ABSTRACT

Before the author writes about Jews believe God or Jahve is influenced by humans, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about Jews believe God or Jahve is influenced by humans, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about Jews believe God or Jahve is influenced by humans, namely the following verses:

"So, when I have perfected the body of Adam and breathed into Adam my spirit, then you should fall down and prostrate yourself to him." (Shaad : 38: 72)

"And Maryam, who had maintained her honor, then We breathed into Maryam's womb Our spirit and We made her and her grandchildren a great sign for the universe. (Al Anbiyaa' : 21: 91)

"He is Allah Who has no god but Him, the King, the Most Holy, the Most Prosperous, the One Who Gives Security, the Most Sustainer, the Most Mighty, the Almighty, the One Who Has All Glory, Glorified is Allah from what they associate with (Al Hashr:59:23)

"Allah created seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look over and over again, do you see anything that is not balanced? (Al Mulk : 67: 3)

"And to Allah belongs the east and the west, so wherever you turn, there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah : 2: 115)

In an effort to uncover Allah's secret about Jews believe God or Jahve is influenced by humans, the author uses the basis of Deoxyribonucleic acid (DNA)

HYPOTHESIS

Here the author proposes hypothesis Jews believe God or Jahve is influenced by humans, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elemental particles of the boson type and carriers of electromagnetic interactions.

QUARK

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

JEWS BELIEVE GOD OR JAHVE IS INFLUENCED BY HUMANS

So now, we still continue to focus our minds on uncovering the secret contained behind the verse: *"...Allah...the Most Holy...(Al Hasyr : 59: 23)"...I breathed into Adam my spirit... (Shaad : 38: 72) "...We breathed into Maryam's womb Our spirit...(Al Anbiyaa' : 21:91)*

Well, here, Allah reveals the true secret of Allah *"...Allah...the Most Holy...(Al Hasyr : 59: 23)"...I breathed into Adam my spirit... (Shaad : 38: 72) "...We breathed into Maryam's womb Our spirit...(Al Anbiyaa' : 21:91)*

Well, the secret of Allah is that *"...Allah...the Most Holy...(Al Hasyr : 59: 23)"...I breathed into Adam my spirit...(Shaad: 38:72)"...We breathed into Maryam's womb Our spirit...(Al Anbiyaa': 21:91)* proving to all people in the world, that the real Allah, through Allah's form in the form of *"...My spirit... (Shaad: 38 : 72) or "...Allah's spirit...(Shaad: 38:72) or "...Our spirit...(Al Anbiyaa': 21:91), in the form of Allah's particles and in the form of Allah's energy " ...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*

Now, *"...Allah...The Most Holy...(Al Hasyr : 59: 23)* is Allah who gave birth to Allah's energy, Allah's energy forms quarks, quarks form hydrogen atoms, nitrogen atoms, carbon atoms, oxygen atoms and other atoms. Hydrogen atoms, nitrogen atoms, carbon atoms, oxygen atoms and other atoms are the source for the creation of *"...seven skys...(Al Mulk: 67:3)* and everything in them, including humans.

Also Allah's energy gives birth to Allah's particles which have a speed of light of **5 475 103 664 604.84** km per second. Where Allah's particle is very small, almost nothing, **0.000000000 000000000 00000000 00000000 00000 3335917542091889** grams.

Well, Allah's particles with the help of Allah's energy have a speed of light of **5 475 103 664 604.84** km per second, becoming empirical evidence, *" ...wherever you turn, there is the face of Allah...(Al Baqarah: 2: 115)*

Wherever the human eye's gaze is directed, then before the human eye sees the intended target, Allah's particles with the help of Allah's energy with a speed of light of **5 475 103 664 604.84** km per second, are already at the point that the eye will see.

So, *"...Allah...The Most Holy...(Al Hasyr : 59: 23)* is the real Allah.

"...Holy...(Al Hasyr : 59:23) refers to the real Allah, through Allah's form in the form of *"...My spirit...(Shaad: 38 : 72)* or *"...Allah's spirit...(Shaad: 38:72)* or *"...Our spirit...(Al Anbiyaa': 21:91)*, in the form of Allah's particles and in the form of Allah's energy.

Now, what about God or Jahve, whom the Jews consider holy. Man must not pollute the holy Jahve. Humans cannot say the word Jahve, but must pronounce it as Adonaj. Human hands are not allowed to touch the writings in the holy books, but must use a pointing stick. That's all, because Jahve is holy, there should be no pollution coming from humans.

Well, if the Jews think that the holy Jahve cannot be polluted by impure humans, it means that the Jahve itself is no different from humans.

Now the question arises,

Why should the holy Jahve not be polluted by humans who are considered impure?

Well, the definition is, because in Jahve's form there is something, which something is the same as something, which is in the human body.

This means that if there is something impure in the human body, it can affect the holy Jahve. So, something sacred that is in the human body can be influenced by something that is impure, that is in the human body.

Well, this, the thinking of the Jews is very wrong.

So in fact, the concept of holy Jahve comes from human conception of being holy or impure.

The holy Jahve depends on humans, because impure humans should not approach Jahve or holy Jahve should not be approached by humans.

So the holy Jahve depends on humans. Or in other words, holy Jahve or impure Jahve, referring to humans. Or it could also be said that, Jahve is holy because of human existence.

So actually, what is in Jahve is in the human body. Or it can be written mathematically, Jahve = human.

This is the error of the Jews' thinking about Jahve being holy. Where the Jewish people's thoughts about this holy Jahve influence the way of thinking of most Arab people in Arab countries.

CONCLUSION

The conclusions that can be drawn from the explanation above are the secret contained behind the verse: *"...Allah...the Most Holy...(Al Hasyr : 59: 23)"...I breathed into Adam my spirit... (Shaad : 38: 72)* *"...We breathed into Maryam's womb Our spirit...(Al Anbiyaa' : 21:91)*
