## ABSTRACT

Before the author writes about Hindus thoughts and Buddhist thought, regarding incarnation, has reached the level, Allah's thoughts, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Hindus thoughts and Buddhist thought, regarding incarnation, has reached the level, Allah's thoughts, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets regarding Hindus thoughts and Buddhist thought, regarding incarnation, has reached the level, Allah's thoughts, namely the following verses:

*"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate yourself to Adam (Shaad: 38: 72)*

*"And Maryam bint Imran who maintained her honour, then We breathed into Maryam's womb Our spirit, and she confirmed the words of her Rabb and His Books, and she was one of those who obey. (At Tahrir: 66: 12)*

*"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit incarnated before Maryam, the perfect human. (Maryam: 19: 17)*

In an effort to open the veil of Allah's secrets regarding Hindus thoughts and Buddhist thought, regarding incarnation, has reached the level, Allah's thoughts, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes hypothesis Hindus thoughts and Buddhist thought, regarding incarnation, has reached the level, Allah's thoughts, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and

contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **HINDUS THOUGHT AND BUDDHIST THOUGHT, REGARDING INCARNATION, HAS REACHED THE LEVEL, ALLAH'S THOUGHTS**

So now, we are still concentrating our minds on uncovering the secrets contained behind the verses: *"...I breathed into Adam My spirit...(Shaad : 38: 72)"...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12) "...Our spirit incarnated before Maryam, the perfect human (Maryam : 19: 17)*

Well, here, Allah, reveals the true secret about *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17)*, who was incarnated as *"...a perfect human (Maryam: 19: 17)*

It turns out, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17)*, whose incarnation as *"...a perfect human (Maryam: 19: 17)*, has been thought of by Hindus and Buddhists.

Well, now the question arises,

Why have Hindus and Buddhists made incarnation a belief ?

Well, the answer is in the secret behind the verses: *"...I breathed into Adam My spirit...(Shaad : 38: 72)"...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12) "...Our spirit incarnated before Maryam, the perfect human (Maryam : 19: 17)*

It means, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17)* is present in every human body. Not only is it in every human body, but also in every animal, plant, flower, fungus, bacteria, amoeba, archaea, viruses and other inanimate objects, such as iron, steel, stone.

What exactly is, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17) ?*

Well, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17)* built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or it could also be said, *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad: 38: 72)* or *"...Our spirit...(Maryam: 19: 17)* is built with Deoxyribonucleic acid (DNA). Human DNA consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Well, the secret revealed by Allah, about *"...Our spirit incarnated...perfect human (Maryam : 19: 17)* are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which become the building blocks of Deoxyribonucleic acid (DNA) which *"...incarnated...(Maryam : 19: 17)* as humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea, viruses.

This means that humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea, viruses need hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival.

Or in other words, Allah, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea and viruses, through incarnation, through hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, this is a big secret that almost all people in the world don't understand, how Allah, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen and oxygen atoms.

Well, it turns out that the method of incarnation is used as a basis for belief in Hinduism and Buddhism.

Only Hindus and Buddhists do not understand what incarnation is. For example, Vishnu was incarnated as a fish, turtle and human. Humans are incarnated many times. What is incarnated from within humans becomes a new human again, or becomes an animal, or becomes stone, becomes iron, becomes another inanimate object.

In Hinduism and Buddhism it is not explained clearly, and there is no empirical evidence.

Well, here, Allah, has revealed the real secret, about *"...Our spirit incarnated...perfect human (Maryam : 19: 17)*

This means hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which are incarnated as humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea and viruses.

Now the question arises,

Why are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms incarnated as humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea and even viruses?

Because, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live until age 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

So, as long as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms live, during this time these atoms come in and out of the human body, animals, plants, flowers, fungi, bacteria, amoeba, archaea and even viruses.

Well, this is actually what is used as the basis of Hinduism and Buddhism. Only Hindus and Buddhists don't understand.

It turns out that Hindu and Buddhist thinking about incarnation has reached the level of Allah's thinking. Where Allah has given a description and explanation about, *"...Our spirit incarnated...perfect human (Maryam : 19: 17)*

## CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"...I breathed into Adam My spirit...(Shaad : 38: 72)"...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12) "...Our spirit incarnated before Maryam, the perfect human (Maryam : 19: 17)*

Well, here, Allah, reveals the true secret about *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17), who was incarnated as "...a perfect human (Maryam: 19: 17)*

It turns out, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17), whose incarnation as "...a perfect human (Maryam: 19: 17), has been thought of by Hindus and Buddhists.*

Well, now the question arises,

Why have Hindus and Buddhists made incarnation a belief ?

Well, the answer is in the secret behind the verses: *"...I breathed into Adam My spirit...(Shaad : 38: 72)"...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12) "...Our spirit incarnated before Maryam, the perfect human (Maryam : 19: 17)*

It means, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17)* is present in every human body. Not only is it in every human body, but also in every animal, plant, flower, fungus, bacteria, amoeba, archaea, viruses and other inanimate objects, such as iron, steel, stone.

What exactly is, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17) ?*

Well, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17)* built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or it could also be said, *"...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad: 38: 72) or "...Our spirit...(Maryam: 19: 17)* is built with Deoxyribonucleic acid (DNA). Human DNA consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Well, the secret revealed by Allah, about *"...Our spirit incarnated...perfect human (Maryam : 19: 17)* are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which become the building blocks of Deoxyribonucleic acid (DNA) which *"...incarnated...(Maryam : 19: 17)* as humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea, viruses.

This means that humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea, viruses need hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival.

Or in other words, Allah, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea and viruses, through incarnation, through hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, this is a big secret that almost all people in the world don't understand, how Allah, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen and oxygen atoms.

Well, it turns out that the method of incarnation is used as a basis for belief in Hinduism and Buddhism.

Only Hindus and Buddhists do not understand what incarnation is. For example, Vishnu was incarnated as a fish, turtle and human. Humans are incarnated many times. What is incarnated from within humans becomes a new human again, or becomes an animal, or becomes stone, becomes iron, becomes another inanimate object.

In Hinduism and Buddhism it is not explained clearly, and there is no empirical evidence.

Well, here, Allah, has revealed the real secret, about "*...Our spirit incarnated...perfect human (Maryam : 19: 17)*

This means hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which are incarnated as humans, animals, plants, flowers, fungi, bacteria, amoeba, archaea and viruses.

Now the question arises,

Why are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms incarnated as humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea and even viruses?

Because, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live until age **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years.

So, as long as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms live, during this time these atoms come in and out of the human body, animals, plants, flowers, fungi, bacteria, amoeba, archaea and even viruses.

Well, this is actually what is used as the basis of Hinduism and Buddhism. Only Hindus and Buddhists don't understand.

It turns out that Hindu and Buddhist thinking about incarnation has reached the level of Allah's thinking. Where Allah has given a description and explanation about, "*...Our spirit incarnated...perfect human (Maryam : 19: 17)*
