## ABSTRACT

Before the author writes about Muslims in the world assumes the afterlife as opposed to the world, meanwhile, Allah's spirit was alive when it was still in the world and after it was in the afterlife, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secrets of Muslims in the world assumes the afterlife as opposed to the world, meanwhile, Allah's spirit was alive when it was still in the world and after it was in the afterlife, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about Muslims in the world assumes the afterlife as opposed to the world, meanwhile, Allah's spirit was alive when it was still in the world and after it was in the afterlife, namely the following verses:

*"Then when I have completed the body and I have breathed on him my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)*

*"And if We had made the apostle an angel, We would have made him a male and, surely We would have doubted about them what they doubted about themselves (Al An'aam: 6: 9)*

*"So Maryam made a veil from them, then We sent Our spirit to her, so Our spirit incarnated before Maryam the perfect human. (Maryam: 19: 17)*

*"those who believe in the unseen, who establish prayer, and spend part of the sustenance that We bestow upon them. (Al Baqarah: 2: 3)*

*"And those who believe in the Book that has been revealed to you and the Books that were revealed before you, and they believe in the afterlife (Al Baqarah: 2: 4)*

*"And among His signs is that you see the earth is dry and arid, so when We send down water on it, it will surely move and be fertile. Indeed, God Who gives life to dry and arid earth, can surely revive the dead... (Fushshilat :41:39)*

*"Allah created the skys and the earth with haq (right). Indeed, in that there are signs of Allah's power for the believers (Al 'Ankabuut: 29: 44)*

In an effort to uncover Allah's secret veil about Muslims in the world assumes the afterlife as opposed to the world, meanwhile, Allah's spirit was alive when it was still in the world and after it was in the afterlife, the author uses the basis of Deoxyribonucleic acid (DNA)

## HYPOTHESIS

Here the author proposes the hypothesis that Muslims in the world assumes the afterlife as opposed to the world, meanwhile, Allah's spirit was alive when it was still in the world and after it was in the afterlife, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONULEIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

## MUSLIMS IN THE WORLD ASSUMES THE AFTERLIFE AS OPPOSED TO THE WORLD, MEANWHILE, ALLAH'S SPIRIT WAS ALIVE WHEN IT WAS STILL IN THE WORLD AND AFTER IT WAS IN THE AFTERLIFE

Now, we are still concentrating on dismantling the secret contained behind the verse: *"...I breathed into human my spirit...(Shaad : 38: 72)"...Our spirit incarnated...the perfect human (Maryam: 19: 17)"...they believe in the afterlife (Al Baqarah: 2: 4) "...Indeed, God Who gives life to dry and arid earth, can surely revive the dead...(Fushshilat :41:39)*

Apparently, here, Allah or Jahve or Adonai, declared *"...they believe in the afterlife (Al Baqarah: 2: 4) "...Indeed, God Who gives life to dry and arid earth, can surely revive the dead...(Fushshilat :41:39)*

Well, the declaration of Allah or Jahve or Adonai, *"...they believe in the afterlife (Al Baqarah: 2: 4)*

That is, Muslims in the world, *"...believe in the afterlife (Al Baqarah: 2: 4)*

The question now is,

Why do Muslims in the world regard the afterlife as opposed to the world?

The answer is in the secret behind the verse: *"...Indeed, God Who gives life to dry and arid earth, can surely revive the dead...(Fushshilat :41:39)*

Well, it turns out, actually, *"...dry and arid earth...(not) dead...(Fushshilat: 41: 39)*

Because, in *"...dry and arid earth...(Fushshilat: 41: 39)* there is *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

So, actually, *"...dry and arid earth...(Fushshilat: 41: 39)* is hydrogen atom, carbon atom, nitrogen atom and oxygen atom. Where these atoms do not die.

Now, Muslims in the world assumes the afterlife as opposed to the world, because living in the world is not the same as living in the afterlife, living in the afterlife there is paradise and hell, living in the afterlife, eternal life, as long as the universe has not returned to Allah's energy, while living in the world, is life that is not eternal.

So, Muslims in the world assumes, the afterlife as opposed to the world, is an assumption that is not true.

Why is it that Muslims in the world assumes, the afterlife as opposed to the world, is an assumption that is not true?

Because, those who live in this world and those who live in the afterlife are *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Only, *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, while still in the world, had a body in the form of blood, flesh and bone.

Well, when *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, is in the afterlife, has no body in the form of blood, flesh and bone, but the arrangement of atoms in the form of molecules.

That is, only hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which make up the body *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai.

So, actually, the afterlife is not opposed to the world, because *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which are built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, are the same.

*"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, live on, until the age of 10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 years.

Well here, Muslims in the world, assumes the afterlife as opposed to the world, because Muslims in the world do not understand the real Allah or the real Jahve or the real Adonai through the form of Allah or the form of Jahve or the form of Adonai, in the form of Allah's energy or Jahve's energy or Adonai's energy, and in the form of the Allah's particle or the Jahve's particle or the Adonai's particle, as well as in the form of *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai.

## CONCLUSION

The conclusions that can be drawn from the explanation above are the secret contained behind the verse: *"...I breathed into human my spirit...(Shaad : 38: 72)"...Our spirit incarnated...the perfect*

*human (Maryam: 19: 17) "...they believe in the afterlife (Al Baqarah: 2: 4) "...Indeed, God Who gives life to dry and arid earth, can surely revive the dead...(Fushshilat :41:39)*
