ABSTRACT

Before the author writes about how the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secret of how the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about how the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque, namely the following verses:

"Glory be to Allah, who has traveled His servant one night from the Haram Mosque to the Aqsa Mosque, which We have blessed around him so that We may show him some of Our signs. Verily He is the All-Hearing, All-Knowing. (Al Israa' :17:1)

"He has seen some of the greatest signs of his God. (An Najm: 53: 18)

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate yourself to him. (Shaad : 38: 72)

"Angels and spirit ascend to God in a day worth fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, you see something that is not balanced (Al Mulk: 67: 3)

In an effort to uncover the secret of Allah about how the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsha Mosque, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis the Prophet Muhammad saw was traveled by Allah, from the Haram Mosque to the Aqsa Mosque, using space, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

HOW THE PROPHET MUHAMMAD SAW WAS TRAVELED BY ALLAH, FROM THE HARAM MOSQUE TO THE AQSA MOSQUE

So now, we are still concentrating our minds on uncovering the secrets contained behind the verses: *"Glory be to Allah, who has traveled His servant one night from the Haram Mosque to the Aqsa Mosque...(Al Israa' : 17: 1)*

Here, Allah has declared *"Allah, who has traveled His servant one night from the Haram Mosque to the Aqsa Mosque...(Al Israa' : 17: 1)*

Now the question arises,

How did Allah take the Prophet Muhammad saw from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine, a distance of 1461 km, if by car, now, it takes 17 hours 30 minutes?

The answer is in the secret behind the verse: *"...We show him some of Our signs...(Al Israa' : 17: 1)*

So, what exactly are *"...the signs of Allah...(Al Israa': 17: 1)*?

The answer is *"...Allah...take His servants...(Al Israa' : 17: 1)* by using a room.

How did the Prophet Muhammad saw use the room?

So, the way to do this is to use the earth above the room.

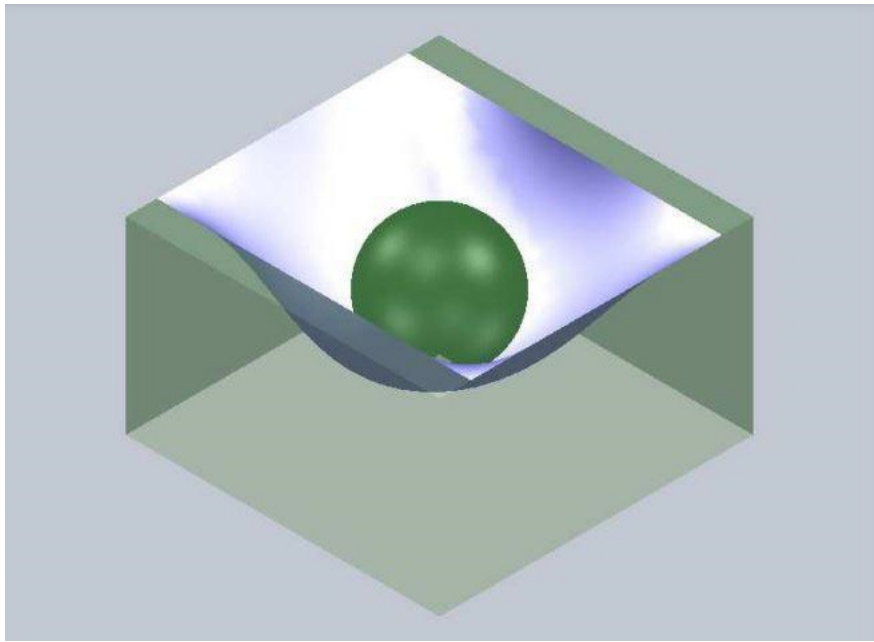

Figure 1: The Earth is above a dynamic room.

Well, the earth is above a dynamic space, meaning the space can be influenced by mass, force and energy. Or in other words the room can be curved, bent, spread and rolled.

As shown in Figure 1, the earth is above a space that curves downwards. This means that the space beneath the earth is curved according to the shape of the earth's sphere at the bottom.

So, on the night of 27 Rajab in the 11th year of the prophethood, coinciding with March 11, 620 AD, the Prophet Muhammad saw was carried by Allah from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine with the intention of showing Prophet Muhammad saw some of the signs of the greatness of Allah.

Signs of Allah's greatness are that Allah has prepared a room to be used by the Prophet Muhammad saw on his journey from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine.

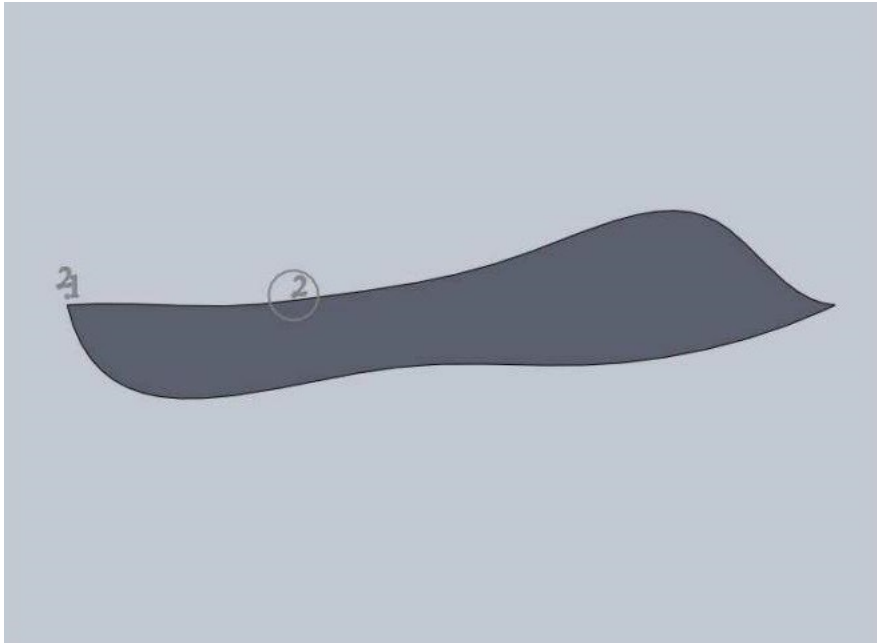

Figure 2: Room number 2 on the left moves to the right via a curved path leading to room number 2 in a circle. As depicted in image number 14 below.

In figure 2, it is depicted that the Haram Mosque is located around the circle number 2 and the Aqsa Mosque is located around numbers 1 and 2. On the night of 27 Rajab 11 prophetic years the rooms in places number 1 and 2 move at the speed of light (the speed of light is 299 792, 458 km per second) towards the Haram Mosque in the circle numbered 2, see figure 3.

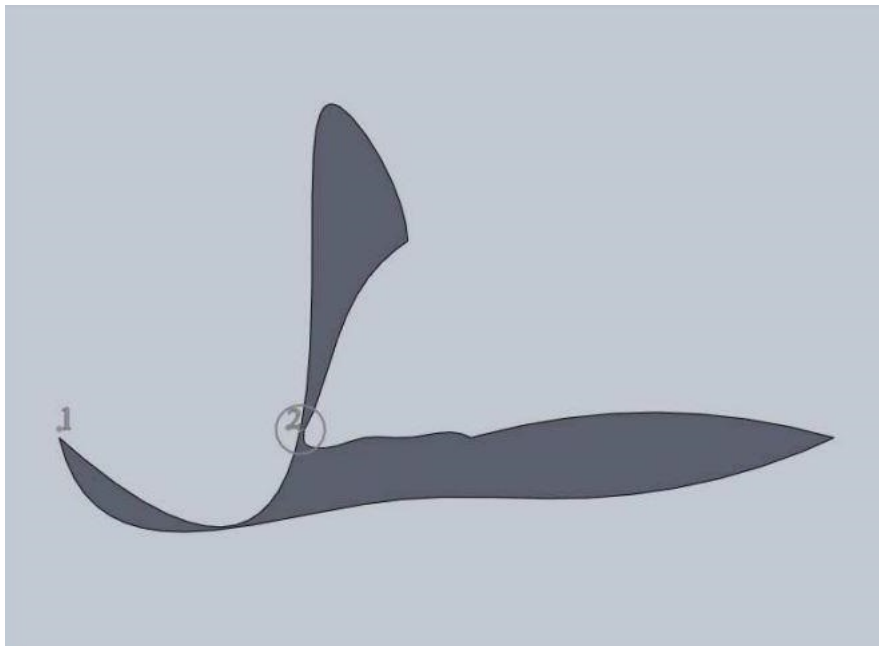

Figure 3: The room moves from the left of number 1 curving to the right of the circle with number 2 continuing upwards and heading back down to the circle with number 2 again.

This is proof of how the Prophet Muhammad saw on the night of the 27th Rajab of the 11th year of the prophethood coinciding with the 11th of March 620 AD, the Prophet Muhammad saw was carried by Allah from the Haram Mosque to the Aqsa Mosque with the intention of showing the Prophet Muhammad saw *"...some of the signs of Allah...(Al Israa' : 17: 1)"*

So, *"...some of the signs of Allah...(Al Israa' : 17: 1)"* is that the Prophet Muhammad saw was carried out by Allah from the Haram Mosque to the Aqsa Mosque through the room.

In less than 1 second, the Prophet Muhammad saw using space, from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine, a distance of 1461 km, had arrived. If you use a car, now it takes 17 hours 30 minutes, see figure 4.

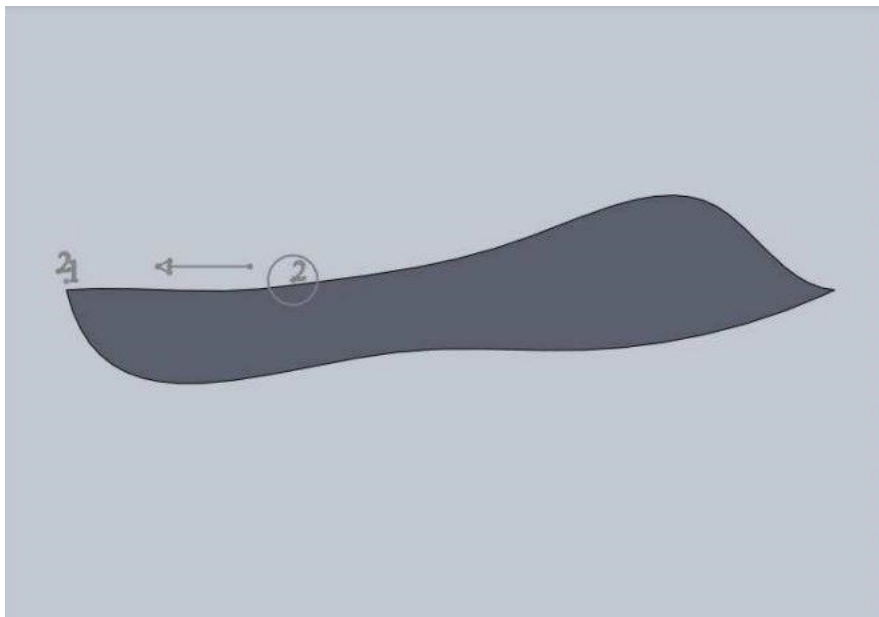

Figure 4: The room in the circle with number 2 moves again to the left to the original room in place number 1.

After the Prophet Muhammad saw arrived at the Aqsa Mosque, then prayed, *"...he had seen some the greatest signs of his God" (An Najm: 53: 18)"*

The return journey from the Aqsa Mosque to the Haram Mosque is through the same procedure as when the Prophet Muhammad entered the room, who came from the Aqsa Mosque to the Haram Mosque.

So, the Prophet Muhammad saw entered the room, at the Aqsa Mosque, who walked towards the Haram Mosque, when the room arrived at the Haram Mosque, the Prophet Muhammad saw came out of the room and set his feet again at the Haram Mosque

When the Prophet Muhammad saw arrived at his house, the environment around Mecca was still pitch black and all the residents around Mecca were still sleeping, but the Prophet Muhammad saw was carried that night by Allah from the Haram Mosque to the Aqsa Mosque *"...he had seen some the greatest signs of his God" (An Najm: 53: 18)"*

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses:

"Glory be to Allah, who has traveled His servant one night from the Haram Mosque to the Aqsa Mosque...(Al Israa' : 17: 1)

Here, Allah has declared ***"Allah, who has traveled His servant one night from the Haram Mosque to the Aqsa Mosque...(Al Israa' : 17: 1)***

Now the question arises,

How did Allah take the Prophet Muhammad saw from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine, a distance of 1461 km, if by car, now, it takes 17 hours 30 minutes?

The answer is in the secret behind the verse: ***"...We show him some of Our signs...(Al Israa' : 17: 1)***

So, what exactly are ***"...the signs of Allah...(Al Israa': 17: 1)***?

The answer is ***"...Allah...take His servants...(Al Israa' : 17: 1)*** by using a room.

How did the Prophet Muhammad saw use the room?

So, the way to do this is to use the earth above the room.

Well, the earth is above a dynamic space, meaning the space can be influenced by mass, force and energy. Or in other words the room can be curved, bent, spread and rolled.

As shown in Figure 1, the earth is above a space that curves downwards. This means that the space beneath the earth is curved according to the shape of the earth's sphere at the bottom.

So, on the night of 27 Rajab in the 11th year of the prophethood, coinciding with March 11, 620 AD, the Prophet Muhammad saw was carried by Allah from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine with the intention of showing Prophet Muhammad saw some of the signs of the greatness of Allah.

Signs of Allah's greatness are that Allah has prepared a room to be used by the Prophet Muhammad saw on his journey from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine.

In figure 2, it is depicted that the Haram Mosque is located around the circle number 2 and the Aqsa Mosque is located around numbers 1 and 2. On the night of 27 Rajab 11 prophetic years the rooms in places number 1 and 2 move at the speed of light (the speed of light is 299 792, 458 km per second) towards the Haram Mosque in the circle numbered 2, see figure 3.

This is proof of how the Prophet Muhammad saw on the night of the 27th Rajab of the 11th year of the prophethood coinciding with the 11th of March 620 AD, the Prophet Muhammad saw was carried by Allah from the Haram Mosque to the Aqsa Mosque with the intention of showing the Prophet Muhammad saw ***"...some of the signs of Allah...(Al Israa' : 17: 1)***

So, ***"...some of the signs of Allah...(Al Israa' : 17: 1)*** is that the Prophet Muhammad saw was carried out by Allah from the Haram Mosque to the Aqsa Mosque through the room.

In less than 1 second, the Prophet Muhammad saw using space, from the Haram Mosque in Mecca to the Aqsa Mosque in Palestine, a distance of 1461 km, had arrived. If you use a car, now it takes 17 hours 30 minutes, see figure 4.

After the Prophet Muhammad saw arrived at the Aqsa Mosque, then prayed, "*...he had seen some the greatest signs of his God*" (An Najm: 53: 18)

The return journey from the Aqsa Mosque to the Haram Mosque is through the same procedure as when the Prophet Muhammad entered the room, who came from the Aqsa Mosque to the Haram Mosque.

So, the Prophet Muhammad saw entered the room, at the Aqsa Mosque, who walked towards the Haram Mosque, when the room arrived at the Haram Mosque, the Prophet Muhammad saw came out of the room and set his feet again at the Haram Mosque

When the Prophet Muhammad saw arrived at his house, the environment around Mecca was still pitch black and all the residents around Mecca were still sleeping, but the Prophet Muhammad saw was carried that night by Allah from the Haram Mosque to the Aqsa Mosque "*...he had seen some the greatest signs of his God*" (An Najm: 53: 18)
