## ABSTRACT

Before the author writes about the Israelites did not exist, there were Jews from the haplogroup J, which gave birth to J1 and J2, who were the ancestors of the Jews, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret about the Israelites did not exist, there were Jews from the haplogroup J, which gave birth to J1 and J2, who were the ancestors of the Jews, based on the molecular structure of nucleic acids.

There are several verses that reveal Allah's secret about the Israelites did not exist, there were Jews from the haplogroup J, which gave birth to J1 and J2, who were the ancestors of the Jews, namely the verses:

*"Indeed, We have given revelations to you as We have given revelations to Noah and the subsequent prophets, and We have given revelations to Abraham, Isma'il, Isaac, Jacob and his descendants, Isa, Ayyub, Yunus, Harun and Solomon. And We gave Zabur to David. (An Nisaa' : 4: 163)*

*"And We took the Children of Israel across the sea, so when they came to a people who continued to worship their idols, the Children of Israel said: "O Musa. create for us a god as they have several gods." Musa answered: "Indeed you are a people who do not know." (Al A'raaf: 7: 138)*

*"...there was no answer from the Abrahamic people, other than saying: "Kill or burn Ibrahim"... (Al 'Ankabut : 29: 24)*

*"...we inspired Moses' mother; "Nurse him, and if you are worried about him then throw him into the river (Nile)...(Al Qashash: 28: 7)*

In an effort to lift the veil on Allah's secret about the Israelites did not exist, there were Jews from the haplogroup J, which gave birth to J1 and J2, who were the ancestors of the Jews, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESES

Here the author puts forward hypothesis the Israelites did not exist, there were Jews from the haplogroup J, which gave birth to J1 and J2, who were the ancestors of the Jews, based on Deoxyribonucleic acid (DNA)

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information that has a double structure forms a double helix and contains structured polynucleotide macromolecules repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **THE ISRAELITES DID NOT EXIST, THERE WERE THE JEWS FROM THE HAPLOGROUP J, WHICH GAVE BIRTH TO J1 AND J2, WHO WERE THE ANCESTORS OF THE JEWS**

So now, we are still concentrating our minds on uncovering the secret hidden behind the verse: *"...We took the Children of Israel across the sea...(Al A'raaf: 7: 138)"...Jacob and his descendants...(An Nisaa' : 4: 163)*

It turns out that Allah has declared *"...We took the Children of Israel across the sea...(Al A'raaf: 7: 138)"...Jacob and his descendants...(An Nisaa' : 4: 163)*

Well, it turns out, *"...Jacob and his descendants...(An Nisaa' : 4: 163)* were Jews.

Meanwhile, the name *"...the Children of Israel...(Al A'raaf: 7: 138)* is a symbol that refers to *"...Jacob and his descendants...(An Nisaa' : 4: 163)*, whose ancestors were Jews of haplogroup J, which gave birth to J1 and J2.

Well, it turns out, if we look at the DNA of *"...Jacob and his descendants...(An Nisaa' : 4: 163)* which were passed down by Prophet Idris, Prophet Nuh and Prophet Ibrahim, it was found *"...Jacob and his descendants...(An Nisaa' : 4: 163)* from the Prophet Ibrahim who came from Ur, in Iraq *"...there was no answer from the Abrahamic people, other than saying: "Kill or burn Ibrahim"...(Al 'Ankabuut : 29: 24)*

Where this incident happened, around 1500 BC, when Ibrahim was still young, he was about to be burned in a place called Ur which is located in the southern Iraqi province of Dhi Qar, 17 km from the provincial capital of Nasiriyah. This is one of the ancient cities of Sumer.

So now, if we look at the DNA *"...Jacob and his descendants...(An Nisaa' : 4: 163)* which was passed down by the Prophet Musa *"...we inspired Moses' mother; "...we inspired Moses' mother; "Nurse him, and if you are worried about him then throw him into the river (Nile)..."(Al Qashash: 28: 7)*, then this incident occurred when the Prophet Moses was still a baby, in Egypt, around 656 BC.

Now, the question arises, when was the YDNA of Jews discovered, called YDNA J1 and J2, why did Jews live in Iraq and Egypt?

Well, the answer is Jewish ancestors who came from haplogroup J

Haplogroup J gave rise to J1 and J2, which are the ancestors of the Jews (**Familytreedna**).

Haplogroup J was formed 25,000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (**Familytreedna**)

Jews, haplogroup J, from the border between Saudi Arabia and Jordan entered Egypt and Iraq.

So now it is clear, why did Prophet Abraham come from Ur, in Iraq and Prophet Moses came from Egypt?

Because the ancestors of these Jews who came from the border between Saudi Arabia and Jordan immigrated to Egypt and Iraq, around 2000-1500 BC.

So, in fact, there are no Israelis, there are Jews from Haplogroup J who gave birth to J1 and J2.

The call Israelites or children of Israel is a symbol that refers to *"...Jacob and his descendants...(An Nisaa' : 4: 163)*, whose ancestors were Jews from haplogroup J, who gave birth to J1 and J2.

Well, now, if the Jews in Palestine, considering themselves to be Israelis is completely wrong, because they do not understand that the ancestors of these Jews who came from the border between Saudi Arabia and Jordan immigrated to Egypt and Iraq, around the year 2000-1500 BC, from haplogroup J, which gave birth to J1 and J2.

## CONCLUSION

Based on the description above we can conclude that the secret hidden behind the verse: *"...We took the Children of Israel across the sea...(Al A'raaf: 7: 138)"...Jacob and his descendants...(An Nisaa' : 4: 163)*

It turns out that Allah has declared *"...We took the Children of Israel across the sea...(Al A'raaf: 7: 138)"...Jacob and his descendants...(An Nisaa' : 4: 163)*

Well, it turns out, *"...Jacob and his descendants...(An Nisaa' : 4: 163)* were Jews.

Meanwhile, the name *"...the Children of Israel...(Al A'raaf: 7: 138)* is a symbol that refers to *"...Jacob and his descendants...(An Nisaa' : 4: 163)*, whose ancestors were Jews of haplogroup J, which gave birth to J1 and J2.

Well, it turns out, if we look at the DNA of *"...Jacob and his descendants...(An Nisaa' : 4: 163)* which were passed down by Prophet Idris, Prophet Nuh and Prophet Ibrahim, it was found *"...Jacob and his descendants...(An Nisaa' : 4: 163)* from the Prophet Ibrahim who came from Ur, in Iraq *"...there was no answer from the Abrahamic people, other than saying: "Kill or burn Ibrahim"...(Al 'Ankabuut : 29: 24)*

Where this incident happened, around 1500 BC, when Ibrahim was still young, he was about to be burned in a place called Ur which is located in the southern Iraqi province of Dhi Qar, 17 km from the provincial capital of Nasiriyah. This is one of the ancient cities of Sumer.

So now, if we look at the DNA *"...Jacob and his descendants...(An Nisaa' : 4: 163)* which was passed down by the Prophet Musa *"...we inspired Moses' mother; "...we inspired Moses' mother; "Nurse him, and if you are worried about him then throw him into the river (Nile)...(Al Qashash: 28: 7)*, then this incident occurred when the Prophet Moses was still a baby, in Egypt, around 656 BC.

Now, the question arises, when was the YDNA of Jews discovered, called YDNA J1 and J2, why did Jews live in Iraq and Egypt?

Well, the answer is Jewish ancestors who came from haplogroup J

Haplogroup J gave rise to J1 and J2, which are the ancestors of the Jews (**Familytreedna**).

Haplogroup J was formed 25,000 years ago, in the border area between Saudi Arabia, Jordan and Egypt. (**Familytreedna**)

Jews, haplogroup J, from the border between Saudi Arabia and Jordan entered Egypt and Iraq.

So now it is clear, why did Prophet Abraham come from Ur, in Iraq and Prophet Moses came from Egypt?

Because the ancestors of these Jews who came from the border between Saudi Arabia and Jordan immigrated to Egypt and Iraq, around 2000-1500 BC.

So, in fact, there are no Israelis, there are Jews from Haplogroup J who gave birth to J1 and J2.
