**ABSTRACT**

First, by begging forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT regarding the secret, is it true, most scientists, don't accept Allah or Jahve or Adonai, because the scientists assume, there is no theory about Allah or Jahve or Adonai, and cannot be provided empirically, based on deoxyribonucleic acid (DNA)

Signs of the greatness of Allah SWT regarding is it true, most scientists, don't accept Allah or Jahve or Adonai, because the scientists assume, there is no theory about Allah or Jahve or Adonai, and cannot be provided empirically, found in several verses, namely:

*"Allah the light of the skys and the earth... the light above the light of Allah guides to His light... (An Nuur : 24: 35)*

*"And indeed We have created man from an extract from the ground. (Al Mu'minuun: 23: 12)*

*"He has created man from a clot of blood (Al 'Alaq: 96: 2)*

*"Allah is the Creator of the skys and the earth, and when He wills something, He only says to him: Be, then it will be (Al Baqarah: 2: 117)*

*"He is Allah, who made everything on earth for you and He willed the skys, then made seven skys. And He is All-Knower of all things. (Al Baqarah: 2: 29)*

*"So when I have perfected what happened, and have breathed into it My spirit, then you bow down to him with prostration (Al Hijr: 15: 29)*

*"He is the one who gives life and causes death, so when He determines something, He only says: Be, then it will be (Al Mu'min: 40: 68)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And when Moses came at the time We had appointed and God had spoken to him, Moses said, "O my God, show me so that I can see You." God said: "You cannot see Me at all, but look at the mountain, then if he stays where he is you will surely be able to see Me." When his God appeared to the mountain, he made the mountain crumble to pieces and Musa fell unconscious. So when Musa regained consciousness, he said: "Glory be to God You, I repent to You and I am the first person to believe." (Al A'raaf: 7: 143)*

*"Angels and spirits ascend to God in a day which is fifty thousand years Al Ma'aarij (70: 4)*

*"He is the First and the Last, the Zahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)*

*"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

In an effort to uncover the greatness of Allah SWT regarding, is it true, most scientists, don't accept Allah or Jahve or Adonai, because the scientists assume, there is no theory about Allah or Jahve or Adonai, and cannot be provided empirically, the authors use the basis of photons, quarks and deoxyribonucleic acid (DNA).

## **HYPOTHESES**

Here the author proposes a hypothesis that there is theory about Allah or Jahve or Adonai, and cannot be provided empirically, based on deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## **QUARK**

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building block of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure form a double helix and which contain polynucleotide macromolecules arranged together repeatedly from the nucleotide polymer. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Human deoxyribonucleic acid (DNA) is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere. These atoms are the raw material for the manufacture of humans, animals, fungi, amoebas, plants, bacteria and archaea.

**IS IT TRUE, MOST SCIENTISTS, DON'T ACCEPT ALLAH OR JAHVE OR ADONAI, BECAUSE THE SCIENTISTS ASSUME, THERE IS NO THEORY ABOUT ALLAH OR JAHVE OR ADONAI, AND CANNOT BE PROVIDED EMPIRICALLY**

Now, we are still concentrating on uncovering the secret behind the verses: "*Allah has created human from a clot of blood (Al 'Alaq: 96: 2) "...I...breathe into human my spirit...( Al Hijr : 15: 29)"Allah is the light of the skys and the earth...the light above the light...(An Nuur : 24: 35)*

In fact, here Allah or Jahve or Adonai has declared a theory about Allah or Jahve or Adonai in terms of "*Allah has created human from a clot of blood (Al 'Alaq: 96: 2)*

Well, the theory of creation "*...human from a clot of blood (Al 'Alaq: 96: 2) and "...from an essence from the soil (Al Mu'minuun: 23: 12)*

Now, the question arises,

What's in the blood?

Well, in the blood contains Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms

So, actually, "*Allah created human from a clot of blood (Al 'Alaq: 96: 2)* is Allah created human from Deoxyribonucleic acid (DNA) which contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Likewise, Allah created humans "*...from an essence from the soil (Al Mu'minuun: 23: 12)*. Where soil contains carbon atoms, nitrogen atoms and hydrogen atoms.

Or in other words, Allah created man by "*...breathe into human Allah's spirit...( Al Hijr : 15: 29)*

So, "*...Allah's spirit...(Al Hijr: 15: 29)* is the same as Deoxyribonucleic acid (DNA) which contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

This, Allah's theory of human creation.

Empirically, it can be proven that the creation of humans through the union of sperm containing Deoxyribonucleic acid (DNA) from the father's side with an egg which also contains Deoxyribonucleic acid (DNA) from the mother's side.

The theory, Allah or Jahve or Adonai regarding the creation of human beings from "*...Allah's spirit...(Al Hijr: 15: 29)* or Jahve's spirit or Adonai's spirit is not yet known by almost all people in the world.

Now, about the theory of Allah's energy and Allah's particles.

Where is the theory about Allah's energy and Allah's particles based on the declaration of Allah or Jahve or Adonai, "*...make the mountain crumble to pieces...( Al A'raaf: 7: 143)* and "*... wherever you turn there is a face Allah...(Al Baqarah : 2: 115)*

So, "*...the mountain crumble to pieces...(Al A'raaf: 7: 143)* because of Allah's energy. Where Allah's energy or Jahve's energy or Adonai's energy is very small **0.000000000 000000000 000000000 01** gram per cubic cm.

Also, Allah's particle or Jahve's particle or Adonai's particle is based on the declaration of Allah or Jahve or Adonai "... *wherever you turn there is the face of Allah...* (*Al Baqarah: 2: 115*)

Where the Allah particle or Jahve particle or Adonai particle is very small, almost nothing, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** gram, which has the speed of light **5 475 103 664 604.84** km per second.

Well, this is a theory about Allah's energy and Allah's particles which have the speed of light **5 475 103 664 604.84** km per second.

So, actually, Allah or Jahve or Adonai, can be proven to exist and can be counted through Allah's energy or Jahve's energy or Adonai's energy and Allah's particles or Jahve's particles or Adonai's particles.

Or in other words, Allah or Jahve or Adonai, can be proven empirically.

Well now, to prove Allah or Jahve or Adonai brought forth the energy that was first used to create quarks.

Based on Allah's declaration "...*He said to something: Be, then it will be* (*Al Mu'min : 40: 68*)

Apparently, Allah's declaration "...*Be, then it will be* (*Al Mu'min : 40: 68*) is the law of Allah or the law of Jahve or the law of Adonai.

Well, the law "...*Be, then it will be* (*Al Mu'min : 40: 68*) is the first law that applies before the existence of quarks.

Or in other words, "...*Be, then it will be* (*Al Mu'min : 40: 68*) - Allah - Allah's energy, is the law that makes Allah exist.

Meaning "...*Be, then it will be* (*Al Mu'min : 40: 68*) - Allah - Allah's energy, is a unity that cannot be separated.

With the existence of the law "...*Be, then it will be* (*Al Mu'min : 40: 68*) Allah appears.

Likewise with the presence of Allah - "...*Be, then it will be* (*Al Mu'min : 40: 68*) the energy of Allah appears.

Without the energy of Allah, there is no being of Allah.

So, with Allah's law "...*Be, then it will be* (*Al Mu'min : 40: 68*) - Allah - Allah's energy, then within a period of **0.000000000 000000000 000000000 000000000 001** seconds, quarks are created, which will become the core of atom.

Well, this, is a theory about Allah or Jahve or Adonai, how Allah or Jahve or Adonai existed, before the energy that created the quarks and "...*the seven skys...*(*Al Mulk: 67: 3*) was formed.

Or in other words, Allah or Jahve or Adonai is "...*The first...*(*Al Hadiid : 57: 3*), before "...*the seven skys...*(*Al Mulk: 67: 3*) created from energy which form quarks.

**CONCLUSION**

From what has been described above we can now conclude that the secret behind the verses: "*Allah has created human from a clot of blood (Al 'Alaq: 96: 2)*" *...I...breathe into human my spirit...( Al Hijr : 15: 29)*" *Allah is the light of the skys and the earth...the light above the light...(An Nuur : 24: 35)*

In fact, here Allah or Jahve or Adonai has declared a theory about Allah or Jahve or Adonai in terms of "*Allah has created human from a clot of blood (Al 'Alaq: 96: 2)*

Well, the theory of creation "*...human from a clot of blood (Al 'Alaq: 96: 2)* and "*...from an essence from the soil (Al Mu'minuun: 23: 12)*

Now, the question arises,

What's in the blood?

Well, in the blood contains Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms

So, actually, "*Allah created human from a clot of blood (Al 'Alaq: 96: 2)* is Allah created human from Deoxyribonucleic acid (DNA) which contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Likewise, Allah created humans "*...from an essence from the soil (Al Mu'minuun: 23: 12)*. Where soil contains carbon atoms, nitrogen atoms and hydrogen atoms.

Or in other words, Allah created man by "*...breathe into human Allah's spirit...( Al Hijr : 15: 29)*

So, "*...Allah's spirit...(Al Hijr: 15: 29)* is the same as Deoxyribonucleic acid (DNA) which contains carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

This, Allah's theory of human creation.

Empirically, it can be proven that the creation of humans through the union of sperm containing Deoxyribonucleic acid (DNA) from the father's side with an egg which also contains Deoxyribonucleic acid (DNA) from the mother's side.

The theory, Allah or Jahve or Adonai regarding the creation of human beings from "*...Allah's spirit...(Al Hijr: 15: 29)* or Jahve's spirit or Adonai's spirit is not yet known by almost all people in the world.

Now, about the theory of Allah's energy and Allah's particles.

Where is the theory about Allah's energy and Allah's particles based on the declaration of Allah or Jahve or Adonai, "*...make the mountain crumble to pieces...( Al A'raaf: 7: 143)* and "*... wherever you turn there is a face Allah...(Al Baqarah : 2: 115)*

So, "*...the mountain crumble to pieces...(Al A'raaf: 7: 143)* because of Allah's energy. Where Allah's energy or Jahve's energy or Adonai's energy is very small **0.000000000 000000000 000000000 01** gram per cubic cm.

Also, Allah's particle or Jahve's particle or Adonai's particle is based on the declaration of Allah or Jahve or Adonai "*... wherever you turn there is the face of Allah...( Al Baqarah : 2: 115)*

Where the Allah particle or Jahve particle or Adonai particle is very small, almost nothing,

**0.000000000 000000000 000000000 000000000 00000 3335917542091889** gram, which has the speed of light **5 475 103 664 604.84** km per second.

Well, this is a theory about Allah's energy and Allah's particles which have the speed of light **5 475 103 664 604.84** km per second.

So, actually, Allah or Jahve or Adonai, can be proven to exist and can be counted through Allah's energy or Jahve's energy or Adonai's energy and Allah's particles or Jahve's particles or Adonai's particles.

Or in other words, Allah or Jahve or Adonai, can be proven empirically.

Well now, to prove Allah or Jahve or Adonai brought forth the energy that was first used to create quarks.

Based on Allah's declaration "*...He said to something: Be, then it will be (Al Mu'min : 40: 68)*

Apparently, Allah's declaration "*...Be, then it will be (Al Mu'min : 40: 68)* is the law of Allah or the law of Jahve or the law of Adonai.

Well, the law "*...Be, then it will be (Al Mu'min : 40: 68)* is the first law that applies before the existence of quarks.

Or in other words, "*...Be, then it will be (Al Mu'min : 40: 68) - Allah - Allah's energy*, is the law that makes Allah exist.

Meaning "*...Be, then it will be (Al Mu'min : 40: 68) - Allah - Allah's energy*, is a unity that cannot be separated.

With the existence of the law "*...Be, then it will be (Al Mu'min : 40: 68)* Allah appears.

Likewise with the presence of Allah - "*...Be, then it will be (Al Mu'min : 40: 68)* the energy of Allah appears.

Without the energy of Allah, there is no being of Allah.

So, with Allah's law "*...Be, then it will be (Al Mu'min : 40: 68) - Allah - Allah's energy*, then within a period of **0.000000000 000000000 000000000 000000000 001** seconds, quarks are created, which will become the core of atom.

Well, this, is a theory about Allah or Jahve or Adonai, how Allah or Jahve or Adonai existed, before the energy that created the quarks and "*...the seven skys...(Al Mulk: 67: 3)* was formed.

Or in other words, Allah or Jahve or Adonai is "*...The first...(Al Hadiid : 57: 3)*, before "*...the seven skys...(Al Mulk: 67: 3)* created from energy which form quarks.
