ABSTRACT

Before the author writes about how to prove empirically, whether it is God or not, based on energy and quarks, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of how to prove empirically, whether it is God or not, based on energy and quarks, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah about how to prove empirically, whether it is God or not, based on energy and quarks, namely the following verses:

"Then when I have perfected the body and I have breathed on him my spirit, then you should fall down prostrating to him." (Shaad: 38: 72)

"Allah has created the seven skys in layers. You do not see in the creation of God the Most Gracious anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knower of all things. (Al Hadiid: 57: 3)

"And to Allah the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

In an effort to open the veil of Allah's secret about how to prove empirically, whether it is God or not, based on energy and quarks, the author uses deoxyribonucleic acid as a basis.

HYPOTHESIS

Here the author proposes a hypothesis to prove empirically, whether it is God or not, based on energy and quarks, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and

contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

HOW TO PROVE EMPIRICALLY, WHETHER IT IS GOD OR NOT, BASED ON ENERGY AND QUARK

So now, we are still concentrating on dismantling the secrets contained behind the verses: *"... I have breathed into human my spirit... (Shaad : 38: 72)"... wherever you turn there is the face of Allah.. (Al Baqarah : 2: 115)"He is the First ...(Al Hadiid : 57: 3)"...seven skys...balanced (Al Mulk : 67: 3)*

Here, Allah or Jahve or Adonai, declares, *"He is the First ...(Al Hadiid : 57: 3)"... wherever you turn there is the face of Allah.. (Al Baqarah : 2: 115)*

Well, with the declaration *"He is the First ...(Al Hadiid : 57: 3)* and *"...the face of Allah...(Al Baqarah: 2: 115)* used as the basis for proving whether God is or not.

Now, everything that exists in the universe, everything, is in the form of energy and matter.

Well, so it is in God's form, constructed with energy and matter.

Now, the question arises,

Why is there energy and matter in God's form?

The answer is in the secret behind the verse: the universe or *"...seven skys...balanced (Al Mulk: 67: 3)*

Well, because in the universe or *"...seven skys...balanced (Al Mulk: 67: 3)*, then in God's form also *"...balanced (Al Mulk: 67: 3)*

That is, in God's form there is eternal energy and not eternal matter.

So now, is Allah or Jahve or Adonai, is God?

The answer lies in the theory which is also Allah's revelation or Jahve's revelation or Adonai's revelation, namely *"He is the First ...(Al Hadiid : 57: 3)* and *"...the face of Allah...(Al Baqarah: 2: 115)*

Well, here, what is in the form of *"... the face of Allah... (Al Baqarah: 2: 115)* is in the form of Allah's energy and matter in the form of Allah's particles.

Well, before the universe or *"...seven skys...(Al Mulk: 67: 3)* existed matter, in the form of quarks formed with energy

Now, if there is God, then God must have existed before there were quarks and God must be united with energy.

That is, there is energy, there is God.

Energy and God are inseparable.

So, mathematically, it can be written, **God – God's energy – God – God's energy – God**

Now, with it, **God - God's energy – God - God's energy - God**, forms matter, in the form of particles called quarks.

Mathematically it can be written, **God – God energy – quark - God – God energy – quark - God**

Now, with this mathematical basis, it can be used as a measure, whether God is really God, or God came after the quarks were formed.

Now, God comes after the quarks have formed, so it's not God, but rather, matter is made up of atoms.

However, if God existed before quarks existed, and is an integral part of energy, then God is, really God.

Or you can say *"He is the First...(Al Hadiid : 57: 3)*

So, now, if there is a God worshiped by humans, then God is proven empirically, whether God exists after the quarks are formed, then it is not God, but rather, matter made up of atoms.

If God existed before quarks existed, and was an integral part of energy, then God is, rightly God.

Now, we prove Allah or Jahve or Adonai, based on the theory in the form of revelation *"He is the First...(Al Hadiid : 57: 3)* and *"...the face of Allah...(Al Baqarah : 2: 115).*

Well, *"...the face of Allah...(Al Baqarah: 2: 115)* is built with energy and matter in the form of particles.

Well, because in Allah's form or Jahve's form or Adonai's form there is energy, then between Allah or Jahve or Adonai it is united with energy. Wherever there is energy, there is Allah or Jahve or Adonai. Where there is Allah or Jahve or Adonai, there is energy.

Mathematically, it can be written **Allah – Allah energy – Allah – Allah energy – Allah**

Allah and Allah's energy are united, inseparable.

Now, according to Jesus' followers, Jesus is God. If it is proven empirically, it turns out that Jesus is in the form of matter in the building of atoms, where atoms exist after there are quarks, so Jesus is not God.

Likewise with the Holy Spirit, if it is proven empirically, it turns out that the Holy Spirit is in the form of matter in the building of atoms, where atoms exist after there are quarks, so the Holy Spirit is not God.

As for Jahve or Adonai, it is the same as Allah, only with a different name. The Jews call Jahve or Adonai. Muslims say Allah.

Actually, followers of Jesus named Jahve or Yahweh which refers to God.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"... I have breathed into human my spirit... (Shaad : 38: 72)"... wherever you turn there is the face of Allah.. . (Al Baqarah : 2: 115)"He is the First...(Al Hadiid : 57: 3)"...seven skys...balanced (Al Mulk : 67: 3)*

Here, Allah or Jahve or Adonai, declares, *"He is the First...(Al Hadiid : 57: 3)"... wherever you turn there is the face of Allah.. .(Al Baqarah : 2: 115)*
