## ABSTRACT

Before the author writes about is it really hell is in the belly of the earth, between 3430 km – 6400 km from the surface of the earth, which is 4000 – 6000 degrees Celsius, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the real secret about is it really hell is in the belly of the earth, between 3430 km – 6400 km from the surface of the earth, which is 4000 – 6000 degrees Celsius, based on deoxyribonucleic acid (DNA)

There are several verses that are Allah's secret tools about is it really hell is in the belly of the earth, between 3430 km – 6400 km from the surface of the earth, which is 4000 – 6000 degrees Celsius, namely the verses:

*"Allah said: "Enter all of you into hell with the jinn and humans who have been before you. Every time a parishioner enters, he curses his comrades; so that when they enter all of them say those who enter later among them to those who enter first: "O our God, they have led us astray, therefore bring upon them multiplied torments from hell." Allah said: "Each one gets multiplied, but you do not know." (Al A'raaf: 7: 38)*

*"And verily We have made for hell jahanam most of the jinn and humans, they have hearts, but they are not used to understand and they have eyes not used to see, and they have ears not used to hear. They are livestock, and they are even more astray. They are negligent people. (Al A'raaf: 7: 179)*

*"And indeed We have created human from the essence of the soil. (Al Mu'minuun: 23: 12)*

*"So when I have perfected the body and I have breathed on him My spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)*

*"And if We will, surely We will give guidance to every soul, but the words are still from Me: "Indeed, I will fill the Hell jahanam with jinn and humans together." (As Sajdah: 32: 13)*

In an effort to open the veil of Allah's secret cover about is it really hell is in the belly of the earth, between 3430 km – 6400 km from the surface of the earth, which is 4000 – 6000 degrees Celsius, the author uses deoxyribonucleic acid as a basis.

## HYPOTHESES

Here the author proposes a hypothesis is it really hell is in the belly of the earth, between 3430 km – 6400 km from the surface of the earth, which is 4000 – 6000 degrees Celsius, based on Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure form a double helix and which contain polynucleotide macromolecules arranged together repeatedly from the nucleotide

polymer. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **IS IT REALLY HELL IS IN THE BELLY OF THE EARTH, BETWEEN 3430 KM - 6400 KM FROM THE SURFACE OF THE EARTH, WHICH IS 4000 - 6000 DEGREES CELCIUS**

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...We have made for hell jahanam most of the jinn and humans... (Al A'raaf: 7: 179)*

Apparently, here Allah or Jahve or Adonai, has declared *"...We have made for hell jahanam most of the jinn and humans... (Al A'raaf: 7: 179)*

Now the question arises,

Where is the location of *"...hell jahanam...(Al A'raaf: 7: 179) ?*

The answer is in the secret behind the verse: *"... We have created human from the essence of the soil (Al Mu'minuun: 23: 12)*

Well, *"...the essence of the soil. (Al Mu'minuun: 23: 12)* are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, because in *"...hell jahanam most of the jinn and humans...(Al A'raaf: 7: 179)*, while in the body *"... jinn and humans ... (Al A'raaf: 7: 179)* contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then *"...hell jahanam...(Al A'raaf: 7: 179)*, requires fuel, some of which are fuel *"...hell jahanam...(Al A'raaf: 7: 179)* are oxygen atoms, and oxygen atoms are in the human body.

Or in other words, because in *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, that comes out from the bodies of dead humans and from the bodies of dead jinns (the human body is the same as the bodies of jinn), containing hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, the oxygen atoms, are indispensable for fuel in *"...hell jahanam...(Al A'raaf: 7: 179)*

Well, because *"...hell jahanam...(Al A'raaf: 7: 179)*, is on earth, then, the only place *"...hell jahanam...(Al A'raaf: 7: 179)* on earth, is in the belly of the earth, which is between 3430 km - 6400 km from the earth's surface, where the heat is between 4000 - 6000 degrees Celsius.

What is the source of fuel in *"...hell jahanam...(Al A'raaf: 7: 179)*, which is in the belly of the earth are ferrum atoms, sulfur atoms and oxygen atoms.

Well, because in the body the building blocks of molecules *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, there are atoms oxygen, then oxygen atoms are used as fuel in *"...hell jahanam...(Al A'raaf: 7: 179)*.

Well, the building of the molecular body *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is built with hydrogen atoms , carbon

atoms, nitrogen atoms and oxygen atoms, enter the belly of the earth to the place "...hell jahanam... (Al A'raaf: 7: 179) which is between 3430 km - 6400 km from the earth's surface.

This, is the secret of Allah or the secret of Jahve or the secret of Adonai, which is not understood by almost all people in the world including all Muslims in the world.

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: "...We have made for hell jahanam most of the jinn and humans... (Al A'raaf: 7: 179)

Apparently, here Allah or Jahve or Adonai, has declared "...We have made for hell jahanam most of the jinn and humans... (Al A'raaf: 7: 179)

Now the question arises,

Where is the location of "...hell jahanam... (Al A'raaf: 7: 179) ?

The answer is in the secret behind the verse: "... We have created human from the essence of the soil (Al Mu'minuun: 23: 12)

Well, "...the essence of the soil. (Al Mu'minuun: 23: 12) are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, because in "...hell jahanam most of the jinn and humans... (Al A'raaf: 7: 179), while in the body "... jinn and humans ... (Al A'raaf: 7: 179) contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, then "...hell jahanam... (Al A'raaf: 7: 179), requires fuel, some of which are fuel "...hell jahanam... (Al A'raaf: 7: 179) are oxygen atoms, and oxygen atoms are in the human body.

Or in other words, because in "...my spirit... (Shaad : 38: 72) or "...the spirit of Allah... (Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, that comes out from the bodies of dead humans and from the bodies of dead jinns (the human body is the same as the bodies of jinn), containing hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, the oxygen atoms, are indispensable for fuel in "...hell jahanam... (Al A'raaf: 7: 179)

Well, because "...hell jahanam... (Al A'raaf: 7: 179), is on earth, then, the only place "...hell jahanam... (Al A'raaf: 7: 179) on earth, is in the belly of the earth, which is between 3430 km - 6400 km from the earth's surface, where the heat is between 4000 - 6000 degrees Celsius.

What is the source of fuel in "...hell jahanam... (Al A'raaf: 7: 179), which is in the belly of the earth are ferrum atoms, sulfur atoms and oxygen atoms.

Well, because in the body the building blocks of molecules "...my spirit... (Shaad : 38: 72) or "...the spirit of Allah... (Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, there are atoms oxygen, then oxygen atoms are used as fuel in "...hell jahanam... (Al A'raaf: 7: 179).

Well, the building of the molecular body "...my spirit... (Shaad : 38: 72) or "...the spirit of Allah... (Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, which is built with hydrogen atoms , carbon atoms, nitrogen atoms and oxygen atoms, enter the belly of the earth to the place "...hell jahanam... (Al A'raaf: 7: 179) which is between 3430 km - 6400 km from the earth's surface.

This, is the secret of Allah or the secret of Jahve or the secret of Adonai, which is not understood by almost all people in the world including all Muslims in the world.
