ABSTRACT

Before the author writes down if human thoughts have up to the level of Allah's thoughts, it means human mind is balanced with Allah's mind, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret that if human thoughts have up to the level of Allah's thoughts, it means human mind is balanced with Allah's mind, based on deoxyribonucleic acid (DNA).

There are several verses that open Allah's secret about if human thoughts have up to the level of Allah's thoughts, it means human mind is balanced with Allah's mind, namely the following verses:

"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "O our God, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)

"Then when I have perfected the body and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"Then He perfected the body and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And verily We have created human and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And verily We know that they say: "Indeed, the Koran was taught by a human being to him." Even though the language of the person they accused him of learning was 'Ajam, while the Koran is in clear Arabic. (An Nahl: 16: 103)

"When God said to Abraham: "Submit to obedience" Abraham replied: "I submit to God of the Worlds." (Al Baqarah: 2: 131)

In an effort to uncover Allah's secret veil about if human thoughts have up to the level of Allah's thoughts, it means human mind is balanced with Allah's mind, the author uses deoxyribonucleic acid as a basis.

HYPOTHESIS

Here the author proposes a hypothesis that if human thoughts have up to the level of Allah's thoughts, it means human mind is balanced with Allah's mind, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

IF HUMAN THOUGHTS HAVE UP TO THE LEVEL OF ALLAH'S THOUGHTS, IT MEANS HUMAN MIND IS BALANCED WITH ALLAH'S MIND

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"They remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"...seven the skys...balanced...(Al Mulk : 67: 3)"...I breathed into human my spirit...(Shaad : 38: 72)*

Well, it turns out, from the declaration of Allah or Jahve or Adonai, *"They remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*, two important factors are found, how do human thoughts to the level of God's thought.

Factor 1, is *"...remember Allah...(Ali 'Imran: 3: 191)* or rememb Jahve or remembe Adonai. That is, humans must carry out what has been commanded by Allah or Jahve or Adonai, *"...God said to Ibrahim: "Submit to obedience" Abraham replied: I submit to God of the Worlds (Al Baqarah: 2: 131)*

Factor 2, is *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*. That is, humans must seek and understand the real Allah or the real Jahve or the real Adonai, in a way *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*

Now, with these 2 factors, it will pave the way to bring human thought to the level of Allah's thought, so that human mind is balanced with Allah's mind.

When human thought has reached the level of Allah's thought, then the human mind is in balance

with Allah's mind.

As declared by Allah *"... We know, they say: The Koran was taught by a man to Muhammad. Even though the language of the person they accused (Muhammad) learned from (a human who spoke) the language of 'Ajam, while the Koran is in clear Arabic (An Nahl : 16: 103)*

So, now, why did Allah defend the Prophet Muhammad saw from the accusation that the Prophet Muhammad saw *"... learned (the Koran) from (a human who spoke) the language of 'Ajam...(An Nahl : 16: 103)?*

Because, the mind of the Prophet Muhammad saw is in balance with Allah's mind.

That is, what is in the mind of the Prophet Muhammad saw is in the mind of Allah *"... We know, they say... (An Nahl : 16: 103)*

Now, the question arises,

How can the human mind balance with Allah's mind?

The answer is in the secret behind the verse: *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* is associated with *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit.

That is, whatever is in *"...the skys and the earth...(Ali 'Imran: 3: 191)* comes from *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit.

What exactly is *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit?

"...Allah's spirit...(Shaad : 38: 72) or Jahve's spirit or Adonai's spirit is in every human body, animal, plant, fungus, amoeba, bacteria and other inanimate objects, such as iron, steel, aluminum, stone, soil, sand, whatever is in *"...the skys and the earth...(Ali 'Imran : 3: 191)*

Or in other words, *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit is Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, in order for human mind balance with Allah's mind, when people think of something they must be connected with *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit.

Because *"...Allah's spirit...(Shaad : 38: 72)* or Jahve's spirit or Adonai's spirit comes from the thought of Allah or Jahve or Adonai.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: *"They remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"... seven the skys...balanced...(Al Mulk : 67: 3)"...I breathed into human my spirit...(Shaad : 38: 72)*

Well, it turns out, from the declaration of Allah or Jahve or Adonai, *"They remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*, two important factors are found, how do human thoughts to the level of God's thought.

Factor 1, is *"...remember Allah...(Ali 'Imran: 3: 191)* or rememb Jahve or remembe Adonai. That is, humans must carry out what has been commanded by Allah or Jahve or Adonai, *"...God said to*

Ibrahim: "Submit to obedience" Abraham replied: I submit to God of the Worlds (Al Baqarah: 2: 131)

Factor 2, is ***"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)***. That is, humans must seek and understand the real Allah or the real Jahve or the real Adonai, in a way ***"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)***

Now, with these 2 factors, it will pave the way to bring human thought to the level of Allah's thought, so that human mind is balanced with Allah's mind.

When human thought has reached the level of Allah's thought, then the human mind is in balance with Allah's mind.

As declared by Allah ***"...We know, they say: The Koran was taught by a man to Muhammad. Even though the language of the person they accused (Muhammad) learned from (a human who spoke) the language of 'Ajam, while the Koran is in clear Arabic (An Nahl : 16: 103)***

So, now, why did Allah defend the Prophet Muhammad saw from the accusation that the Prophet Muhammad saw ***"... learned (the Koran) from (a human who spoke) the language of 'Ajam...(An Nahl : 16: 103)?***

Because, the mind of the Prophet Muhammad saw is in balance with Allah's mind.

That is, what is in the mind of the Prophet Muhammad saw is in the mind of Allah***"... We know, they say... (An Nahl : 16: 103)***

Now, the question arises,

How can the human mind balance with Allah's mind?

The answer is in the secret behind the verse: ***"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*** is associated with ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit.

That is, whatever is in ***"...the skys and the earth...(Ali 'Imran: 3: 191)*** comes from ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit.

What exactly is ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit?

"...Allah's spirit...(Shaad : 38: 72) or Jahve's spirit or Adonai's spirit is in every human body, animal, plant, fungus, amoeba, bacteria and other inanimate objects, such as iron, steel, aluminum, stone, soil, sand, whatever is in ***"...the skys and the earth...(Ali 'Imran : 3: 191)***

Or in other words, ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit is Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, in order for human mind balance with Allah's mind, when people think of something they must be connected with ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit.

Because ***"...Allah's spirit...(Shaad : 38: 72)*** or Jahve's spirit or Adonai's spirit comes from the thought of Allah or Jahve or Adonai.
