ABSTRACT

Before the author writes about Muslims still believe, the spirit leaves and enters the body, because they do not understand the real Allah, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret that Muslims still believe, the spirit leaves and enters the body, because they do not understand the real Allah, based on deoxyribonucleic acid (DNA).

There are several verses that open Allah's secret about Muslims still believe, the spirit leaves and enters the body, because they do not understand the real Allah, namely the following verses:

"Allah holds the soul when it dies and the soul that has not died in its sleep, so He holds the soul for which He has ordained death and He releases another soul until the appointed time. Indeed, in that there are signs of Allah's power for people who think .(Az Zumar : 39: 42)

"Then when I have perfected the body and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"What if the angels take their souls while beating their faces and their backs? (Muhammad: 47: 27)

In an effort to open the veil about Muslims still believe, the spirit leaves and enters the body, because they do not understand the real Allah, the author bases this on deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis that Muslims still believe, the spirit leaves and enters the body, because they do not understand the real Allah, based on Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

MUSLIMS STILL BELIEVE, THE SPIRIT LEAVES AND ENTERS THE BODY, BECAUSE THEY DON'T UNDERSTAND THE REAL ALLAH

Now, we are still concentrating on dismantling the secrets stored in the verse: *"Allah withhold the soul when it dies and the soul that has not died in its sleep, so He withhold the soul for which He has ordained death and He releases another soul until the appointed time..."(Az Zumar : 39: 42)*

Well, here Allah or Jahve or YHWH or Adonai, has revealed the true secret, about how *"Allah withhold the soul when it dies...in its sleep...(Al An'aam: 6: 9)*

Apparently, what is meant by *"...soul...(Al An'aam: 6: 9)* is *"...my spirit...(Shaad : 38: 72)* or *"...spirit of Allah...(Shaad : 38:72)* or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms.

Actually, the declaration of Allah or Jahve or YHWH or Adonai *"...He withhold the soul for which He has ordained death...(Az Zumar : 39: 42)* refers to *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms. Where is the oxygen atom, which is needed by millions of cells in the body, stopped. Without oxygen atoms, within a few minutes, humans will die.

So, *"...He withhold the soul...(Az Zumar: 39: 42)* the same as the oxygen atom, is stopped, enters the body.

So, if there are Muslims in the world who believe that the spirit leaves the body and enters the body when humans are sleeping, that is a wrong belief. Because *"...my spirit...(Shaad : 38: 72)* or *"...spirit of Allah...(Shaad : 38:72)* or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, comes out of the body, when man dead.

CONCLUSION

Based on the description above, we can conclude that the secrets stored in the verse: *"Allah withhold the soul when it dies and the soul that has not died in its sleep, so He withhold the soul for which He has ordained death and He releases another soul until the appointed time..."(Az Zumar : 39: 42)*

Well, here Allah or Jahve or YHWH or Adonai, has revealed the true secret, about how *"Allah withhold the soul when it dies...in its sleep...(Al An'aam: 6: 9)*

Apparently, what is meant by *"...soul...(Al An'aam: 6: 9)* is *"...my spirit...(Shaad : 38: 72)* or *"...spirit of Allah...(Shaad : 38:72)* or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms.

Actually, the declaration of Allah or Jahve or YHWH or Adonai *"...He withhold the soul for which He has ordained death...(Az Zumar : 39: 42)* refers to *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of*

Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms. Where is the oxygen atom, which is needed by millions of cells in the body, stopped. Without oxygen atoms, within a few minutes, humans will die.

So, "*...He withhold the soul...(Az Zumar: 39: 42)* the same as the oxygen atom, is stopped, enters the body.

So, if there are Muslims in the world who believe that the spirit leaves the body and enters the body when humans are sleeping, that is a wrong belief. Because "*...my spirit...(Shaad : 38: 72)* or "*...spirit of Allah... (Shaad : 38:72)* or the spirit of Jahve or the spirit of YHWH or the spirit of Adonai, comes out of the body, when man dead.
