ABSTRACT

Before the author writes about how really was, the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque on the night of the 27th of Rajab, the 11th year of Prophethood, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of how really was, the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque on the night of the 27th of Rajab, the 11th year of Prophethood, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about how really was, the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque on the night of the 27th of Rajab, the 11th year of Prophethood, namely the following verses:

*"Allah the light of the skys and the earth... the light above the light, Allah guides to His light...
(An Nuur : 24: 35)*

"Glory be to Allah, who had traveled his servant one night from Al Masjidil Haram to Al Masjidil Aqsa which We have blessed around him so that We show him some of Our signs. Truly He is All Hearing, All Knowing. (Al Israa ' :17:1)

"Verily he has seen some of the greatest signs of his Lord." (An Najm: 53: 18)

*"And We wind for Sulayman, whose journey in the morning is equal to a month's journey and his journey in the evening is equal to a month's journey and We flow copper fluid for him. And some of the jinn are working before him with the permission of their Lord. And whoever strays in among them from Our command, We taste for him the punishment of hell whose fire is burning
(Saba ': 34: 12)*

"And indeed We have created man from an extract from the soil (Al Mu'minuun: 23: 12)

"Then when I have perfected what happened and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected what happened, and have breathed into him My spirit, then submit to him with prostration (Al Hjr: 15: 29)

"Then He perfected and breathed into him His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And they ask you about the spirit. Say: "The spirit is the interest of my God, and you are not given knowledge but a little." (Al Israa ' : 17: 85)

"And Maryam bint Imran who maintains her honor, then We breathed into Maryam's womb Our spirit, and she confirms the words of her God and His Books, and she is one of those who obey.

(At Tahirim: 66: 12)

"So Maryam made a veil from them; then We sent Our spirit to her, so Our spirit became incarnated before Maryam, a perfect human being. (Maryam: 19: 17)

"And when My servants ask you about Me, then, that I am near. I grant the request of a person who prays when he asks Me, then let them fulfill it and let them believe in Me, so that they are always in truth (Al Baqarah: 2: 186)

"He arranges affairs from skys to earth, then it rises to Him in one day, the amount of which is a thousand years according to your calculations (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose value is fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"He created the skys and the earth with haq. He shaped your appearance and beautified your appearance and only to Allah is the return (At Taghaabun: 64: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"And when Moses came at the time We had appointed and God had spoken to him, Moses said, "O my God, show me so I can see You." God said: "You cannot see Me, but look at me. that hill, if he stays where he is you can see Me. When his God appeared to the mountain, the mountain was crushed to pieces and Moses fell unconscious. After Musa regained consciousness, he said: "Glory to You, I repent to You and I am the first person to believe." (Al A'raaf : 7: 143)

"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36: 9)

In an effort to open the veil of Allah's secret about how really was, the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque on the night of the 27th of Rajab, the 11th year of Prophethood, the author uses deoxyribonucleic acid as the basis.

HYPOTHESIS

Here the author proposes the hypothesis that the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque on the night of the 27th of Rajab, the 11th year of Prophethood, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

HOW REALLY WAS, THE PROPHET MUHAMMAD SAW WAS TRAVELED BY ALLAH, FROM THE HARAM MOSQUE TO THE AQSA MOSQUE ON THE NIGHT OF THE 27th OF RAJAB, THE 11TH YEAR OF PROPHETHOOD

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"Glory be to Allah, who had traveled his servant one night from Al Masjid Al Haram to Al Masjid Al Aqsa ... (Al Israa' : 17: 1)*

Here, Allah has declared *"Glory be to Allah, who had traveled his servant one night from Al Masjid Al Haram to Al Masjid Al Aqsa ... (Al Israa' : 17: 1)*

Now the question arises,

How did Allah travel the Prophet Muhammad saw from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine which is 1461 km away, if you use a car now, it takes 17 hours and 30 minutes?

The answer is in the secret behind the verse: *"...We showed him some of Our signs...(Al Israa' : 17: 1)*

So, what exactly are *"...signs of Allah...(Al Israa' : 17: 1)*?

The answer was *"...Allah...traveled the Prophet Muhammad saw...(Al Israa' : 17: 1)* to use the room.

How to walk using the room?

Well, the method is to use the earth that is above the room.

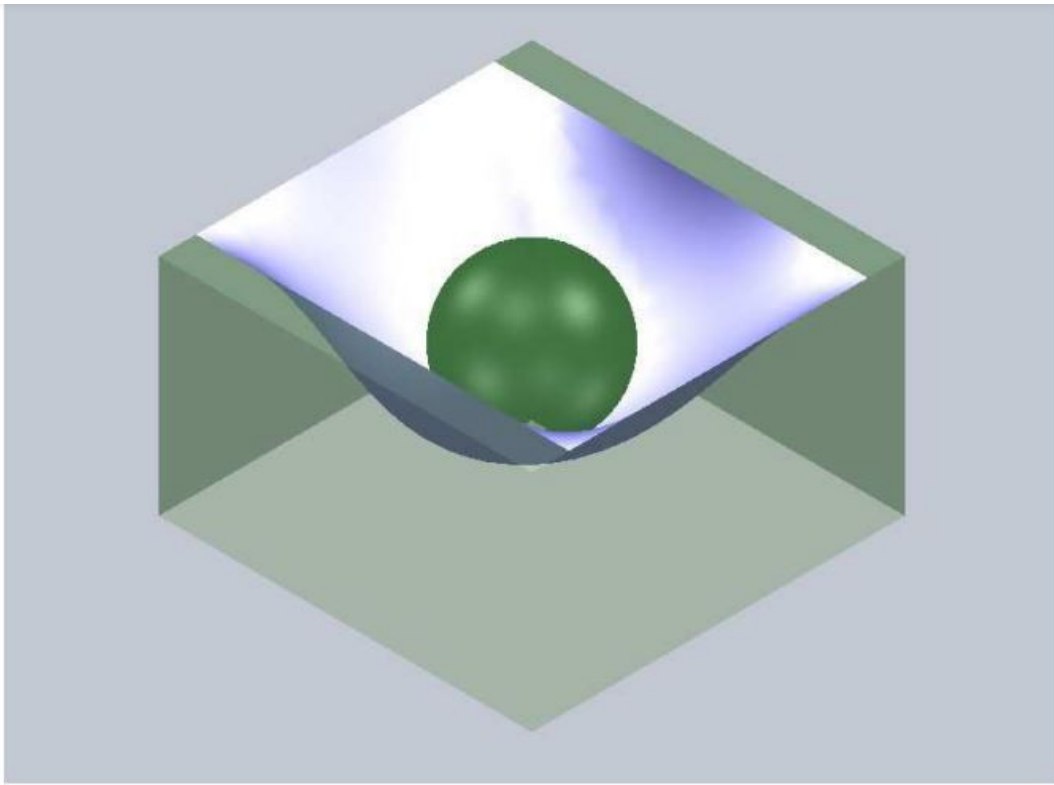

Figure 12: Earth on a dynamic space.

Well, the earth is above a dynamic room, meaning that space can be affected by mass, force and energy. Or in other words the room can be curved, bent, spread and rolled.

As shown in Figure 12, the earth is above the space that is curved downwards. This means that the space under the earth is curved according to the shape of the lower part of the earth.

So, on the night of the 27th of Rajab, the 11th year of Prophethood, coinciding with the 11th of March 620 AD, the Prophet Muhammad was carried by Allah SWT from Al Masjid Al Haram to Al Masjid Al Aqsa with the intention of showing him some of the signs of the greatness of Allah SWT.

The signs of the greatness of Allah SWT are that Allah SWT has prepared a room to be used by the Prophet Muhammad saw on the way from Al Masjid Al Haram to Al Masjid Al Aqsa.

In figure 13 below, it is illustrated that the Haram Mosque is located in a place around the circle numbered 2 and Al Masjid Al Aqsa is located around numbers 1 and 2. On the night of 27 Rajab year 11 prophethood the room in places number 1 and 2 moves faster than the speed of light (speed of light **299 792, 458** km per second) towards Al Masjid Al Haram in circle number 2, see picture 14 below.

This, is proof, how the Prophet Muhammad saw on the night of the 27th Rajab year 11 prophethood coinciding with the 11th of March 620 AD was carried by the Prophet Muhammad saw by Allah SWT from Al Masjidil Haram to Al Masjidil Aqsa with the intention to show him some of the signs of greatness Allah SWT.

So, *"...some of the signs of Allah...(Al Israa' : 17: 1)* are carried by the Prophet Muhammad saw by Allah SWT from Al Masjid Al Haram to Al Masjid Al Aqsa through the room.

In just a few minutes, the Prophet Muhammad saw by using the room, from the Haram Mosque in

Mecca to the Aqsa Mosque in Palestine which is 1461 km away, has arrived. If you use a car, now, it takes 17 hours and 30 minutes.

After the Prophet Muhammad saw arrived at Al Masjid Al Aqsa, then performed the prayer, *"...he saw some of the greatest signs of his Lord (An Najm: 53: 18)*

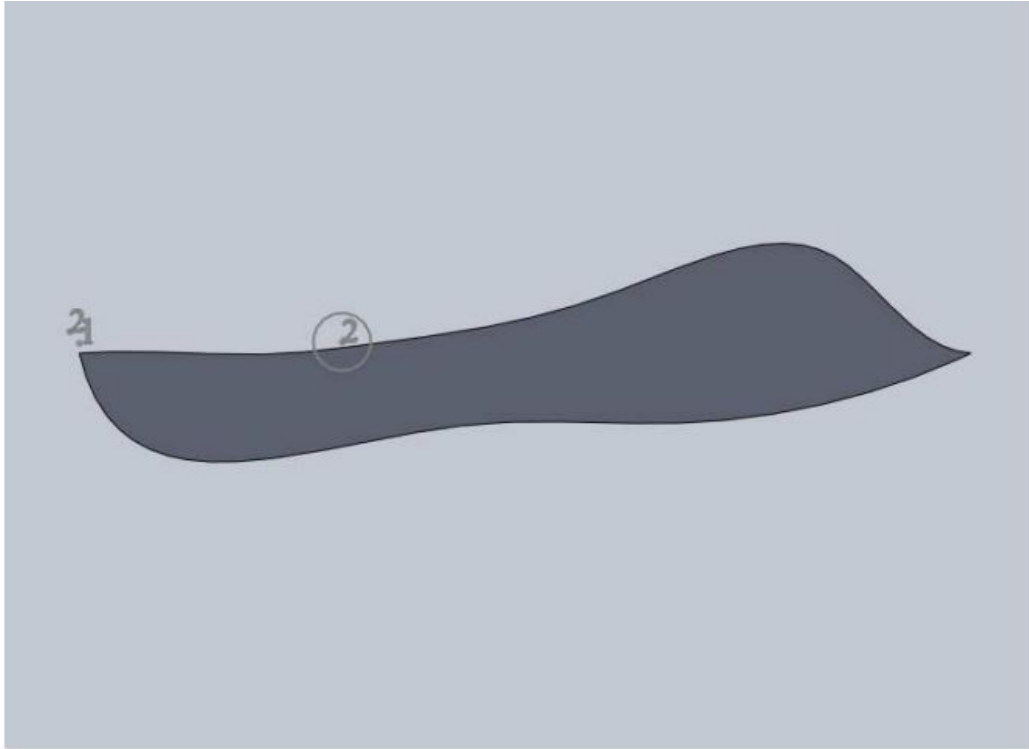

Figure 13: The room number 2 to the left to move to the right through a curved road leading to the room number 2 in a circle. As depicted in the picture number 14 below.

The return time from Al Masjid Al Aqsa to Al Masjid Al Haram is through the same procedure as when Rasulullah SAW entered the room coming from Al Masjid Al Aqsa to meet the room in Al Masjid Al Haram. So, Rasulullah SAW entered the Al Masjid Al Aqsa room which walked towards Al Masjid Al Haram and when he arrived at Al Masjid Al Haram, Rasulullah SAW left the room and then set his foot again in Al Masjid Al Haram. When Rasulullah SAW arrived at his house, the nature around Mecca was still pitch black and all the people around Mecca were still sleeping, but Rasulullah SAW had been driven that night by Allah SWT from Al Masjidil Haram to Al Masjidil Aqsa *"...he had seen some signs -the greatest sign of God"*. (An Najm: 53: 18)

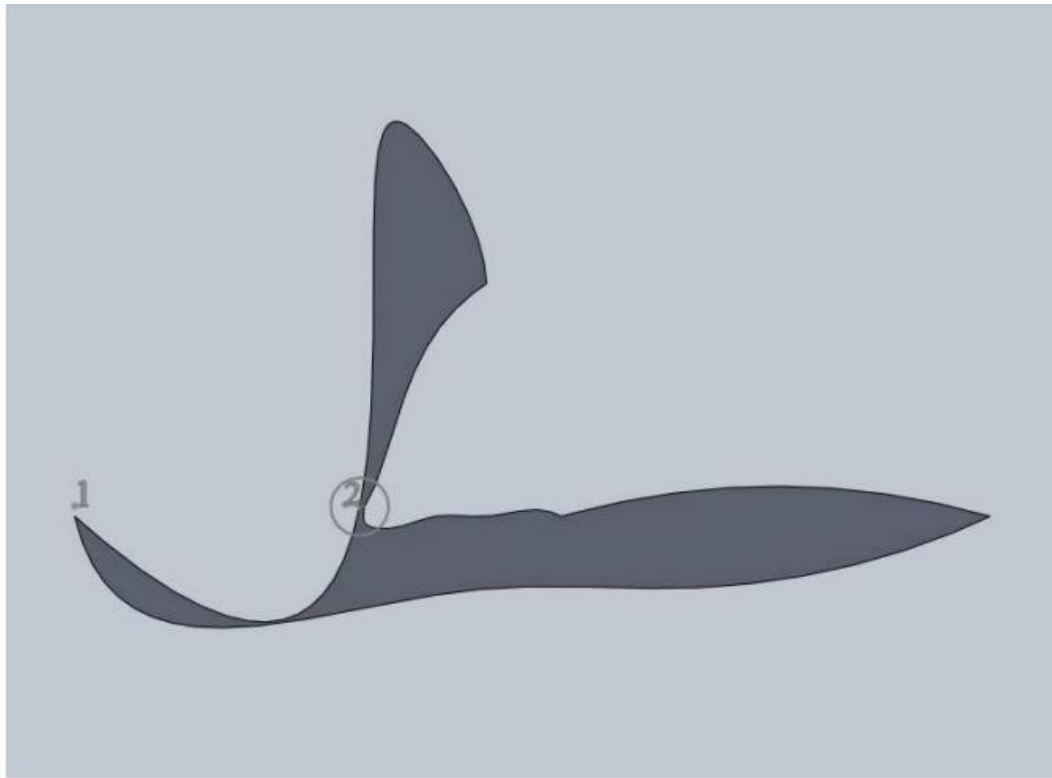

Figure 14: The room moves from the left of the number 1 curved to the right of the circle with the number 2 on up and headed back down to the circle with the number 2 again.

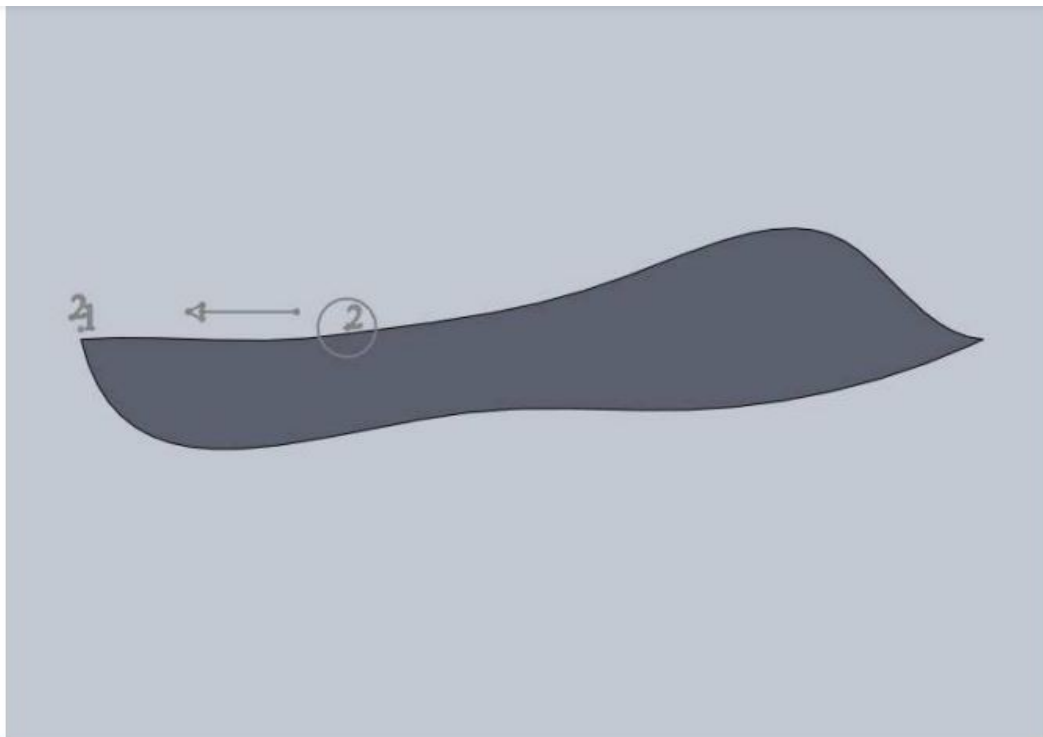

Figure 15: The room in the circle with the number 2 back moves to the left in to the room of origin in the number 1.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses:

"Glory be to Allah, Who has sent His servant one night from Al Masjid Al Haram to Al Masjid Al Aqsa ... (Al Israa' : 17: 1)

Here, Allah has declared ***"Glory be to Allah, who has brought His servant one night from Al Masjid Al Haram to Al Masjid Al Aqsa...(Al Israa' : 17: 1)***

Now the question arises,

How did Allah travel the Prophet Muhammad saw from the Grand Mosque in Mecca to the Aqsa Mosque in Palestine which is 1461 km away, if you use a car now, it takes 17 hours and 30 minutes?

The answer is in the secret behind the verse: ***"...We showed him some of Our signs...(Al Israa' : 17: 1)***

So, what exactly are ***"...signs of Allah...(Al Israa' : 17: 1)***?

The answer was ***"...Allah...traveled the Prophet Muhammad saw...(Al Israa' : 17: 1)*** to use the room.

How to walk using the room?

Well, the method is to use the earth that is above the room.

Well, the earth is above a dynamic room, meaning that space can be affected by mass, force and energy. Or in other words the room can be curved, bent, spread and rolled.

The earth is above the room that is curved downwards. This means that the space under the earth is curved according to the shape of the lower part of the earth.

The signs of the greatness of Allah SWT are that Allah SWT has prepared a room to be used by the Prophet Muhammad saw on the way from Al Masjid Al Haram to Al Masjid Al Aqsa.

The room that will carry the Prophet Muhammad saw is near Al Masjid Al Aqsa. On the night of 27 Rajab, year 11 prophethood, the room near Al Masjid Al Aqsa moves faster than the speed of light (the speed of light is 299 792, 458 km per second) towards Al Masjid Al Haram.

After the room that would carry the Prophet Muhammad saw arrived near the Grand Mosque, then the Prophet Muhammad saw walked over the room.

This, is proof, how the Prophet Muhammad saw on the night of the 27th Rajab year 11 prophethood coinciding with the 11th of March 620 AD was carried by the Prophet Muhammad saw by Allah SWT from Al Masjidil Haram to Al Masjidil Aqsa with the intention to show him some of the signs of greatness Allah SWT.

So, ***"...some of the signs of Allah...(Al Israa' : 17: 1)*** are carried by the Prophet Muhammad saw by Allah SWT from Al Masjid Al Haram to Al Masjid Al Aqsa through the room.

In just a few minutes, the Prophet Muhammad saw by using the room, from the Grand Mosque in Mecca to the Aqsa Mosque in Palestine which is 1461 km away, has arrived. If you use a car, now,
