## ABSTRACT

First, by asking forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT regarding the secret of proving, empirically, that Allah was the beginning, based on deoxyribonucleic acid (DNA).

Signs of the greatness of Allah SWT regarding proving, empirically, that Allah was the beginning, are found in the verses, namely:

*"Allah, there is no God but He Who lives eternally and continues to take care, who does not slumber or sleep. To Him belongs what is in the skys and on the earth. No one can intercede with Allah without His permission. Allah knows what is before them and behind them, and they know nothing from the knowledge of Allah except what He wills. Kursi of Allah encompasses the skys and the earth. And Allah does not find it difficult to maintain them, and Allah is Most High, Most Exalted Big (Al Baqarah: 2: 255)*

*"He is Allah, who created everything on earth for you and He willed the skys, then He made seven skys. And He is All-Knowing of everything. (Al Baqarah: 2: 29)*

*"He is the First and the Last, the Real and the Inner and He is All-Knowing of everything. (Al Hadiid: 57: 3)*

In an effort to reveal the greatness of Allah SWT, proving, empirically, that Allah was the beginning, the author uses deoxyribonucleic acid (DNA).

## HYPOTHESES

Here the author puts forward hypothesis of proving, empirically, that Allah was the beginning, based on deoxyribonucleic acid (DNA)?

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This

nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 nitrogen atom oxygen and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PROVING, EMPIRICALLY, THAT ALLAH WAS THE BEGINNING**

So now, we are still concentrating our minds on uncovering the secret contained behind the verse: *"He is the First...(Al Hadiid: 57: 3)*

Well, Allah declared: *"He is the First...(Al Hadiid: 57: 3)*

Now the question arises,

How can humans empirically prove *"He is the First...(Al Hadiid: 57: 3)*?

The answer is in the secret behind the verse: *"...To Him belongs what is in the skys and on the earth...The seat of Allah encompasses the skys and the earth. And Allah does not find it difficult to maintain them...(Al Baqarah: 2: 255)*

Well, it turns out, *"Allah is the First...(Al Hadiid: 57: 3)* is because"*...To Him belongs what is in the skys and on the earth...(Al Baqarah: 2: 255)*

Where *"...the skys and on the earth...(Al Baqarah: 2: 255)* are included in *"...seven skys...(Al Baqarah: 2: 29)*

Well, it turns out that Allah made *"...seven skys...(Al Baqarah: 2: 29)*, meaning that the seven skys describe a room, which is called the universe, above that room there are billions of galaxies, each galaxy consists of billions of -billions of stars, planets and moons.

Well, before Allah *"...made...seven skys...(Al Baqarah: 2: 29)*, Allah already existed.

Now, how can humans prove that Allah exists, before *"...seven skys...(Al Baqarah: 2: 29)* are formed?

Well, before it became *"...seven skys...(Al Baqarah: 2: 29)* as it is now, it started with something invisible, something that was the core of everything in this universe.

So now, what is something called the core of this universe?

The answer is

Quarks

So, these quarks are the origin of the formation of this universe. Where the contents of this universe are in the form of atoms. Hydrogen atoms, helium atoms, carbon atoms, oxygen atoms, nitrogen atoms, neon atoms.

Now, the question arises again, how are quarks formed?

The answer is

Energy

So, where does energy come from?

The answer is

Hidden behind the verse: *"...To Him belongs what is in the skys and on the earth...(Al Baqarah : 2: 255)*

This means, Allah's energy, where Allah creates energy.

Another question arises,

Is there something else, which generates energy other than Allah, at the same time, at the same time speed, with the same results in the form of quarks?

Well, the answer is,

If there is something else, apart from Allah, which generates the same energy, at the same time, with the same time speed, with the same results in the form of quarks, then that something else is Allah.

This, empirical evidence, *"Allah is the First...(Al Hadiid: 57: 3)*

Well, Allah with Allah's energy gave birth to quarks, quarks formed hydrogen atoms and other atoms, where these atoms built *"...seven skys...(Al Baqarah: 2: 29)*

So, the energy of Allah, which arises from Allah, within **0.0000000000 0000000000 0000000000 0000000000 001** seconds, creates quarks, which will become the nucleus of the hydrogen atom.

This means that 1 second is divided by the number of numbers **10000000000 0000000000 0000000000 0000000000 000** . The human mind cannot imagine how short time is, quarks are created through Allah's energy.

So now the secret behind the verse is revealed: *"He is the First...Al Hadiid: 57: 3)*

This means that Allah's energy is the beginning of the creation of this universe.

Or in other words, Allah's energy is the beginning of the creation of *"...seven skys...(Al Baqarah: 2: 29)*

So, Allah and Allah's energy cannot be separated. Talking Allah is speaking Allah's energy. Talking Allah's energy is talking Allah.

## CONCLUSION

From what is described above we can now draw the conclusion that the secret contained behind the verse: *"He is the First...(Al Hadiid: 57: 3)*

Well, Allah declared: *"He is the First...(Al Hadiid: 57: 3)*

Now the question arises,

How can humans empirically prove *"He is the First...(Al Hadiid: 57: 3)"*?

The answer is in the secret behind the verse: *"...To Him belongs what is in the skys and on the earth...The seat of Allah encompasses the skys and the earth. And Allah does not find it difficult to maintain them...(Al Baqarah: 2: 255)"*

Well, it turns out, *"Allah is the First...(Al Hadiid: 57: 3)"* is because *"...To Him belongs what is in the skys and on the earth...(Al Baqarah: 2: 255)"*

Where *"...the skys and on the earth...(Al Baqarah: 2: 255)"* are included in *"...seven skys...(Al Baqarah: 2: 29)"*

Well, it turns out that Allah made *"...seven skys...(Al Baqarah: 2: 29)"*, meaning that the seven skys describe a room, which is called the universe, above that room there are billions of galaxies, each galaxy consists of billions of -billions of stars, planets and moons.

Well, before Allah *"...made...seven skys...(Al Baqarah: 2: 29)"*, Allah already existed.

Now, how can humans prove that Allah exists, before *"...seven skys...(Al Baqarah: 2: 29)"* are formed?

Well, before it became *"...seven skys...(Al Baqarah: 2: 29)"* as it is now, it started with something invisible, something that was the core of everything in this universe.
