ABSTRACT

First, by asking for forgiveness from Allah SWT, here the author tries to reveal the signs of Allah SWT's greatness regarding the secret of the nervous system of Allah's spirit, 603.85 grams, which comes out of the dead human body, very simple, used for communication and body control, based on deoxyribonucleic acid (DNA)

Signs of the greatness of Allah SWT concerning the nervous system of Allah's spirit, 603.85 grams, which comes out of the dead human body, very simple, used for communication and body control, in several verses, namely:

"And give glad tidings to those who believe and do good, that for them are gardens with rivers flowing in them. Every time they are given sustenance of fruit in those paradise, they say: "This is what was ever given to us first." They were given similar fruits and for them in them are holy wives and they will abide in them forever. (Al Baqarah: 2: 25)

"So when I have perfected what happened, and have breathed into him My spirit, then submit to him with prostration (Al Hijr: 15: 29)

"Allah promises the believers, men and women, gardens beneath which rivers flow, eternally in them, there are good places in paradise 'Adn. And the pleasure of Allah is greater; it is a great fortune. (At Tawba: 9: 72)

"Allah said: " Enter all of you into hell with the jinn and humans who have been before you. Every time a parishioner enters, he curses his comrades; so that when they all entered, those who entered later among them said to those who entered earlier: "O our God, they have led us astray, therefore bring upon them multiplied torments from hell." Allah said: "Each one gets multiplied, but you do not know." (Al A'raaf: 7: 38)

"Angels and spirits ascend to God in a day that is worth fifty thousand years Al Ma'aarij (70: 4)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)

"So when I have perfected what happened and I have breathed on him My spirit; then you should fall down and prostrate to him." (Shaad: 38: 72)

"So actually they actually eat some of the fruit of the tree, so they fill their stomachs with the fruit of the zaqqum (Ash Shaaffaat: 37: 66)

"Indeed zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)

"Then after eating the fruit of the zaqqum tree, they will surely get a drink mixed with very hot water (Ash Shaaffaat: 37: 67)

In an effort to uncover the greatness of Allah SWT regarding the nervous system of Allah's spirit, 603.85 grams, which comes out of the dead human body, very simple, used for communication and body control, the author uses deoxyribonucleic acid (DNA) as the basis.

HYPOTHESES

Here the author proposes a hypothesis that the nervous system of Allah's spirit, 603.85 grams, which comes out of the dead human body, very simple, used for communication and body control, in heaven and in hell it doesn't require much thought, based on deoxyribonucleic acid (DNA)?

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure form a double helix and which contain polynucleotide macromolecules arranged together repeatedly from the nucleotide polymer. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 atom oxygen and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE NERVOUS SYSTEM OF ALLAH'S SPIRIT, 603.85 GRAMS, WHICH COMES OUT OF THE DEAD HUMAN BODY, VERY SIMPLE, USED FOR COMMUNICATION AND BODY CONTROL

Now, we are still concentrating on uncovering the secret hidden behind the verse: *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 25)" Allah said: "Enter all of you into hell...(Al A'raaf: 7: 38)"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64) "...they...eat...the fruit of the zaqqum tree...(Ash Shaaffaat: 37: 66)*

Well, in Allah's declaration about paradise *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 25)* and about hell *"Enter all of you into hell...(Al A'raaf: 7: 38)"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)*

Apparently, Allah's declaration about *"...paradise...(Al Baqarah: 2: 25)* and *"...zaqqum, a tree that comes out of the bottom of hell...(Ash Shaaffaat: 37: 64)* is a place stay *"...my spirit...(Al Hijr : 15: 29)* or *"...Allah's spirit...(Al Hijr : 15: 29)* which weighs 603.85 grams.

Now the question arises,

What exactly is the nervous system of Allah's spirit, which is 603.85 grams, that comes out of the body of a deceased human?

The answer is in the secret behind the verse: *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 2: 25)* *"...they...eat...the fruit of the zaqqum tree...(Ash Shaaffaat: 37: 66)"* *"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)*

That is, in paradise and in hell, *"...my spirit...(Al Hijr : 15: 29)* or *"...Allah's spirit...(Al Hijr : 15: 29)* which weighs 603.85 gram, do not need to use mind so much, only need to communicate and control of body.

Therefore, the nervous system of Allah's spirit, which is 603.85 grams, which comes out of the body of a deceased human being is very simple.

Another question arises,

What does Allah mean by *"... They are given fruits... (Al Baqarah: 2: 2: 25)..." (Al Baqarah: 2: 25) ?*

Well, the answer is, this refers to when a hydrogen atom or a carbon atom or a nitrogen atom or an oxygen atom, comes out of the molecular nervous system of Allah' spirit, due to external energy pressure, there needs to be a replacement for the atom that comes out.

Well, the replacement atom that comes out and disappears is replaced by an atom which is symbolized by *"... fruits... (Al Baqarah: 2: 25)*

That is, if the hydrogen atoms and carbon atoms comes out of the molecular nervous system of Allah' spirit, due to external energy pressure, then they are replaced with hydrogen atoms and carbon atoms which are symbolized as *"...fruits... (Al Baqarah: 2: 25)*

Likewise with the spirit of Allah which is 603.85 grams, which lives in *"...hell...(Ash Shaaffaat: 37: 64)*, when the hydrogen atom is taken by *"...hell...(Ash Shaaffaat: 37: 64)* to be used as fuel of *"... hell... (Ash Shaaffaat: 37: 64)*, then the spirit of Allah, which is 603.85 grams, gets a hydrogen atom instead of *"... zaqqum fruit... (Ash Shaaffaat: 37: 66)*, where *"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)*

Here, *"...zaqqum fruit...(Ash Shaaffaat: 37: 66)* is a symbol of hydrogen atoms, carbon atoms and oxygen atoms.

So, in fact, *"...the tree of zaqqum comes out from the bottom of hell...(Ash Shaaffaat: 37: 64)* and *"...zaqqum fruit...(Ash Shaaffaat: 37: 66)* is a symbol of the hydrogen atom, carbon atoms and oxygen atoms, of which the hydrogen atoms are needed by hell, as hell's fuel.

This, Allah's secret that is not understood by almost all people in the world.

CONCLUSION

From what has been described above we can now conclude that the secret hidden behind the verse: *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 25)"Allah said: "Enter all of you into hell...(Al A'raaf: 7: 38)"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64) "...they...eat...the fruit of the zaqqum tree...(Ash Shaaffaat: 37: 66)*

Well, in Allah's declaration about paradise *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 25)* and about hell *"Enter all of you into hell...(Al A'raaf: 7: 38)"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)*

Apparently, Allah's declaration about *"...paradise...(Al Baqarah: 2: 25)* and *"...zaqqum, a tree that comes out of the bottom of hell...(Ash Shaaffaat: 37: 64)* is a place stay *"...my spirit...(Al Hjr : 15: 29)* or *"...Allah's spirit...(Al Hjr : 15: 29)* which weighs 603.85 grams.

Now the question arises,

What exactly is the nervous system of Allah's spirit, which is 603.85 grams, that comes out of the body of a deceased human?

The answer is in the secret behind the verse: *"... for them are provided paradise with rivers flowing in them... They are given fruits... (Al Baqarah: 2: 25) "...they...eat...the fruit of the zaqqum tree...(Ash Shaaffaat: 37: 66)"...zaqqum is a tree that comes out from the bottom of a burning hell (Ash Shaaffaat: 37: 64)*

That is, in paradise and in hell, *"...my spirit...(Al Hjr : 15: 29)* or *"...Allah's spirit...(Al Hjr : 15: 29)* which weighs 603.85 gram, do not need to use mind so much, only need to communicate and control of body.

Therefore, the nervous system of Allah's spirit, which is 603.85 grams, which comes out of the body of a deceased human being is very simple.

Another question arises,

What does Allah mean by *"... They are given fruits... (Al Baqarah: 2: 25)..." (Al Baqarah: 2: 25) ?*

Well, the answer is, this refers to when a hydrogen atom or a carbon atom or a nitrogen atom or an oxygen atom, comes out of the molecular nervous system of Allah' spirit, due to external energy pressure, there needs to be a replacement for the atom that comes out.

Well, the replacement atom that comes out and disappears is replaced by an atom which is symbolized by *"... fruits... (Al Baqarah: 2: 25)*

That is, if the hydrogen atoms and carbon atoms comes out of the molecular nervous system of Allah' spirit, due to external energy pressure, then they are replaced with hydrogen atoms and carbon atoms which are symbolized as *"...fruits... (Al Baqarah: 2: 25)*

Likewise with the spirit of Allah which is 603.85 grams, which lives in *"...hell...(Ash Shaaffaat: 37: 64)*, when the hydrogen atom is taken by *"...hell...(Ash Shaaffaat: 37: 64)* to be used as fuel of *"... hell... (Ash Shaaffaat: 37: 64)*, then the spirit of Allah, which is 603.85 grams, gets a hydrogen atom instead of *"... zaqqum fruit... (Ash Shaaffaat: 37: 66)*, where *"...zaqqum is a tree that comes out from the*

bottom of a burning hell (Ash Shaaffaat: 37: 64)

Here, "...zaqqum fruit...(Ash Shaaffaat: 37: 66) is a symbol of hydrogen atoms, carbon atoms and oxygen atoms.

So, in fact, "...the tree of zaqqum comes out from the bottom of hell...(Ash Shaaffaat: 37: 64) and "...zaqqum fruit...(Ash Shaaffaat: 37: 66) is a symbol of the hydrogen atom, carbon atoms and oxygen atoms, of which the hydrogen atoms are needed by hell, as hell's fuel.

This, Allah's secret that is not understood by almost all people in the world.
