## ABSTRACT

Before the author writes about is it true that angels take human life, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secret of is it true that angels take human life, from the perspective of deoxyribonucleic acid (DNA).

There are several verses that are tools to reveal Allah's secret about is it true that angels take human life, namely the following verse:

*"Allah holds the soul when it dies and the soul that has not died while it is sleeping, then He holds the soul whose death He has determined and He releases the other soul until the appointed time. Verily in that there are signs of Allah's power for a people who think (Az Zumar : 39: 42)*

*"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate yourself to him. (Shaad : 38: 72)*

*"...We made the apostle an angel...a man...(Al An'aam: 6: 9)*

*"Say: "The angel of death who was entrusted to you, will take your life, then only to your God you will be returned." (As Sajdah: 32: 11)*

In an effort to uncover whether is it true that angels take human life, the author relies on Deoxyribonucleic acid (DNA).

## HYPOTHESIS

Here the author proposes hypothesis about is it true that angels take human life, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen

bases. The nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T). Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

## IS IT TRUE THAT ANGELS TAKE HUMAN LIFE

So now, we still continue to focus our minds on uncovering the secret stored in the verse: *"...We made the apostle an angel...a man...(Al An'aam: 6: 9)"...I breathed into Adam my spirit...(Shaad : 38: 72)*

Here Allah has declared *"...We made the apostle an angel...a man...(Al An'aam: 6: 9)*

Apparently, here the secret about angels is revealed, where the angel is actually *"...a man...(Al An'aam: 6: 9)*

That is, an angel is a man no different from humans.

Well, because Allah has declared *"...I breathed into Adam my spirit...(Shaad : 38: 72)* then in the angel's body also Allah has *"...breathed...my spirit...(Shaad: 38: 72)*

So, actually, angels and humans are no different. Because in the human body there is *"...my spirit...(Shaad: 38: 72)*, then in the body of an angel there is also *"...my spirit...(Shaad: 38: 72)*

Now, when Allah declares: *"Say: "The angel of death who was entrusted to you, will take your life...(As Sajdah: 32: 11)* whereas, the angel is *"...a man...(Al An'aam : 6: 9)* then was given the task by Allah to take human life.

Well, the meaning here is, because angels are also humans, where in the human body there is *"...my spirit...(Shaad: 38: 72)*, then in the angel's body there is also *"...my spirit... .(Shaad : 38: 72)* which is built with hydrogen atoms, carbon atoms, oxygen atoms and nitrogen atoms.

Or it could also be said, in the human body, there is *"...my spirit...(Shaad: 38: 72)* which is the building block of Deoxyribonucleic acid (DNA). Human DNA consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where Deoxyribonucleic acid (DNA) is found throughout the human body, including in the blood.

So now, what does Allah actually mean by *"...The angel of death who was entrusted to you, will take your life...(As Sajdah: 32: 11)*

The answer is in the secret behind the verse: *"...He holds the soul whose death He has determined...(Az Zumar : 39: 42)*

It turns out, *"...Allah holds the soul whose death He has determined...(Az Zumar : 39: 42)*

Well, here *"...soul...(Az Zumar: 39: 42)* refers to *"...my spirit...(Shaad: 38: 72)*

So *"...Allah holds the soul whose death He has determined...(Az Zumar : 39: 42), meaning "...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)*

Well, because *"...my spirit...(Shaad : 38: 72)* which is the building block of Deoxyribonucleic acid (DNA) is in the human veins, which are in the form of blood, then when *"...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)* by stopping oxygen atoms from entering the nostrils and into the mouth, the function or work of the heart stops, blood cannot be pumped throughout the body , eventually humans die.

So now the question arises,

Why don't angels *"...take human life...(As Sajdah: 32: 11) ?*

The answer is hidden in the secret behind the verse: *"...We made the apostle an angel...a man...(Al An'aam: 6: 9)*

So, because an angel is *"...a man...(Al An'aam: 6: 9),* in whose body there is *"...my spirit...(Shaad: 38: 72),* as in a human body, angels cannot take life, like *"...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)*

This means, here it is clearly illustrated, that angels cannot *"...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)*

Because only *"...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)*

So, in fact Allah's declaration *"...The angel of death who was entrusted to you, will take your life...(As Sajdah: 32: 11)* refers to *"...Allah holds...(Az Zumar: 39: 42)"...my spirit. ..(Shaad : 38: 72)*

## CONCLUSION

Based on the description above, we can conclude that the secret stored in the verse: *"...We made the apostle an angel...a man...(Al An'aam: 6: 9)"...I breathed into Adam my spirit...(Shaad : 38: 72)*
