ABSTRACT

Before the author writes about some Muslims believe graves are covered with cement so that Allah's spirit does not leak out of the grave, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about some Muslims believe graves are covered with cement so that Allah's spirit does not leak out of the grave, based on deoxyribonucleic acid (DNA).

There are several verses that reveal the secrets of Allah about some Muslims believe graves are covered with cement so that Allah's spirit does not leak out of the grave, namely the verses:

"Allah holds the soul when a human dies and the soul that has not yet died while the human is sleeping, He holds the soul that He has ordained for human death and He releases the other soul until the appointed time. Verily in this there are signs of Allah's power for a people who think (Az Zumar : 39: 42)

"Angels and spirits ascend to God in a day worth fifty thousand years (Al Ma'aarij :70:4)

"So when I have perfected the events of Adam and breathed into Adam my spirit, then you should fall down and prostrate yourself to him (Shaad: 38: 72)

"He regulates interests from sky to earth, then ascends to Him in one day worth a thousand years according to your calculations (As Sajdah: 32:5)

In an effort to reveal the secret of Allah's secrets, some Muslims believe graves are covered with cement so that Allah's spirit does not leak out of the grave, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis some Muslims believe graves are covered with cement so that Allah's spirit does not leak out of the grave, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

SOME MUSLIMS BELIEVE GRAVES ARE COVERED WITH CEMENT SO THAT ALLAH'S SPIRIT DOESN'T LEAK OUT OF THE GRAVES

So now, we still continue to focus our minds on uncovering the secret stored in the verse: *"...I breathed into Adam my spirit...(Shaad: 38: 72)"Allah holds the soul when a human dies and the soul that has not yet died while the human is sleeping, He holds the soul that He has ordained for human death and He releases the other soul until the appointed time...(Al An'aam: 6: 9)*

Well, here Allah gives an explanation of what *"...soul...(Al An'aam: 6: 9)* and what *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad : 38: 72).*

Well, it turns out what Allah means *"...soul...(Al An'aam: 6: 9)* and what Allah means *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad : 38: 72).*

Well, because most Muslims think that the soul is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad : 38: 72)* which is not united with the human body, then *"...while human is sleeping...(Al An'aam: 6: 9)* comes out soul or *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad : 38: 72)* from the human body through the mouth.

Well here is the error of interpretation *He holds the soul that He has ordained for human death and He releases the other soul until the appointed time...(Al An'aam: 6: 9)*

In fact, what Allah means by *"...soul...(Al An'aam: 6: 9)* is *"...my spirit...(Shaad: 38: 72)* or *"...God's spirit... .(Shaad : 38: 72)*

This means, *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is the source of life for humans and is the building block of Deoxyribonucleic acid (DNA) where humans based on DNA consist of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Well, this is something that most Muslims still don't understand, which is why the belief arises that *"...soul...(Al An'aam: 6: 9)* of humans comes out of the human body, when humans are sleeping.

So now, when *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is in the human body, knows that the condition of the human body has is no longer able to maintain his life,

and Allah knows that humans have reached the final limit, so through *"...my spirit...(Shaad: 38: 72) or "...the spirit of Allah...(Shaad: 38: 72)* stops the oxygen atom which is the source of human life. In just a few seconds, without oxygen atoms as a source of human life, body functions can no longer function, ultimately the entire body is paralyzed and dies.

Well, because the oxygen atom is one of the atoms that builds *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72)*, then by stopping the oxygen atom means *"...He holds the soul that He has ordained for human death...(Al An'aam: 6: 9)*

Within a period of between 2 to 30 from the time a human is buried, *"...my spirit...(Shaad: 38: 72) or "...the spirit of Allah...(Shaad: 38: 72)* comes out of a dead human body.

Well, because most Muslims think *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* will not come out of a dead human body, if Above the grave is covered with stones, sand and cement.

Well actually, even though the grave is covered with stones, sand and cement, *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* is built with Hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, will come out too.

What remains in the grave are only bones, where in the bones there is *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* in the form Mitochondrial deoxyribonucleic acid (DNA), which is built with 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

CONCLUSION

Based on the description above, we can conclude that secret the secret stored in the verse: *"...I breathed into Adam my spirit...(Shaad: 38: 72)"Allah holds the soul when a human dies and the soul that has not yet died while the human is sleeping, He holds the soul that He has ordained for human death and He releases the other soul until the appointed time...(Al An'aam: 6: 9)*

Well, here Allah gives an explanation of what *"...soul...(Al An'aam: 6: 9)* and what *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad : 38: 72).*

Well, it turns out what Allah means *"...soul...(Al An'aam: 6: 9)* and what Allah means *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad : 38: 72).*

Well, because most Muslims think that the soul is *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad : 38: 72)* which is not united with the human body, then *"...while human is sleeping...(Al An'aam: 6: 9)* comes out soul or *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit ...(Shaad : 38: 72)* from the human body through the mouth.

Well here is the error of interpretation *He holds the soul that He has ordained for human death and He releases the other soul until the appointed time...(Al An'aam: 6: 9)*

In fact, what Allah means by *"...soul...(Al An'aam: 6: 9)* is *"...my spirit...(Shaad: 38: 72) or "...God's spirit... .(Shaad : 38: 72)*

This means, *"...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad : 38: 72)* is the source of life for humans and is the building block of Deoxyribonucleic acid (DNA) where humans based on DNA consist of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.

Well, this is something that most Muslims still don't understand, which is why the belief arises that *"...soul...(Al An'aam: 6: 9)* of humans comes out of the human body, when humans are sleeping.

So now, when *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is in the human body, knows that the condition of the human body has is no longer able to maintain his life, and Allah knows that humans have reached the final limit, so through *"...my spirit...(Shaad: 38: 72)* or *"...the spirit of Allah...(Shaad: 38: 72)* stops the oxygen atom which is the source of human life. In just a few seconds, without oxygen atoms as a source of human life, body functions can no longer function, ultimately the entire body is paralyzed and dies.

Well, because the oxygen atom is one of the atoms that builds *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)*, then by stopping the oxygen atom means *"...He holds the soul that He has ordained for human death...(Al An'aam: 6: 9)*

Within a period of between 2 to 30 from the time a human is buried, *"...my spirit...(Shaad: 38: 72)* or *"...the spirit of Allah...(Shaad: 38: 72)* comes out of a dead human body.

Well, because most Muslims think *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* will not come out of a dead human body, if Above the grave is covered with stones, sand and cement.

Well actually, even though the grave is covered with stones, sand and cement, *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is built with Hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms, will come out too.

What remains in the grave are only bones, where in the bones there is *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* in the form Mitochondrial deoxyribonucleic acid (DNA), which is built with 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms.
