ABSTRACT

Before the author writes science cannot be separated from religion, religion cannot be separated from science, science and religion are united, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret that science cannot be separated from religion, religion cannot be separated from science, science and religion are united, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret that science cannot be separated from religion, religion cannot be separated from science, science and religion are united, namely the following verses:

*"And why don't they think about themselves? Allah did not make the skys and the earth and what is between them but with haq (right) and time process. And in fact most of mankind really deny meeting their God. (Ar Ruum: 30) :8)*

*"those who remember Allah while standing or sitting or lying down and they think about the creation of the skys and the earth: "O our God, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)*

*"And indeed We have created man from an essence from the soil (Al Mu'minuun: 23: 12)*

*"Then when I have perfected the body and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"Then He perfected the body and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"So Maryam made a veil from them; then We sent Our spirit to Maryam, so Our spirit incarnated before her a perfect human being. (Maryam: 19: 17)*

*"Angels and spirits ascend to God in a day which is fifty thousand years (Al Ma'aarij: 70:4)*

*"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)*

*"And they ask you about the spirit. Say: "The spirit is the interest of my God, and you are not given knowledge but a little." (Al Israa ': 17: 85)*

In an effort to uncover Allah's secret veil about science cannot be separated from religion, religion

cannot be separated from science, science and religion are united, the author uses deoxyribonucleic acid as a basis.

## **HYPOTHESIS**

Here the authors propose the hypothesis that science cannot be separated from religion, religion cannot be separated from science, science and religion are united, based on Deoxyribonucleic acid (DNA)

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## **QUARK**

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## **DEOXYRIBONUCLEATED ACID (DNA)**

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## **SCIENCE CANNOT BE SEPARATED FROM RELIGION, RELIGION CANNOT BE SEPARATED FROM SCIENCE, SCIENCE AND RELIGION ARE UNITED**

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"They remember Allah...think about the creation of the skys and the earth ...(Ali 'Imran: 3: 191)"... I...breathe into human my spirit...(Al Hijr : 15: 29)*

Well, it turns out, here Allah or Jahve or Adonai has refuted the opinion of most people in the world, that religion is not science, religion is mystical, religion cannot be proven empirically.

Well, here Allah or Jahve or Adonai has declared *"They remember Allah...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"... I...breathe into human my spirit...(Al Hijr : 15: 29)*

Apparently, between *"...remember Allah...(Ali 'Imran: 3: 191)* and *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* are united.

*"...remember Allah...(Ali 'Imran: 3: 191)* is that humans communicate between the human mind and Allah's mind, in the form of, praying and sholat.

Empirically, praying is when humans through the mind make contact with *"...my spirit...(Al Hjr: 15: 29)* or *"...Allah's spirit...(Al Hjr: 15: 29)* or Jahve's spirit or Adonai's spirit which is the reflection of Allah's mind in the human brain.

Or in other words, praying is, when the human mind makes contact with Allah's mind through *"...my spirit...(Al Hjr: 15: 29)* or *"...Allah's spirit...(Al Hjr: 15: 29)* or Jahve's spirit or Adonai's spirit that is in the human brain.

Likewise with sholat, when sholat, humans make contact through thoughts and body movements with Allah's mind through *"...my spirit...(Al Hjr: 15: 29)* or *"...Allah's spirit...(Al Hjr: 15: 29)* or Jahve's spirit or Adonai's spirit that is in the human brain.

Well, that's all empirical evidence, when humans pray and when humans sholat.

So, praying and sholat can be proven empirically. Or in other words, *"...remember Allah...(Ali 'Imran: 3: 191)* in the form of praying and sholat, can be proven empirically.

Well, because *"...remembering Allah...(Ali 'Imran: 3: 191)* in the form of praying and praying, can be proven empirically, then when humans *"...think about the creation of the heavens and the earth...(Ali 'Imran: 3: 191)* is also empirically proven.

That is, based on theory and based on empirical evidence, *"...remember Allah...(Ali 'Imran: 3: 191)* in the form of praying and sholat, can be included in science.

So, actually, in religion, everything, is science.

Therefore, there is no reason for humans to refuse, religion is science. Science cannot be separated from religion, religion cannot be separated from science, science and religion are united,

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: *"They remember Allah...think about the creation of the skys and the earth ...(Ali 'Imran: 3: 191)"... I...breathe into human my spirit...(Al Hjr : 15: 29)*

Well, it turns out, here Allah or Jahve or Adonai has refuted the opinion of most people in the world, that religion is not science, religion is mystical, religion cannot be proven empirically.

Well, here Allah or Jahve or Adonai has declared *"They remember Allah...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)"... I...breathe into human my spirit...(Al Hjr : 15: 29)*

Apparently, between *"...remember Allah...(Ali 'Imran: 3: 191)* and *"...think about the creation of the skys and the earth...(Ali 'Imran: 3: 191)* are united.

*"...remember Allah...(Ali 'Imran: 3: 191)* is that humans communicate between the human mind and Allah's mind, in the form of, praying and sholat.

Empirically, praying is when humans through the mind make contact with *"...my spirit...(Al Hizr: 15: 29) or "...Allah's spirit...(Al Hizr: 15: 29)* or Jahve's spirit or Adonai's spirit which is the reflection of Allah's mind in the human brain.

Or in other words, praying is, when the human mind makes contact with Allah's mind through *"...my spirit...(Al Hizr: 15: 29) or "...Allah's spirit...(Al Hizr: 15: 29)* or Jahve's spirit or Adonai's spirit that is in the human brain.

Likewise with sholat, when sholat, humans make contact through thoughts and body movements with Allah's mind through *"...my spirit...(Al Hizr: 15: 29) or "...Allah's spirit...(Al Hizr: 15: 29)* or Jahve's spirit or Adonai's spirit that is in the human brain.

Well, that's all empirical evidence, when humans pray and when humans sholat.

So, praying and sholat can be proven empirically. Or in other words, *"...remember Allah...(Ali 'Imran: 3: 191)* in the form of praying and sholat, can be proven empirically.

Well, because *"...remembering Allah...(Ali 'Imran: 3: 191)* in the form of praying and praying, can be proven empirically, then when humans *"...think about the creation of the heavens and the earth...(Ali 'Imran: 3: 191)* is also empirically proven.

That is, based on theory and based on empirical evidence, *"...remember Allah...(Ali 'Imran: 3: 191)* in the form of praying and sholat, can be included in science.

So, actually, in religion, everything, is science.

Therefore, there is no reason for humans to refuse, religion is science. Science cannot be separated from religion, religion cannot be separated from science, science and religion are united,
