## ABSTRACT

Before the author writes about Shafa and Marwah is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah, the author first asks Allah's forgiveness SWT. Here the author tries to open the veil that covers the secrets about Shafa and Marwah is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah, based on to deoxyribonucleic acid (DNA).

There are several verses that open Allah's secrets about Shafa and Marwah is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah, namely the following verses:

*"Then when I have completed the body and I have breathed on him mspirit, then you will fall down and prostrate to him." (Shaad: 38: 72)*

*"Indeed, Safa and Marwah are part of the syi'ar of Allah. So whoever performs hajj to the House of Allah or performs 'umrah, then there is no sin for him to do sa'i between the two. And whoever does a good deed with a willing heart, then indeed Allah is Grateful for goodness, All-Knowing (Al Baqarah: 2: 158)*

*"Allah has created the seven skys in layers. You never see anything in the creation of the Most Gracious God that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

*"And thus We showed Abraham the signs of majesty in the skys and the earth and so that he would be among those who believe. (Al An'aam: 6: 75)*

*"When the night was dark, he saw a star he said: "This is my God", but when the star was setting he said: "I do not like the sinking." (Al An'aam: 6: 76)*

*"Then when he saw the moon rising he said: "This is my God", but after the moon had set, he said: "Surely if my God had not guided me, I would surely have been one of those who went astray." (Al An'aam: 6: 77 )*

*"Then when he saw the sun rising, he said: "This is my God, this is greater." So when the sun was setting, he said: "O my people, indeed I am free from what you associate. (Al An'aam: 6: 78)*

*"When his God said to him: "Submit, obey!" Abraham replied: "I obey God of the Worlds." (Al Baqarah: 2: 131)*

In an effort to open the veil of Allah's secret about Shafa and Marwah is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah, the author uses Deoxyribonucleic acid (DNA).

## **HYPOTHESIS**

Here the author proposes the hypothesis that Shafa and Marwah is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah, based on Deoxyribonucleic acid (DNA).

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## **QUARK**

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## **DEOXYRIBONUCLEATED ACID (DNA)**

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **SHAFI AND MARWAH IS A SYMBOL OF SEEKING ALLAH, THROUGH ALLAH'S FORM, IN THE FORM OF THE SPIRIT OF ALLAH, WHICH IS BUILT WITH HYDROGEN ATOM, CARBON ATOM, NITROGEN ATOM AND OXYGEN ATOM, LIKE YOUTH IBRAHIM SEEK ALLAH**

Now, we are still concentrating on unraveling the secret behind the verse: *"...Safa and Marwah are part of the syi'ar of Allah. So whoever performs hajj to the House of Allah or performs 'umrah, then there is no sin for him to do sa'i between the two...(Al Baqarah : 2: 158)*

Well, here, Allah or Jahve or Adonai, has opened the secret about *"...Safa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158)* to all people in the world, including all Muslims in the world, that *"...Shafa and Marwah...(Al Baqarah: 2: 158)* is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah.

Now, the question arises,

Why *"...performs sa'i between Safa and Marwah...(Al Baqarah: 2: 158)* is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah?

The answer is in the secret behind the verses: *"...Ibrahim saw a star he said: "This is my God"...(Al An'aam: 6: 76) "...Ibrahim saw the moon rising he said: "This is my God"...(Al An'aam: 6: 77) "...Ibrahim saw the sun rising, he said: "This is my God"...(Al An'aam: 6: 78)*

Well, it turns out, Allah or Jahve or Adonai, has revealed the secret of how actually to understand the real Allah or the real Jahve or the real Adonai, is to seek Allah or Jahve or Adonai, as was done by youth Ibrahim.

When youth Ibrahim *"...saw a star...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun... (Al An'aam: 6: 78)* he thought *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is God.

Apparently, *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is not God.

Finally, youth Ibrahim understood that actually, *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is not God, but *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72 )* or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, it has been revealed, that *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is a symbol of seeking Allah, through Allah's form, in the form of Allah's spirit, which built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seeking Allah.

Then, why *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times?

The answer is in the secret behind the verse: *"Allah has created seven skys...that are...balanced (Al Mulk : 67: 3)*

So, *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times, referring to *"Allah has created seven skys...that are...balanced (Al Mulk : 67: 3)*

Well, when *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times, visible to human eyes, in front, like there is water, even though what looks like water is the spirit of Allah, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seeking Allah. Where, water is a combination of 1 oxygen atom and 2 hydrogen atoms.

Likewise, when youth Ibrahim saw *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is actually, *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is the spirit of Allah, made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, *"...I breathed into human mspirit...(Shaad : 38: 72)* where *"...my spirit...(Shaad : 38:*

72) or *"...the spirit of Allah... (Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, exists in the human body, animals, plants, fungi, bacteria, amoeba, sun, stars, moon and inanimate objects, such as stone, iron, steel.

This is the secret of Allah or Jahve or Adonai, which has not been understood by all people in the world, including all Muslims in the world.

## CONCLUSION

The conclusions that can be drawn from the explanation above are the secret behind the verse: *"...Safa and Marwah are part of the syi'ar of Allah. So whoever performs hajj to the House of Allah or performs 'umrah, then there is no sin for him to do sa'i between the two...(Al Baqarah : 2: 158)*

Well, here, Allah or Jahve or Adonai, has opened the secret about *"...Safa and Marwah are part of the syi'ar of Allah... (Al Baqarah: 2: 158)* to all people in the world, including all Muslims in the world, that *"...Shafa and Marwah...(Al Baqarah: 2: 158)* is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah.

Now, the question arises,

Why *"...performs sa'i between Safa and Marwah...(Al Baqarah: 2: 158)* is a symbols of seeking Allah, through Allah's form, in the form of the spirit of Allah, which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seek Allah?

The answer is in the secret behind the verses: *"...Ibrahim saw a star he said: "This is my God"...(Al An'aam: 6: 76)* *"...Ibrahim saw the moon rising he said: "This is my God"...(Al An'aam: 6: 77)* *"...Ibrahim saw the sun rising, he said: "This is my God"...(Al An'aam: 6: 78)*

Well, it turns out, Allah or Jahve or Adonai, has revealed the secret of how actually to understand the real Allah or the real Jahve or the real Adonai, is to seek Allah or Jahve or Adonai, as was done by youth Ibrahim.

When youth Ibrahim *"...saw a star...(Al An'aam: 6: 76)* *"...the moon...(Al An'aam: 6: 77)* and *"...the sun... (Al An'aam: 6: 78)* he thought *"...the stars...(Al An'aam: 6: 76)* *"...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is God.

Apparently, *"...the stars...(Al An'aam: 6: 76)* *"...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is not God.

Finally, youth Ibrahim understood that actually, *"...the stars...(Al An'aam: 6: 76)* *"...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is not God, but *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Now, it has been revealed, that *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is a symbol of seeking Allah, through Allah's form, in the form of Allah's spirit, which built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seeking Allah.

Then, why *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times?

The answer is in the secret behind the verse: *"Allah has created seven skys...that are...balanced (Al Mulk : 67: 3)*

So, *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times, referring to *"Allah has created seven skys...that are...balanced (Al Mulk : 67: 3)*

Well, when *"...performs sa'i (walking) between Safa and Marwah...(Al Baqarah: 2: 158)* is done 7 times, visible to human eyes, in front, like there is water, even though what looks like water is the spirit of Allah, which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, like youth Ibrahim seeking Allah. Where, water is a combination of 1 oxygen atom and 2 hydrogen atoms.

Likewise, when youth Ibrahim saw *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is actually, *"...the stars...(Al An'aam: 6: 76) "...the moon...(Al An'aam: 6: 77)* and *"...the sun...(Al An'aam: 6: 78)* is the spirit of Allah, made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Or in other words, *"...I breathed into human mspirit...(Shaad : 38: 72)* where *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah... (Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai which is built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, exists in the human body, animals, plants, fungi, bacteria, amoeba, sun, stars, moon and inanimate objects, such as stone, iron, steel.

This is the secret of Allah or Jahve or Adonai, which has not been understood by all people in the world, including all Muslims in the world.
