place you will surely be able to see Me."...(Al A'raaf: 7: 143)*

Apparently, here Allah has declared, about how integral education, united education, between religious education is united with general education, *"...those who remember Allah...and...think about the creation of the skys and the earth...(Ali 'Imran : 3: 191)*

Well, here, there are two educations that are put together, namely first, education based on *"...those who remember Allah... (Ali 'Imran: 3: 191)*. Second, education based on *"...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*

Well, education based on *"...those who remember Allah...(Ali 'Imran: 3: 191)* is education based on religion. While education based on *"...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* is education based on the general public.

So, here, it is clear, Allah declares in terms of education that leads to integral education, comprehensive education, perfect education.

Even though the legal basis in Indonesia is a secular legal basis, however, in matters of education one cannot separate education based on education *"...remembering Allah... (Ali 'Imran: 3: 191)* from education based on *"...thinking about the creation of the skys and the earth...(Ali 'Imran : 3: 191)*

So, in the subject curriculum or the preparation of plans for the teaching process, general subjects (science) and religious subjects are combined. For example, in the subjects of physics, chemistry, biology, anatomy, earth sciences, natural sciences, geography, economics, social, law, psychology, education, history, state administration, where these subjects can be combined with religious subjects.

For example, the subjects of earth sciences, natural sciences, physics are connected with the subjects of monotheism, the subjects of aqidah, the subjects of building belief *"...We showed Ibrahim the signs of majesty in the skys and the earth and so that he would be among those who believe (Al An'aam : 6: 75)*

So, what are general subjects (science) combined with religious subjects. The combination of general subjects (science) and religious subjects, arranged in the subject curriculum, or the preparation of plans for teaching and learning processes.

Why is integral education, which is united, religion is united with general subjects (science), especially in Indonesia?

Because, whatever is in *"...the skys and the earth...(Al Hadiid: 57: 4)* and in *"...the seven skys...(Al Mulk: 67: 3)* is *"...balanced ...(Al Mulk : 67: 3)* and *"Allah created the skys and the earth with rights...(Al 'Ankabuut : 29: 44).*

That is, whatever is in *"...the skys and the earth...(Al Hadiid: 57: 4)* and in *"...the seven skys...(Al Mulk: 67: 3)* can be counted, with certainty, and can be proven scientifically and experimentally.

So, there is no reason to separate general subjects (science) from religious subjects. Because talking about religion is also talking about general subjects (science). So, between Religion and general subjects (science) are unity, between Religion and science is unite, they cannot be separated. Only people who do not understand religion, separate religion from scientific issues, religious issues from the state, religious issues from politics, religious issues from law.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"* *"...We showed Abraham the signs of majesty in the skys and the earth and so that he would be among those who believe (Al An'aam: 6: 75)* *"...said Musa: "O my God, show me so that I may look at You" God said: "You are absolutely unable to see Me, but look at the mountain, then if it stays in place you will surely be able to see Me..."(Al A'raaf: 7: 143)*
