ABSTRACT

Before the author writes about the Jews carry the Torah scrolls, a symbol of the Jews who do not understand the real Jahve, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil covering the secret about the Jews carry the Torah scrolls, a symbol of the Jews who do not understand the real Jahve, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about the Jews carry the Torah scrolls, a symbol of the Jews who do not understand the real Jahve, namely the following verses:

"And indeed We have created human from the essence of soil (Al Mu'minuun: 23: 12)

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"So when I have perfected the body of Adam, and have breathed into Adam My spirit, then you will bow to Adam by prostrating (Al Hija: 15: 29)

"Then He perfected and breathed into Adam His spirit and He made for you hearing, sight and heart, you're a handful, be thankful. (As Sajdah : 32: 9)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah: 2: 115)

In an effort to uncover Allah's secret about the Jews carry the Torah scrolls, a symbol of the Jews who do not understand the real Jahve, the author uses deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis the Jews carry the Torah scrolls, a symbol of the Jews who do not understand the real Jahve, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

THE JEWS CARRY THE TORAH SCROLL, A SYMBOL OF THE JEWS WHO DO NOT UNDERSTAND THE REAL JAHVE

So now, we are still concentrating our minds on uncovering the secret contained behind the verses: *"...We have created human from the essence of soil (Al Mu'minuun: 23: 12)"... I breathed into Adam my spirit ...(Shaad : 38: 72)*

Here, Allah has declared *"...We have created human from the essence of soil (Al Mu'minuun: 23: 12)*

It turns out that the Jews believe that Jahve *"... created Adam from the essence of soil (Al Mu'minuun: 23: 12)* and Jahve breathed into Adam's nostrils so that Adam would live.

So now the question arises,

What do the Jews actually believe that Jahve breathed into Adam's nostrils?

Well, it turns out that Jahve breathed into Adam's nostrils, meaning, Jahve breathed oxygen atoms into Adam's lungs.

So, do the Jews understand that the oxygen atoms were breathed by Jahve into Adam's lungs through Adam's nostrils?

The answer is, if the Jews understood that the oxygen atoms that Jahve breathed into Adam's nostrils, then Adam would live, then if Adam's heart and all of his body organs no longer functioned, Adam would die.

So, the question now is,

What will happen to Adam after Adam dies according to the Jews?

Well, the answer is, Jews only believe in life here and now.

This means that after Adam died, Adam's life story ended.

So actually, because the Jews did not believe in the existence of life in the afterlife, when Jahve breathed into Adam's nostrils, it was so that Adam would live in this world only.

If Adam dies, because his heart and all his organs no longer function, then Adam's life will end there.

Then, another question arises,

Do the Jews believe that after Adam dies, Adam will incarnate into other humans and become plants and animals?

The answer is, because Jews only believe in life here and now, then when Adam dies, everything related to Adam is gone.

Well, this is where most Jews think wrongly.

In fact, because the human body is built from 7 000000000 000000000 000000000 atoms, including hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, when a human dies, these atoms come back out of the deceased human's body. Oxygen atoms are inhaled by humans and animals. Carbon atoms are absorbed by plants. Nitrogen atoms enter the soil and rise into the atmosphere. Hydrogen atoms combine with oxygen atoms to form water.

So, in fact, if Jews believe in life, only life here and now, then that belief is a very wrong belief.

It is proven by the atoms that came out of Adam's body when he died, these atoms still continue to live in another form.

Well, actually, if the Jews understood, that what Jahve breathed into Adam's nostrils was Jahve's spirit or "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit...(Shaad : 38: 72)* or "*...His spirit...(As Sajdah : 32: 9)*, which contains hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, where, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, as a source of life for humans and for anyone and anything in all the seven skys.

So, in fact, the Jews only carried Torah scrolls, without understanding the real Jahve.

The Jews, only to the degree, Jahve is holy. Human should not study Jahve. Human must not pollute the holy Jahve. Human cannot say the word Jahve, but must pronounce it as Adonaj. Human hands cannot touch the writings in the holy books, but must use a pointing stick.

Well, that's Jahve according to Jewish belief.

What is proof is that the Torah scroll was only carried around.

CONCLUSION

Based on the description above we can conclude that the secret contained behind the verses: "*...We have created human from the essence of soil (Al Mu'minuun: 23: 12)*"... *I breathed into Adam my spirit ... (Shaad : 38: 72)*
