ABSTRACT

Before the author writes about most humans in the world considering Allah or Jahve or God is not needed in daily life, whether in government or in family, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret that most humans in the world considering Allah or Jahve or God is not needed in daily life, whether in government or in family, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about most humans in the world considering Allah or Jahve or God is not needed in daily life, whether in government or in family, namely the following verses:

"Read in the name of your God Who created (Al 'Alaq : 96: 1)" He has created man from a clot of blood. (Al 'Alaq : 96: 2)

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "O our Lord, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)

"And indeed We have created man from an extract from the ground. (Al Mu'minuun: 23: 12)

"Then when I have perfected what happened and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected what happened, and have breathed into it My spirit, then submit to him with prostration (Al Hijr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And it is not possible for any human being that Allah spoke with him except by means of revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Asy Shuura : 42: 51)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"And they ask you about the spirit. Say: "The spirit is among the affairs of my Lord, and you were not given knowledge but a little." (Al Israa ': 17: 85)

"And when My servants ask you about Me, then, that I am near. I grant the request of those who pray when he asks Me, then they will fulfill Me and they will believe in Me, so that they are always in truth.(Al Baqarah: 2: 186)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)

"He arranges affairs from skys to earth, then it rises to Him in one day, the amount of which is a thousand years according to your calculations (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day whose value is fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"And We made a wall in front of them and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36: 9)

In an effort to open the veil of Allah's secret about most humans in the world considering Allah or Jahve or God is not needed in daily life, whether in government or in family, the authors base it on deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes a hypothesis that most humans in the world considering Allah or Jahve or God is not needed in daily life, whether in government or in family, because belief according to the human mind is to fulfill the needs and desires of human life, based on Deoxyribonucleic acid (DNA).)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43%

nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

MOST HUMANS IN THE WORLD CONSIDERING ALLAH OR JAHVE OR GOD ARE NOT NEEDED IN DAILY LIFE, WHETHER IN GOVERNMENT OR FAMILY

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"Those who remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)" He has created human from a blood clot. (Al 'Alaq : 96: 2)*

Well, here Allah declares, the human mind will reach the level of Allah's mind or Jahve's mind or God's mind *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*

That is, here, belief arises according to the human mind in proportion to Allah's mind or Jahve's mind or God's mind when human through the path of *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*

Well, now, if human belief arises not because of the way *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*, then human belief appears because it has been fulfilled directly desires and encouragement.

Now, because human belief appears through desires and encouragement that are fulfilled immediately, then what is in the human mind is, belief will arise if desires and encouragement are fulfilled directly, without conditions.

When Allah declares *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)*

Well, this belief based on Allah's mind or Jahve's mind or God's mind, is a belief that has conditions, namely, *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)*

Well, if belief arises according to the human mind in proportion to Allah's mind or Jahve's mind or God's mind when human through the path of *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*, then a belief that has conditions, *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)* which will be implemented.

However, if belief according to the human mind is disproportionate to belief according to Allah's mind or Jahve's mind or God's mind, then the belief according to the human mind is based on the immediate fulfillment of his desires and encouragement.

So, humans will believe in something, if their desires and encouragement are immediately fulfilled.

If a human *"...prays...to Allah...(Al Baqarah: 2: 186)* Allah does not immediately grant his wish and encouragement, then that human does not believe in Allah. Because belief according to the human mind will arise if desire and encouragement are immediately fulfilled.

Well, belief according to the human mind that is not comparable to belief according to Allah's mind or Jahve's mind or God's mind, which is in the majority of people in the world.

So, according to most human minds today in the world, people believe in something, if that something directly fulfills their desire and encouragement.

Now, most people around the world do not believe in Allah or Jahve or God, because according to them, Allah or Jahve or God, does not directly fulfill their desire and encouragement.

Or in other words, belief according to the human mind is not comparable to belief according to Allah's mind or Jahve's mind or God's mind .

Well, here, most people around the world think that Allah or Jahve or God is a living thing, like humans.

So, even though Allah or Jahve or God *"...created the seven skys...(Al Mulk : 67: 3) and "...created human beings...(Al Mu'minuun: 23: 12) by "... my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, does not make the majority of human beings believe in Allah or Jahve or God.*

Because, most people think, Allah or Jahve or God is not directly involved in creation, as when humans make an object, it is visible, humans with all their equipment, make that object.

Well, because the basic thinking used by most people in the world is the basic thinking related to the direct fulfillment of human desire and encouragement.

Even though in the bodies of humans, animals, plants, fungi, amoebas, bacteria and other things, which are in *"...the seven skys...(Al Mulk: 67: 3) there is "... my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, as a source of life, but, as long as, that, does not fulfill the direct desire and encouragement of humans, then most of humans do not believe in Allah or Jahve or God.*

So, in order to change the circle that revolves around fulfilling the direct desire and encouragement of human beings, Allah has declared *"Those who remember Allah...and they think of the creation of the skys and the earth...(Ali 'Imran : 3: 191) and "... creation of man from a clot of blood. (Al 'Alaq : 96: 2)*

Well, with humans *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191) and "...the creation of man from a clot of blood. (Al 'Alaq : 96: 2) , will break the circle that revolves around fulfilling the direct desire and encouragement of humans.*

Humans will be brought to the path to believe according to the human mind in proportion to belief according to Allah's mind or Jahve's mind or God's mind, because they through the path of *"...remembering Allah...and... thinking about the creation of the heavens and the earth...(Ali 'Imran : 3: 191) and "...the creation of man from a clot of blood. (Al 'Alaq : 96: 2)*

So, by *"...remembering Allah...and... thinking about the creation of the heavens and the earth...(Ali 'Imran : 3: 191) and "...the creation of man from a clot of blood. (Al 'Alaq: 96: 2) there will arise a belief according to the human mind in proportion to the belief according to Allah's mind or Jahve's mind or God's mind.*

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses:*"Those who remember Allah...and they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)" He has created human from a blood clot. (Al 'Alaq : 96: 2)*

Well, here Allah declares, the human mind will reach the level of Allah's mind or Jahve's mind or God's mind *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*

That is, here, belief arises according to the human mind in proportion to Allah's mind or Jahve's mind or God's mind when human through the path of *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*

Well, now, if human belief arises not because of the way *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*, then human belief appears because it has been fulfilled directly desires and encouragement.

Now, because human belief appears through desires and encouragement that are fulfilled immediately, then what is in the human mind is, belief will arise if desires and encouragement are fulfilled directly, without conditions.

When Allah declares *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)*

Well, this belief based on Allah's mind or Jahve's mind or God's mind, is a belief that has conditions, namely, *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)*

Well, if belief arises according to the human mind in proportion to Allah's mind or Jahve's mind or God's mind when human through the path of *"...remembering Allah...and...thinking about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* and *"...the creation of human from a clot of blood. (Al 'Alaq : 96: 2)*, then a belief that has conditions, *"... I grant the request of those who pray, when he asks Me, they will fulfill Me and they will believe in Me ... (Al Baqarah: 2: 186)* which will be implemented.

However, if belief according to the human mind is disproportionate to belief according to Allah's mind or Jahve's mind or God's mind, then the belief according to the human mind is based on the immediate fulfillment of his desires and encouragement.

So, humans will believe in something, if their desires and encouragement are immediately fulfilled.

If a human *"...prays...to Allah...(Al Baqarah: 2: 186)* Allah does not immediately grant his wish and encouragement, then that human does not believe in Allah. Because belief according to the human mind will arise if desire and encouragement are immediately fulfilled.

Well, belief according to the human mind that is not comparable to belief according to Allah's mind or Jahve's mind or God's mind, which is in the majority of people in the world.

So, according to most human minds today in the world, people believe in something, if that something directly fulfills their desire and encouragement.
