## ABSTRACT

Before the author writes about Hajar Aswad is a black stone, which was built with Allah's spirit, like Allah's spirit, that is in the human body, animals, plants, sun, stars, earth and moon, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about Hajar Aswad is a black stone, which was built with Allah's spirit, like Allah's spirit, that is in the human body, animals, plants, sun, stars, earth and moon, based on Deoxyribonucleic acid (DNA)

There are several verses that open Allah's secret about Hajar Aswad is a black stone, which was built with Allah's spirit, like Allah's spirit, that is in the human body, animals, plants, sun, stars, earth and moon, namely the following verses:

*"Then when I have perfected the body and I have breathed on him my spirit; then you will fall down prostrating to him." (Shaad: 38: 72)*

*"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)*

*"So He made seven skys in two periods. He revealed to each sky its affairs. And We adorned the near sky with bright stars and We took care of it in the best way. Such is the provision of the Almighty, All-Knowing. (Fushshilat) :41:12)*

*"God created the skys and the earth with rights. Indeed, in that there are signs of God's power for the believers (Al 'Ankabuut: 29: 44)*

In an effort to open the veil of Allah's secret about Hajar Aswad is a black stone, which was built with Allah's spirit, like Allah's spirit, that is in the human body, animals, plants, sun, stars, earth and moon, the author uses deoxyribonucleic acid as a basis.

## HYPOTHESIS

Here the author proposes the hypothesis that Hajar Aswad is a black stone, which was built with Allah's spirit, like Allah's spirit, that is in the human body, animals, plants, sun, stars, earth and moon, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

## HAJAR ASWAD IS A BLACK STONE, WHICH WAS BUILT WITH ALLAH'S SPIRIT, LIKE ALLAH'S SPIRIT WHICH IS IN THE HUMAN BODY, ANIMALS, PLANT, SUN, STARS, EARTH AND MOON

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...I breathed into human my spirit...(Shaad : 38: 72)"...He made seven skys...adorned the near sky with bright stars...(Fushshilat: 41: 12)*

Well, it turns out, here Allah or Jahve or Adonai declares to all mankind, *"...He made seven skys...adorned the near sky with bright stars...(Fushshilat: 41: 12)*

Now, in *"...the near sky...(Al Mulk : 67: 5)* there are **100 000 000 000** galaxies, each galaxy consisting of **150 100 000** stars.

In the Milky Way galaxy, where the sun, earth, moon and other planets exist, there are about **150 100 000** stars.

Well, now, when a star has reached the end of its age, some die by exploding, if the star's mass is greater than the sun's mass. However, if a star has the same mass as the sun's mass or less than the sun's mass, then when the star dies, it does not explode, but instead shrinks, without light, because the hydrogen atoms and helium atoms, which make up the star's fuel, run out.

So, if a star has a mass of at least five times that of the sun, then when the star dies, it will explode, which is called a supernova.

Now, what happens, with the material that contains, ferrum or iron atoms, or carbon, hydrogen

atoms, that gets ejected from this exploding star, or this supernova, through the gravity of the earth, the material is pulled by the gravity of the earth, and reaches the earth .

Well, now, one of the materials that reaches Earth from the fragments of an exploding star or supernova is Hajar Aswad.

Well, because paradise is on earth, most Muslims think that the Black Stone came from paradise.

Indeed, the Hajar Aswad comes from paradise, and paradise is on earth, because the Hajar Aswad originates from the fragments of an exploding star or supernova, then it is attracted by the earth's gravity.

Well, in the Hajar Aswad, it contains "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

That is, in the Hajar Aswad there are carbon atoms, hydrogen atoms and ferrum atoms.

Now, this Hajar Aswad, placed in the eastern corner of the Kaaba, 1.5 meters from the ground, is used as a sign, beginning, doing tawaf.

When the Prophet Muhammad saw kissed the black stone, it was not because the Prophet Muhammad saw worshiped the black stone, but because inside the black stone was "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, as "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai that is in the body of the Prophet Muhammad saw, in the body of humans, animals, plants, sun, stars, earth and moon.

Or in other words, humans and Black Stone have a kinship relationship, through "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai.

Well, this is the secret of Allah or Jahve or Adonai, which is still not understood by the majority of Muslims in the world.

## CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "*...I breathed into human my spirit...(Shaad : 38: 72)*" "*...He made seven skys...adorned the near sky with bright stars...(Fushshilat: 41: 12)*

Well, it turns out, here Allah or Jahve or Adonai declares to all mankind, "*...He made seven skys...adorned the near sky with bright stars...(Fushshilat: 41: 12)*

Now, in "*...the near sky...(Al Mulk : 67: 5)* there are **100 000 000 000** galaxies, each galaxy consisting of **150 100 000** stars.

In the Milky Way galaxy, where the sun, earth, moon and other planets exist, there are about **150 100 000** stars.

Well, now, when a star has reached the end of its age, some die by exploding, if the star's mass is greater than the sun's mass. However, if a star has the same mass as the sun's mass or less than the sun's mass, then when the star dies, it does not explode, but instead shrinks, without light, because the hydrogen atoms and helium atoms, which make up the star's fuel, run out.

So, if a star has a mass of at least five times that of the sun, then when the star dies, it will explode, which is called a supernova.

Now, what happens, with the material that contains, ferrum or iron atoms, or carbon, hydrogen atoms, that gets ejected from this exploding star, or this supernova, through the gravity of the earth, the material is pulled by the gravity of the earth, and reaches the earth .

Well, now, one of the materials that reaches Earth from the fragments of an exploding star or supernova is Hajar Aswad.

Well, because paradise is on earth, most Muslims think that the Black Stone came from paradise.

Indeed, the Hajar Aswad comes from paradise, and paradise is on earth, because the Hajar Aswad originates from the fragments of an exploding star or supernova, then it is attracted by the earth's gravity.

Well, in the Hajar Aswad, it contains "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

That is, in the Hajar Aswad there are carbon atoms, hydrogen atoms and ferrum atoms.

Now, this Hajar Aswad, placed in the eastern corner of the Kaaba, 1.5 meters from the ground, is used as a sign, beginning, doing tawaf.

When the Prophet Muhammad saw kissed the black stone, it was not because the Prophet Muhammad saw worshiped the black stone, but because inside the black stone was "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, as "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai that is in the body of the Prophet Muhammad saw, in the body of humans, animals, plants, sun, stars, earth and moon.

Or in other words, humans and Black Stone have a kinship relationship, through "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai.

Well, this is the secret of Allah or Jahve or Adonai, which is still not understood by the majority of Muslims in the world.
