## ABSTRACT

Before the author writes about people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secrets about people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body, namely the following verses:

*"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)*

*"So eat what is lawful and good from the sustenance that Allah has given you, and be grateful for Allah's blessings, if you worship Him alone. (An Nahl: 16: 114)*

*And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah : 2: 115)*

*"Did We not create you from lowly water (Al Mursalaat: 77: 20)*

*"And He who created the skys and the earth in six periods, and His throne is above the water, so that He may test which of you is better in deeds and if you say "Indeed you will be resurrected after death", surely those who disbelieve will said: "This is nothing but real magic" (Huud : 11: 7)*

In an effort to open the veil of Allah's secrets about people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes the hypothesis people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body, based on Deoxyribonucleic acid (DNA).

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## PEOPLE IN THE WORLD DO NOT BELIEVE IN ALLAH, BECAUSE PEOPLE DO NOT UNDERSTAND ALLAH IN THE FORM OF ALLAH'S SPIRIT, ALLAH'S ENERGY AND ALLAH'S PARTICLES, WHICH ARE IN EVERY HUMAN BODY

So now, we are still concentrating our minds on uncovering the secret contained behind the verse: *"...eat what is lawful and good from the sustenance that Allah has given you...(An Nahl: 16: 114) "...We create you from lowly water (Al Mursalaat: 77: 20) "...He who created the skys and the earth in six periods, and His throne is above the water...(Huud: 11: 7)*

Well, it turns out that here Allah has declared *"...eat what is lawful and good...(An Nahl: 16: 114) "...He who created the skys and the earth...and His throne is above the water...(Huud: 11: 7)*

Now the question arises,

Why did Allah declare *"...eat what is lawful and good...(An Nahl: 16: 114) "...His throne is above the water...(Huud: 11: 7)?*

Well, the answer is in the secret *"...above the water...(Huud: 11: 7)"...We create you from lowly water (Al Mursalaat: 77: 20)*

What is apparently in *"...water...(Huud: 11: 7)* and in *"...lowly water (Al Mursalaat: 77: 20)?*

The answer is, in *"...water...(Huud: 11: 7)* and in *"...lowly water (Al Mursalaat: 77: 20)* contains hydrogen atoms and oxygen atoms.

Or in other words, in *"...water...(Huud: 11: 7)* and in *"...lowly water (Al Mursalaat: 77: 20)* contains *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*

So, now, everything that is eaten, drunk and breathed by all people, including all Muslims living in the world, contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, whatever is eaten, drunk and breathed by all people, including all Muslims living in the world, contains "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

Well, from what is eaten, drunk and breathed by all people, including all Muslims living in the world, it becomes the energy of Allah "...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115). Where Allah's energy is very small, 0.000000000 000000000 000000000 01 grams per cubic cm required by very small Allah particles is almost nothing, 0.000000000 000000000 000000000 000000000 00000 333591754209188 9 grams, which has the speed of light 5 475 103 664 604.84 km per second.

So, wherever the human eye is directed, for example, directed at the human body itself, then before the human eye is directed at his own body, then Allah through Allah's energy with the help of Allah particles which have a speed of light of 5 475 103 664 604.84 km per seconds are already in the human body.

So, actually, when all people, including all Muslims living in the world, eat, drink and sip "...my spirit...(Shaad: 38: 72) or "...the spirit of Allah...(Shaad: 38: 72) proves that Allah exists in the human body in the form of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72), Allah's energy and Allah's particle.

This is the secret of Allah, which all people, including all Muslims living in the world, still do not understand.

So, actually, people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body,

## CONCLUSION

Based on the description above we can conclude that the secret contained behind the verse: "...eat what is lawful and good from the sustenance that Allah has given you...(An Nahl: 16: 114) "...We create you from lowly water (Al Mursalaat: 77: 20) "...He who created the skys and the earth in six periods, and His throne is above the water...(Huud: 11: 7)

Well, it turns out that here Allah has declared "...eat what is lawful and good...(An Nahl: 16: 114) "...He who created the skys and the earth...and His throne is above the water...(Huud: 11: 7)

Now the question arises,

Why did Allah declare "...eat what is lawful and good...(An Nahl: 16: 114) "...His throne is above the water...(Huud: 11: 7)?

Well, the answer is in the secret "...above the water...(Huud: 11: 7)"...We create you from lowly water (Al Mursalaat: 77: 20)

What is apparently in "...water...(Huud: 11: 7) and in "...lowly water (Al Mursalaat: 77: 20)?

The answer is, in "...water...(Huud: 11: 7) and in "...lowly water (Al Mursalaat: 77: 20) contains hydrogen atoms and oxygen atoms.

Or in other words, in "...water...(Huud: 11: 7) and in "...lowly water (Al Mursalaat: 77: 20) contains "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

So, now, everything that is eaten, drunk and breathed by all people, including all Muslims living in

the world, contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, whatever is eaten, drunk and breathed by all people, including all Muslims living in the world, contains "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72)

Well, from what is eaten, drunk and breathed by all people, including all Muslims living in the world, it becomes the energy of Allah "...wherever you turn there is the face of Allah...(Al Baqarah: 2: 115). Where Allah's energy is very small, 0.000000000 000000000 000000000 01 grams per cubic cm required by very small Allah particles is almost nothing, 0.000000000 000000000 000000000 000000000 00000 333591754209188 9 grams, which has the speed of light 5 475 103 664 604.84 km per second.

So, wherever the human eye is directed, for example, directed at the human body itself, then before the human eye is directed at his own body, then Allah through Allah's energy with the help of Allah particles which have a speed of light of 5 475 103 664 604.84 km per seconds are already in the human body.

So, actually, when all people, including all Muslims living in the world, eat, drink and sip "...my spirit...(Shaad: 38: 72) or "...the spirit of Allah...(Shaad: 38: 72) proves that Allah exists in the human body in the form of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit...(Shaad : 38: 72), Allah's energy and Allah's particle.

This is the secret of Allah, which all people, including all Muslims living in the world, still do not understand.

So, actually, people in the world do not believe in Allah, because people do not understand Allah in the form of Allah's spirit, Allah's energy and Allah's particles, which are in every human body,
