**ABSTRACT**

Before the author writes about Muslims around the world must return to think of the real Allah, like the youth of Ibrahim understood the real Allah, first the author asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets of Muslims around the world must return to think of the real Allah, like the youth of Ibrahim understood the real Allah, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah about Muslims around the world must return to think of the real Allah, like the youth of Ibrahim understood the real Allah, namely the following verses:

*"So when I have perfected the body and breathed into Adam my spirit, then you will fall down and prostrate to Adam (Shaad: 38: 72)*

*"And to Allah belongs the east and the west, so wherever you turn, there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)*

*"And thus We showed Abraham signs of greatness in the skys and the earth and so that he would be among those who believed. (Al An'aam: 6: 75)*

*"When the night was dark, he saw a star he said: "This is my God", but when the star sank he said: "I do not like those who drown." (Al An'aam: 6: 76)*

*"Then when he saw the moon rising he said: "This is my God" But after the moon had set, he said: "Indeed, if my God had not guided me, I would have been one of those who went astray." (Al An'aam: 6: 77)*

*"Then when he saw the sun rising, he said: "This is my God, this is the greater." So when the sun set, he said: "O my people, indeed I disassociate myself from what you associate. (Al An'aam: 6: 78)*

*"When his God said to him: "Submit obediently!" Ibrahim replied: "I submit obediently to God of the worlds." (Al Baqarah: 2: 131)*

*"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)*

*"And when Abraham said: "O my God, show me how You give life to the dead." Allah said: "Are you not sure yet?" Ibrahim answered: "I am sure, but to keep my heart steady, Allah said: "Take four bird's tail, then chop them all up by you. "Then place on each hill one part of those parts, then call them, they will surely come to you immediately." And know that Allah is All-Mighty, All-Wise. (Al Baqarah : 2: 260)*

In an effort to open the veil of Allah's secrets, Muslims around the world must return to think of the

real Allah, like the youth of Ibrahim understood the real Allah, the author uses the basis of deoxyribonucleic acid.

## **HYPOTHESIS**

Here the author proposes the hypothesis that Muslims around the world must return to think of the real Allah, like the youth of Ibrahim understood the real Allah, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARKS**

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## **DEOXYRIBONUCLIC ACID (DNA)**

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **MUSLIMS AROUND THE WORLD MUST RETURN TO THINK OF THE REAL ALLAH, LIKE THE YOUTH OF IBRAHIM UNDERSTANDED THE REAL ALLAH**

So now, we are still concentrating our minds on uncovering the secrets contained behind the verses: *"...seven skys...balanced (Al Mulk: 67: 3)"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)"...Ibrahim saw the star he said: "This is my God"...(Al An'aam: 6: 76)"...Ibrahim saw the rising moon he said: "This is my God" ...(Al An'aam: 6: 77)"...when Abraham saw the sun rising, he said: "This is my God..."...(Al An'aam: 6: 78)"When God said to Abraham : "Submit obediently!" Ibrahim answered: "I submit obediently to God of the worlds." (Al Baqarah: 2: 131)"...Ibrahim said: "O my God, show me how You give life to the dead...(Al Baqarah: 2: 260)*

It turns out, here Allah has revealed to all humans, including all Muslims in the world, how to do it, so that the youth of Ibrahim understands the real Allah.

So, to understand the real Allah, all Muslims in the world must look for the real Allah, through Allah's form, in the form of "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad : 38: 72)*, Allah's energy and Allah's particles "*...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Well, here, it is described how the young man Ibrahim, tried to understand the true God, through direct research "*...Ibrahim saw the star he said: "This is my God"...(Al An'aam: 6: 76)"...Ibrahim saw the rising moon he said: "This is my God" ...(Al An'aam: 6: 77)"...when Abraham saw the sun rising, he said: "This is my God..."...(Al An'aam: 6: 78)*

Well, through direct research, the youth Ibrahim reached the level of thought, which "*...is in balance (Al Mulk: 67: 3)* with the thought of Allah.

Why did the youth Ibrahim think "*...in balance (Al Mulk: 67: 3)* with the thoughts of Allah?

Well, because, the youth Ibrahim, sought proof of the real Allah, through "*...signs of glory in the skys and the earth...(Al An'aam: 6: 75)*

So, what is that, "*...signs of glory in the skys and the earth...(Al An'aam: 6: 75)?*

"*...signs of glory in the skys and the earth...(Al An'aam: 6: 75)* are "*...stars...(Al An'aam: 6: 76)*,"*...moon...(Al An'aam: 6: 77)*,"*...sun...(Al An'aam: 6: 78)*

Well, young Ibrahimthe youth Ibrahim , by researching "*...stars...(Al An'aam: 6: 76)*,"*...moon...(Al An'aam: 6: 77)*,"*... the sun...(Al An'aam: 6: 78)* as "*...signs of glory in the skys and the earth...(Al An'aam: 6: 75)*, then the youth Ibrahim reached the level of thinking that was "*...balanced (Al Mulk : 67: 3)* with Allah's thoughts.

Well, it turns out, "*...star...(Al An'aam: 6: 76)*,"*...moon...(Al An'aam: 6: 77)*,"*...sun...(Al An'aam: 6: 78)* as "*...signs of glory in the skys and the earth...(Al An'aam: 6: 75)* are "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)*

So, through direct research, the youth Ibrahim discovered, to understand the real Allah, one must go through Allah's form, in the form of "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)*, Allah's energy and Allah's particles "*...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Well, "*...star...(Al An'aam: 6: 76)*,"*...moon...(Al An'aam: 6: 77)*,"*...sun...(Al An'aam: 6: 78)* was created with "*...my spirit...(Shaad: 38: 72)* or "*...Allah's spirit...(Shaad: 38: 72)* which is built with hydrogen atoms, carbon atoms, nitrogen atom and oxygen atom.

So, to understand "*...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)* requires Allah's energy and Allah's particles.

Well, Allah through "*...the face of Allah...(Al Baqarah: 2: 115)* is everywhere, because of Allah's energy which is very small, 0.000000000 000000000 000000000 01 grams per cubic cm.

Where the energy of Allah required by Allah particles is very small, almost nothing, 0.000000000 000000000 000000000 00000 3335917542091889 grams, which has a speed of light of 5 475 103 664 604.84 km per second.

So, with the existence of Allah's energy and Allah's particles, "*...the face of Allah...(Al Baqarah: 2: 115)* is everywhere, "*...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Well, "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115) which is still not understood by most Muslims in the world.

In fact, when the youth Ibrahim had already done direct research, and the youth Ibrahim discovered that to understand the real Allah, one had to go through Allah's form, in the form of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)

Well, because the youth Ibrahim, already understood the real Allah, he had to go through Allah's form, in the form of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115), then "When Allah said to Ibrahim: "Submit!" Ibrahim replied: "I submit obey God of the worlds". (Al Baqarah: 2: 131)

Well, the youth Ibrahim, surrendered to Allah, after he youth Ibrahim, understood the real Allah, he had to go through Allah's form, in the form of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)

Apart from that, to understand the real Allah, the youth Ibrahim, directly, asked Allah "...how Allah give life to the dead...(Al Baqarah: 2: 260)

Well, Allah, provides evidence, "...give life to the dead...(Al Baqarah: 2: 260) through "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), which came out of "... four chopped birds...(Al Baqarah : 2: 260)

Well, here, it proves that Allah not only "...breathed Allah's spirit into Adam...(Shaad : 38: 72), but also into all humans living in the world, including all animals, living in the world .

Well, this is Allah's secret, how Allah "...give life to the dead...(Al Baqarah: 2: 260) through "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), which came out of "... four chopped birds...(Al Baqarah : 2: 260) and from every human body that dies.

So, now, Muslims all over the world have to think again about the real Allah, like the youth Ibrahim understood the real Allah.

Allah is not just in the mouth.

## CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "...seven skys...balanced (Al Mulk: 67: 3)" "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)" "...Ibrahim saw the star he said: "This is my God"...(Al An'aam: 6: 76)" "...Ibrahim saw the rising moon he said: "This is my God" ...(Al An'aam: 6: 77)" "...when Abraham saw the sun rising, he said: "This is my God..."...(Al An'aam: 6: 78)" "When God said to Abraham : "Submit obediently!" Ibrahim answered: "I submit obediently to God of the worlds." (Al Baqarah: 2: 131)" "...Ibrahim said: "O my God, show me how You give life to the dead...(Al Baqarah: 2: 260)

It turns out, here Allah has revealed to all humans, including all Muslims in the world, how to do it, so that the youth of Ibrahim understands the real Allah.

So, to understand the real Allah, all Muslims in the world must look for the real Allah, through

Allah's form, in the form of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)

Well, here, it is described how the young man Ibrahim, tried to understand the true God, through direct research "...Ibrahim saw the star he said: "This is my God" ...(Al An'aam: 6: 76)"...Ibrahim saw the rising moon he said: "This is my God" ...(Al An'aam: 6: 77)"...when Abraham saw the sun rising, he said: "This is my God..."...(Al An'aam: 6: 78)

Well, through direct research, the youth Ibrahim reached the level of thought, which "...is in balance (Al Mulk: 67: 3) with the thought of Allah.

Why did the youth Ibrahim think "...in balance (Al Mulk: 67: 3) with the thoughts of Allah?

Well, because, the youth Ibrahim, sought proof of the real Allah, through "...signs of glory in the skys and the earth...(Al An'aam: 6: 75)

So, what is that, "...signs of glory in the skys and the earth...(Al An'aam: 6: 75)?

"...signs of glory in the skys and the earth...(Al An'aam: 6: 75) are "...stars...(Al An'aam: 6: 76),"...moon...(Al An'aam: 6: 77),"...sun...(Al An'aam: 6: 78)

Well, young Ibrahimthe youth Ibrahim , by researching "...stars...(Al An'aam: 6: 76),"...moon...(Al An'aam: 6: 77),"... the sun...(Al An'aam: 6: 78) as "...signs of glory in the skys and the earth...(Al An'aam: 6: 75), then the youth Ibrahim reached the level of thinking that was "...balanced (Al Mulk : 67: 3) with Allah's thoughts.

Well, it turns out, "...star...(Al An'aam: 6: 76),"...moon...(Al An'aam: 6: 77),"...sun...(Al An'aam: 6: 78) as "...signs of glory in the skys and the earth...(Al An'aam: 6: 75) are "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)

So, through direct research, the youth Ibrahim discovered, to understand the real Allah, one must go through Allah's form, in the form of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's particles "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)

Well, "...star...(Al An'aam: 6: 76),"...moon...(Al An'aam: 6: 77),"...sun...(Al An'aam: 6: 78) was created with "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72) which is built with hydrogen atoms, carbon atoms, nitrogen atom and oxygen atom.

So, to understand "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115) requires Allah's energy and Allah's particles.

Well, Allah through "...the face of Allah...(Al Baqarah: 2: 115) is everywhere, because of Allah's energy which is very small, 0.000000000 000000000 000000000 01 grams per cubic cm.

Where the energy of Allah required by Allah particles is very small, almost nothing, 0.000000000 000000000 000000000 00000 3335917542091889 grams, which has a speed of light of 5 475 103 664 604.84 km per second.

So, with the existence of Allah's energy and Allah's particles, "...the face of Allah...(Al Baqarah: 2: 115) is everywhere, "...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)

Well, "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72), Allah's energy and Allah's

particles *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)* which is still not understood by most Muslims in the world.

In fact, when the youth Ibrahim had already done direct research, and the youth Ibrahim discovered that to understand the real Allah, one had to go through Allah's form, in the form of *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)*, Allah's energy and Allah's particles *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Well, because the youth Ibrahim, already understood the real Allah, he had to go through Allah's form, in the form of *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)*, Allah's energy and Allah's particles *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*, then "When Allah said to Ibrahim: *"Submit!" Ibrahim replied: "I submit obey God of the worlds". (Al Baqarah: 2: 131)*

Well, the youth Ibrahim, surrendered to Allah, after he youth Ibrahim, understood the real Allah, he had to go through Allah's form, in the form of *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)*, Allah's energy and Allah's particles *"...wherever you turn, there is the face of Allah...(Al Baqarah : 2: 115)*

Apart from that, to understand the real Allah, the youth Ibrahim, directly, asked Allah *"..how Allah give life to the dead...(Al Baqarah: 2: 260)*

Well, Allah, provides evidence, *"...give life to the dead...(Al Baqarah: 2: 260)* through *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)*, which came out of *"... four chopped birds...(Al Baqarah : 2: 260)*

Well, here, it proves that Allah not only *"...breathed Allah's spirit into Adam...(Shaad : 38: 72)*, but also into all humans living in the world, including all animals, living in the world .

Well, this is Allah's secret, how Allah *"...give life to the dead...(Al Baqarah: 2: 260)* through *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad: 38: 72)*, which came out of *"... four chopped birds...(Al Baqarah : 2: 260)* and from every human body that dies.

So, now, Muslims all over the world have to think again about the real Allah, like the youth Ibrahim understood the real Allah.

Allah is not just in the mouth.
