ABSTRACT

Before the author writes about the creation of Adam, the process of human survival, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secrets of the creation of Adam, the process of human survival, based on Deoxyribonucleic acid (DNA)

There are several verses that are tools to reveal Allah's secrets regarding the creation of Adam, the process of human survival, namely the following verses:

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"So Maryam created a veil from them, then We sent Our spirit to Maryam, then Our spirit incarnated before her as a perfect human. (Maryam: 19: 17)

"Who has created the seven skies in layers. You do not see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)

In an effort to uncover Allah's secret regarding the creation of Adam, the process of human survival, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis of the creation of Adam, the process of human survival, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where Carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

THE CREATION OF ADAM, THE PROCESS OF HUMAN SURVIVAL

So now, we still continue to focus our minds on uncovering the secrets contained behind the verses: *"...I breathed into Adam my spirit...(Shaad : 38: 72)"...seven skys...balanced (Al Mulk : 67: 3)"...Our spirit incarnated...a perfect human (Maryam: 19: 17)*

Well, now, the question arises,

What does Allah actually mean by *"...I breathed into Adam my spirit...(Shaad : 38: 72) ?*

Well, the answer is behind the verse *"...Our spirit incarnated...a perfect human (Maryam: 19: 17)*

Well, it turns out, *"...Adam...(Shaad: 38: 72)* is the incarnation of *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad :38:72)*

Another question arises,

Is the creation of *"...Adam...(Shaad: 38: 72)* a process of human survival?

The answer is behind the verse: *"...seven skys...balanced (Al Mulk : 67: 3)*

Well, on the basis of the law *"...seven skys...balanced (Al Mulk : 67: 3)*, Allah created *"...Adam...(Shaad: 38: 72)* through *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad :38:72)*

It means, *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad :38:72)* which is built with hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, became a building *"...seven skys...balanced (Al Mulk : 67: 3)*

Or in other words, whatever is in *"...seven skys...(Al Mulk : 67: 3)* was built with *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad :38:72)*

Or it could also be said, *"...Adam...(Shaad: 38: 72)* who was created by Allah with *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit...(Shaad :38:72)*, which is the building block of Deoxyribonucleic acid (DNA), where human DNA consists of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms, is a process of human survival.

Or it could also be said, Deoxyribonucleic acid (DNA) is not only the building block of the human body, but DNA is also the building block of the bodies of animals, plants, fungi, bacteria, amoeba, archaea and viruses.

So, in fact, the creation of *"...Adam...(Shaad: 38: 72)* is a process of survival, starting from animals, plants, fungi, bacteria, amoeba and viruses.

Or in other words, "...Adam...(Shaad : 38: 72) has a family relationship with animals, plants, fungi, bacteria, amoebas and viruses based on Deoxyribonucleic acid (DNA)

Or it could also be explained, "...Adam...(Shaad: 38: 72) has a family relationship with animals, plants, fungi, bacteria, amoebas and viruses based on carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Well, this is Allah's secret, which is still not understood by almost all humans, including all Muslims in the world.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "...I breathed into Adam my spirit...(Shaad : 38: 72)" "...seven skys...balanced (Al Mulk : 67: 3)" "...Our spirit incarnated...a perfect human (Maryam: 19: 17)

Well, now, the question arises,

What does Allah actually mean by "...I breathed into Adam my spirit...(Shaad : 38: 72) ?

Well, the answer is behind the verse "...Our spirit incarnated...a perfect human (Maryam: 19: 17)

Well, it turns out, "...Adam...(Shaad: 38: 72) is the incarnation of "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad :38:72)

Another question arises,

Is the creation of "...Adam...(Shaad: 38: 72) a process of human survival?

The answer is behind the verse: "...seven skys...balanced (Al Mulk : 67: 3)

Well, on the basis of the law "...seven skys...balanced (Al Mulk : 67: 3), Allah created "...Adam...(Shaad: 38: 72) through "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad :38:72)

It means, "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad :38:72) which is built with hydrogen atoms, nitrogen atoms, carbon atoms and oxygen atoms, became a building "...seven skys...balanced (Al Mulk : 67: 3)

Or in other words, whatever is in "...seven skys...(Al Mulk : 67: 3) was built with "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad :38:72)

Or it could also be said, "...Adam...(Shaad: 38: 72) who was created by Allah with "...my spirit...(Shaad: 38: 72) or "...Allah's spirit...(Shaad :38:72), which is the building block of Deoxyribonucleic acid (DNA), where human DNA consists of carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms, is a process of human survival.

Or it could also be said, Deoxyribonucleic acid (DNA) is not only the building block of the human body, but DNA is also the building block of the bodies of animals, plants, fungi, bacteria, amoeba, archaea and viruses.

So, in fact, the creation of "...Adam...(Shaad: 38: 72) is a process of survival, starting from animals, plants, fungi, bacteria, amoeba and viruses.

Or in other words, "...*Adam...*(*Shaad : 38: 72*) has a family relationship with animals, plants, fungi, bacteria, amoebas and viruses based on Deoxyribonucleic acid (DNA)

Or it could also be explained, "...*Adam...*(*Shaad: 38: 72*) has a family relationship with animals, plants, fungi, bacteria, amoebas and viruses based on carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms.

Well, this is Allah's secret, which is still not understood by almost all humans, including all Muslims in the world.
