ABSTRACT

Before the author writes about Muslims who use the mind, obey Allah and the Rasul, and understand the real Allah, will be able to defend Islam until 4600 000 000 years to come, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about Muslims who use the mind, obey Allah and the Rasul, and understand the real Allah, will be able to defend Islam until 4600 000 000 years to come, based on deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about Muslims who use the mind, obey Allah and the Rasul, and understand the real Allah, will be able to defend Islam until 4600 000 000 years to come, namely the following verses:

"Those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "O our Lord, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)

"Then when I have perfected the body and I have breathed on him my spirit, then you will fall down prostrating to him." (Shaad: 38: 72)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"When the sun is rolled up (At Takwiir: 81: 1)

"O you who believe, obey Allah and obey the Messenger and ulil amri among you. Then if you differ in opinion about something, then return it to Allah and the Messenger, if you really believe in Allah and the Last Day. That is that is more important and the result is better (An Nisaa ': 4: 59)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

In an effort to uncover Allah's secret veil about Muslims who use the mind, obey Allah and the Rasul, and understand the real Allah, will be able to defend Islam until 4600 000 000 years to come, the authors use deoxyribonucleic acid as the basis.

HYPOTHESIS

Here the author proposes a hypothesis that Muslims who use the mind, obey Allah and the Rasul, and understand the real Allah, will be able to defend Islam until 4600 000 000 years to come, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

MUSLIMS WHO USE THE MIND, OBEY ALLAH AND THE RASUL, AND UNDERSTAND THE REAL ALLAH, WILL BE ABLE TO DEFEND ISLAM UNTIL THE COMING 4600 000 000 YEARS

Now, we are still concentrating on uncovering the secrets contained behind the verses: *"Those who remember Allah...and think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)". ..I breathed into human my spirit...(Shaad : 38: 72)*

Apparently, here Allah or Jahve or Adonai, has declared 2 very important factors that must be known by all people in the world.

Factor 1, is *"...Those who remember Allah...(Shaad : 38: 72)*

Factor 2, is *"...they think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)*

Well, these 2 important factors, which most people, including most Muslims in the world, forget.

"...remember Allah...(Shaad : 38: 72) includes all forms of worship to Allah. Or in other words, the relationship between humans and Allah, in the form of worship.

"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191) includes all forms of relationships between humans, the relationship between humans and nature, and the relationship between humans and animals.

Now, with these 2 important factors, “**...remember Allah...(Shaad : 38: 72)** and “**...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)** which makes Muslims are able to defend Islam until 4600 000 000 years to come.

Why until 4600 000 000 years to come ?

Because the sun will run out of atomic hydrogen fuel, about 4600 000 000 years from now.

Or in other words, "...the sun is rolled (At Takwiir: 81: 1), because it runs out of atomic hydrogen fuel, about 4600 000 000 years to come.

Well, before "**... the sun is rolled up (At Takwiir: 81: 1)** Muslims in the world must be able to defend Islam until 4600 000 000 years to come.

Well, Muslims in the world will be able to defend Islam for 4600 000 000 years to come, if Muslims in the world carry out these 2 important factors, namely “**...remember Allah...(Shaad : 38: 72)** and “**...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)**

Well, these 2 important factors, which most people, including Muslims in the world, do not understand.

Muslims in the world have only just reached the level of "**...obey Allah and obey the Messenger...(An Nisaa' : 4: 59)** in the form of implementation at home, at school, in the field, in the mosque and in the Kaaba alone. Whereas "**...obey Allah and obey the Messenger...(An Nisaa' : 4: 59)** in the form of law enforcement within the country, it has not yet been implemented.

Moreover, if we pay attention to Wahhabis and Salafi followers, in Saudi Arabia, and in the world, Muslims are brought back far behind, to follow what their parents did, 1364 years ago, Al Quran and Sunnah, it is enough to read and understand on the surface just. We don't need to understand the basics, because to understand the Al-Quran and Sunnah to the bottom, it's enough just to flip through old notes made by parents who lived 1364 years ago, around Medina, in Saudi Arabia.

Because according to the thoughts of Wahhabi followers and Salafi followers, Muslim society, should not interfere with other communities. Or it could be said, according to the Wahhabi and Salafi followers, Muslim society is a closed, isolated society, and does not need to associate with other communities.

The Prophet Muhammad saw, for 23 years, fostered a Muslim community, in Mecca, for 13 years, and in the first Islamic State in the world, in Medina, for 10 years, succeeded in building a pluralistic society, between the Muslim community in Medina, and non-Muslim communities. Muslims, Jews living in Medina.

However, after the death of the Prophet Muhammad saw, his companions, have killed each other. Umar bin Khattab, was killed, Usman bin Affan, was killed, Ali bin Abi Talib, was killed. All those who kill are Muslims.

So, Umar bin Khattab, Usman bin Affan, Ali bin Abi Talib were companions of the Prophet Muhammad saw, however, they failed to follow the example of the Prophet Muhammad saw.

Well, this, is one of the obstacles, to carry out 2 important factors, “**...remember Allah...(Shaad : 38: 72)** and “**...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)** which makes Muslims

able to defend Islam until 4600 000 000 years to come.

Well, in fact, the Prophet Muhammad saw, has described a good Muslim, is a Muslim who *"...remember Allah...(Shaad : 38: 72)* and *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* which makes Muslims able to defend Islam until 4600 000 000 years to come.

Muslims in the world must understand the real Allah, through Allah's energy, Allah's particles *"... wherever you turn there is the face of Allah... (Al Baqarah: 2: 115)* and through *"... my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)*

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"Those who remember Allah...and think about the creation of the skys and the earth ...(Ali 'Imran: 3: 191)". ..I breathed into human my spirit...(Shaad : 38: 72)*
