ABSTRACT

Before the author writes about incarnation in Islam is very determining, without incarnation, there will be no life in the seven skys, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of incarnation in Islam is very determining, without incarnation, there will be no life in the seven skys, based on deoxyribonucleic acid (DNA).

There are a number of verses about incarnation in Islam is very determining, without incarnation, there will be no life in the seven skys, namely the following verses:

"Then when I have perfected the body and I have breathed on him my spirit, then you must fall down and prostrate to him. (Shaad : 38: 72)

"And if We had made the apostle an angel, We would have made him a male and, surely We would have doubted about them what they doubted about themselves (Al An'aam: 6: 9)

"So Maryam made a veil from them; then We sent Our spirit to her, so Our spirit incarnated before her the perfect human. (Maryam: 19: 17)

"Angels and spirits ascend to God in a day whose value is fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You do not see anything in the creation of the Most Gracious God that is unbalanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"And if We truly wish, We will make instead of you angels from generation to generation on earth. (Az Zukhruf: 43: 60)

In an effort to open the veil of Allah's secret regarding incarnation in Islam is very determining, without incarnation, there will be no life in the seven skys, the author uses the basis of Deoxyribonucleic acid (DNA)

HYPOTHESIS

Here the author proposes the hypothesis that incarnation in Islam is very determining, without incarnation, there will be no life in the seven skys, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Human deoxyribonucleic acid (DNA) is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

INCARNATION IN ISLAM IS VERY DETERMINING, WITHOUT INCARNATION, THERE WILL BE NO LIFE IN THE SEVEN SKYS

Now, we are still concentrating on dismantling the secret contained behind the verse: *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)"...I breathed into human my spirit...(Shaad : 38: 72) "...We make...angels from generation to generation on earth (Az Zukhruf: 43: 60)*

Apparently, here Allah or Jahve or Adonai, has opened the biggest secret, regarding survival in the universe or in *"...seven skys...(Al Mulk: 67: 3)*, namely by *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

So, now the question arises,

What exactly is meant by Allah or Jahve or Adonai by the declaration *"...Our spirit incarnated...the perfect human (Maryam: 19: 17) ?*

Well, the answer is *"...I breathed into human my spirit...(Shaad : 38: 72)*

Well, *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, who *"...incarnated...(Maryam : 19: 17)*

Another question arises,

What is *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai?

Well, who *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, is a hydrogen atom, a carbon atom, a nitrogen atom and an oxygen atom.

Or in other words, who *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, is Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, due to hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms will live until the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years need a place to live.

Well, the place for the life of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms is the human body, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses, rocks, iron, steel, any inanimate object that exist in the universe or in *"...seven skys...(Al Mulk: 67: 3).*

So, the existence of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, whose lifespan is very long, will guarantee life in *"...seven heavens... (Al Mulk: 67: 3).*

Well, this is the biggest secret about incarnation, which was opened by Allah or Jahve or Adonai to all people in the world, including all Muslims in the world.

So, these incarnations are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

When a human dies, comes out of the human body, *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, and the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Oxygen atoms are inhaled by humans, animals, fungi, bacteria, amoebas, archaea, viruses.

Carbon atoms sucked up by plants, flowers. Hydrogen atoms rise into the atmosphere, meet oxygen atoms, to become rainwater.

Nitrogen atoms enter the soil, become fertilizer, are sucked up by plants, and become fruit.

This process, which is called the incarnation process, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

Without the process of incarnation, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, there will be no life in the universe or in *"...seven skys...(Al Mulk: 67: 3).*

This is what Allah or Jahve or Adonai declares to all people in the world, including all Muslims in the world *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Well now, *"...We make...angels from generation to generation on earth (Az Zukhruf: 43: 60)*

It means, *"...angels...(Az Zukhruf: 43: 60)* are not born, but through incarnation, *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Because the body of an angel is built with *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, then if an angel meets a human, he must *"...be incarnated...the perfect human (Maryam: 19: 17)*

The angel Gabriel, when he met the Prophet Muhammad saw, the angel Gabriel *"...incarnated...the perfect human (Maryam: 19: 17)*

Likewise with other angels, who met the Prophet Abraham, Prophet Zakaria, Prophet Lut, Prophet Ayub, Imran's family, *"...incarnated...the perfect human (Maryam: 19: 17)*

This, the secret, Allah or Jahve or Adonai, about incarnation, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, which almost all humans including all Muslims in the world, do not understand.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secret contained behind the verse: *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)"...I breathed into human my spirit...(Shaad : 38: 72) "...We make...angels from generation to generation on earth (Az Zukhruf: 43: 60)*

Apparently, here Allah or Jahve or Adonai, has opened the biggest secret, regarding survival in the universe or in *"...seven skys...(Al Mulk: 67: 3)*, namely by *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

So, now the question arises,

What exactly is meant by Allah or Jahve or Adonai by the declaration *"...Our spirit incarnated...the perfect human (Maryam: 19: 17) ?*

Well, the answer is *"...I breathed into human my spirit...(Shaad : 38: 72)*

Well, *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, who *"...incarnated...(Maryam : 19: 17)*

Another question arises,

What is *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai?

Well, who *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, is a hydrogen atom, a carbon atom, a nitrogen atom and an oxygen atom.

Or in other words, who *"...incarnated...(Maryam : 19: 17)* from *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, is Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

So, due to hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms will live until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years need a place to live.

Well, the place for the life of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms is the human body, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses, rocks, iron, steel, any inanimate object that exist in the universe or in *"...seven skys...(Al Mulk: 67: 3).*

So, the existence of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, whose lifespan is very long, will guarantee life in *"...seven heavens... (Al Mulk: 67: 3).*

Well, this is the biggest secret about incarnation, which was opened by Allah or Jahve or Adonai to all people in the world, including all Muslims in the world.

So, these incarnations are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

When a human dies, comes out of the human body, *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, and the hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Oxygen atoms are inhaled by humans, animals, fungi, bacteria, amoebas, archaea, viruses.

Carbon atoms sucked up by plants, flowers. Hydrogen atoms rise into the atmosphere, meet oxygen atoms, to become rainwater.

Nitrogen atoms enter the soil, become fertilizer, are sucked up by plants, and become fruit.

This process, which is called the incarnation process, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms.

Without the process of incarnation, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, there will be no life in the universe or in *"...seven skys...(Al Mulk: 67: 3).*

This is what Allah or Jahve or Adonai declares to all people in the world, including all Muslims in the world *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Well now, *"...We make...angels from generation to generation on earth (Az Zukhruf: 43: 60)*

It means, *"...angels...(Az Zukhruf: 43: 60)* are not born, but through incarnation, *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Because the body of an angel is built with *"...my spirit...(Shaad : 38: 72)* or *"...Our spirit...(Maryam : 19: 17)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, then if an angel meets a human, he must *"...be incarnated...the perfect human (Maryam: 19: 17)*

The angel Gabriel, when he met the Prophet Muhammad saw, the angel Gabriel *"...incarnated...the perfect human (Maryam: 19: 17)*

Likewise with other angels, who met the Prophet Abraham, Prophet Zakaria, Prophet Lut, Prophet Ayub, Imran's family, *"...incarnated...the perfect human (Maryam: 19: 17)*

This, the secret, Allah or Jahve or Adonai, about incarnation, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms and other atoms, which almost all humans including all Muslims in the world, do not understand.
