## ABSTRACT

Before the author writes about how to prove monotheism, empirically, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of how to prove monotheism, empirically, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about how to prove monotheism, empirically, namely the following verses:

"So when I have perfected the body and I have breathed on him My spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)

*"Allah has created the seven skys in layers. You do not see in the creation of God the Most Gracious anything that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"God created the skys and the earth with haq (right). Indeed, in that there are signs of God's power for the believers (Al 'Ankabuut: 29: 44)*

*"He is the First and the Last, the Zhahir and the Inner; and He is All-Knower of all things. (Al Hadiid: 57: 3)*

*"And to Allah the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)*

*"Say: He is Allah, the One and Only (Al Ikhlash: 112: 1)*

In an effort to uncover Allah's secret veil about how to prove monotheism, empirically, the author uses deoxyribonucleic acid as a basis.

## HYPOTHESIS

Here the author proposes a hypothesis how to prove monotheism, empirically, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## HOW TO PROVE MONOTHEISM, EMPIRICALLY

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115)"He is the First...(Al Hadiid :57:3)*

Well, here, Allah has declared *"...the face of Allah...(Al Baqarah: 2: 115)"He is the First...(Al Hadiid : 57:3)* to all people in the world, as proof of monotheism, not there is no God, besides, the one and only, Allah.

Now, the question arises,

How to prove monotheism, empirically?

The answer is in the secret behind the verse: *"Allah created the skys and the earth with haq (right)...(Al 'Ankabuut : 29: 44)*

Well, *"...with haq (right)...(Al 'Ankabuut : 29: 44)*

That is, whatever is in *"...the skys and the earth...(Al 'Ankabuut: 29: 44)* can be studied, researched, proven empirically.

Now, monotheism refers to Allah *"...The First...(Al Hadiid : 57: 3)* and *"...Esa (one)(Al Ikhlash: 112: 1)*

To prove monotheism empirically, one has to go back to the beginning, before the universe or *"...the seven skys...(Al Mulk: 67: 3)* was created.

Well, when the universe or *"...the seven skys...(Al Mulk: 67: 3)* had not yet been created, Allah and energy, united, could not be separated.

Talking about Allah is like talking about energy. Talking about energy is the same as talking about Allah.

Because, **Allah – energy**, united, cannot be separated, then when energy forms quarks, it is the same

as Allah forms quarks.

Or in other words, **Allah – energy**, united, inseparable, forming quarks.

So quarks were born, through **Allah – energy**, which is united, which cannot be separated.

Or you can also say, **Allah – energy – quark – Allah**.

Well, now, quarks are formed, then hydrogen atoms are formed. Where in the hydrogen atom, there is 1 electron and a nucleus called a proton, which contains 2 up quarks and 1 down quark.

Well, quarks and atoms, are the building blocks of the universe or *"...seven skys...(Al Mulk: 67: 3).*

Now, if there is a God after the formation of quarks and atoms, then God is not God, but *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38) : 72)*

So, *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38) : 72)* is not Allah.

Well, this is empirical evidence, which proves that monotheism exists, because there is Allah who is united with energy, which cannot be separated, before there was a universe or *"...seven skys...(Al Mulk : 67: 3).*

Or in other words, empirical evidence, monotheism exists, along with the existence of Allah who is united with energy, which cannot be separated, before the existence of the universe or *"...seven skys...(Al Mulk: 67: 3).*

## CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115)"He is the First...(Al Hadiid :57:3)*

Well, here, Allah has declared *"...the face of Allah...(Al Baqarah: 2: 115)"He is the First...(Al Hadiid : 57:3)* to all people in the world, as proof of monotheism, not there is no God, besides, the one and only, Allah.
