ABSTRACT

First, by begging for forgiveness from Allah SWT, here the author tries to uncover the signs of Allah SWT's greatness regarding how really, humans can prove, Allah or Jahve existed, before the seven skys and all its contents created, based on the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).)

Signs of the greatness of Allah SWT regarding how humans can actually prove, Allah or Jahve existed, before the seven skys and all of them were created, are stored in the verses:

"Allah, there is no God but He who lives eternally, continuously takes care of; does not get sleepy and does not sleep. What belongs to Him in the heavens and on earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they do not know anything from Allah's knowledge except what He wills. Allah's Chair covers the heavens and the earth. And Allah does not find it hard to care for them both, and Allah is Most High, Most Great.(Al Baqarah: 2: 255)

"He is Allah, who made everything on earth for you and He willed the heavens, then made seven skys. And He is All-Knower of all things. (Al Baqarah: 2: 29)

"So when I have perfected what happened, and have breathed into it My spirit, then submit to him with prostration (Al Hijr: 15: 29)

"Angels and spirits ascend to God in a day that is fifty thousand years Al Ma'aarij (70: 4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)

"And they do not glorify Allah with the proper exaltation when the earth is entirely in His hands on the Day of Resurrection and the heavens are rolled up with His right hand. Glory be to God and Most High is He from what they associate with. (Az Zumar: 39: 67)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

In an effort to uncover the greatness of Allah SWT regarding how really, humans can prove, Allah or Jahve existed, before the seven skys and all its contents created, the author uses the basis of photons, quarks and deoxyribonucleic acid (DNA).

HYPOTHESES

Here the author proposes the hypothesis humans can prove, Allah or Jahve existed, before the seven skys and all its contents created, through Allah's form in the form of Allah's energy, Allah's particles

and *"...my spirit...(Al Hijr : 15: 29)* or *"...Allah's spirit...(Al Hijr : 15: 29)*, based on deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure form a double helix and which contain polynucleotide macromolecules arranged together repeatedly from the nucleotide polymer. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

HOW REALLY, HUMANS CAN PROVE, ALLAH OR JAHVE EXISTED, BEFORE THE SEVEN SKYS AND ALL ITS CONTENTS CREATED

Now, we are still concentrating on uncovering the secret behind the verse: *"He is the Beginning...(Al Hadiid: 57: 3)"... I...breathe into the human body of my spirit...(Al Hijr: 15: 29)"...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)*

It turns out that here Allah declares *"...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)*

Now the question arises,

Was there anything before Allah existed?

Well, the answer is hidden in the secret behind the verse: *"...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)*

The meaning here is, what is in Allah's form, is in the seven skys and all that is in them.

What is in Allah's form is the energy of Allah *"... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115)*, particles of Allah *"... the face of Allah...(Al Baqarah : 2: 115)* and *"...my spirit...(Al Hijr : 15: 29)* or *"...Allah's spirit...(Al Hijr : 15: 29)*

Where, Allah's energy is very small **0.000000000 000000000 000000000 01** gram per cubic cm.

Also Allah's particle is minuscule, almost non-existent, 0.000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams, which has the speed of light 5 475 103 664 604.84. Likewise "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29) which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen.

So, now, something that existed before Allah existed or something that existed before Allah's energy "... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah "... the face of Allah...(Al Baqarah : 2: 115) and "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29) is something that is not can be compared with Allah.

Or in other words, something that cannot be compared with Allah's energy "... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah "... the face of Allah...(Al Baqarah : 2: 115) and "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29)

Well, because of something that cannot be compared with Allah's form in the form of Allah's energy "... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah "... the face of Allah...(Al Baqarah : 2: 115) and "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29), then something is something that there isn't any or that does not exist.

So, because something is something that there isn't any or that does not exist, then it becomes "*He is the First...*(Al Hadiid: 57: 3)

With this, humans can prove that Allah or Jahve existed, before the seven skys and everything in them were created

CONCLUSION

From what has been described above we can now conclude that the secret behind the verse: "*He is the Beginning...*(Al Hadiid: 57: 3)" "... I...breathe into the human body of my spirit...(Al Hijr: 15: 29)" "...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)

It turns out that here Allah declares "...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)

Now the question arises,

Was there anything before Allah existed?

Well, the answer is hidden in the secret behind the verse: "...He willed the skys, then made seven skys...(Al Baqarah: 2: 29)

The meaning here is, what is in Allah's form, is in the seven skys and all that is in them.

What is in Allah's form is the energy of Allah "... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah "... the face of Allah...(Al Baqarah : 2: 115) and "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29)

Where, Allah's energy is very small 0.000000000 000000000 000000000 01 gram per cubic cm.

Also Allah's particle is minuscule, almost non-existent, 0.000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams, which has the speed of light 5 475 103 664 604.84. Likewise "...my spirit...(Al Hijr : 15: 29) or "...Allah's spirit...(Al Hijr : 15: 29) which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen.

So, now, something that existed before Allah existed or something that existed before Allah's energy *"... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah"...* *the face of Allah...(Al Baqarah : 2: 115)* and *"...my spirit...(Al Hjr : 15: 29)* or *"...Allah's spirit...(Al Hjr : 15: 29)* is something that is not can be compared with Allah.

Or in other words, something that cannot be compared with Allah's energy *"... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah"...* *the face of Allah...(Al Baqarah : 2: 115)* and *"...my spirit...(Al Hjr : 15: 29)* or *"...Allah's spirit...(Al Hjr : 15: 29)*

Well, because of something that cannot be compared with Allah's form in the form of Allah's energy *"... wherever you turn there is the face of Allah... (Al Baqarah : 2: 115), particles of Allah"...* *the face of Allah...(Al Baqarah : 2: 115)* and *"...my spirit...(Al Hjr : 15: 29)* or *"...Allah's spirit...(Al Hjr : 15: 29)*, then something is something that there isn't any or that does not exist.

So, because something is something that there isn't any or that does not exist, then it becomes *"He is the First...(Al Hadiid: 57: 3)*

With this, humans can prove that Allah or Jahve existed, before the seven skys and everything in them were created
