ABSTRACT

First, by asking forgiveness from Allah SWT, here the author tries to reveal the signs of the greatness of Allah SWT regarding the theory of Allah, the light above the light, the light of the male type and the light the female type, based on deoxyribonucleic acid (DNA).

The signs of the greatness of Allah SWT regarding the theory of Allah, the light above the light, the light of the male type and the light the female type, is found in several verses, namely:

"Allah the light of the skys and the earth... the light above the light of Allah guides to His light... (An Nuur : 24: 35)

"And when Moses came at the time We had appointed and God had spoken to him, Moses said: O my God, show me so that I can see You." God said: "You may not be able to see Me, but look at the mountain, so if it stays where it is you will be able to see Me." When his God appeared to the mountain, the mountain was crushed to pieces and Moses fell unconscious. So after Musa regained consciousness, he said: "Glory to You, I repent to You and I am the first person to believe." (Al A'raaf : 7: 143)

"Angels and spirits ascend to God in a day whose measure is fifty thousand years Al Ma'aarij (70: 4)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"Then He perfected and breathed into him His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

In an effort to uncover the greatness of Allah SWT regarding the theory of Allah, the light above the light, the light of the male type and the light the female type, deoxyribonucleic acid (DNA).

HYPOTHESES

Here the author proposes the hypothesis the theory of Allah, the light above the light, the light of the male type and the light the female type, based on deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the

building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure form a double helix and which contain polynucleotide macromolecules arranged together repeatedly from the nucleotide polymer. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. Nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Human deoxyribonucleic acid (DNA) is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere. These atoms are the raw material for the manufacture of humans, animals, fungi, amoebas, plants, bacteria and archaea.

THE THEORY OF ALLAH, THE LIGHT ABOVE THE LIGHT, THE LIGHT OF THE MALE TYPE AND THE LIGHT OF THE FEMALE TYPE

Now, we are still concentrating on uncovering the secret behind the verses: *"... You never see in the creation of the Most Gracious God something that is not balanced... (Al Mulk: 67: 3)" Allah the light skys and earth...the light above the light...(An Nuur : 24: 35)*

Apparently, here Allah or Jahve or Adonai has declared Allah's theory or Jahve's theory or Adonai's theory, about *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...God's creation.. ..which is...balanced...(Al Mulk: 67: 3)*

So, let's prove Allah's theory or Jahve's theory or Adonai's theory, about *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...God's creation.. ..which is...balanced...(Al Mulk: 67: 3)* empirically.

Is it true, *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...balanced...(Al Mulk: 67: 3)?*

The answer is in the secret behind the verse: *"...Allah...breathes into human Allah's spirit...(As Sajdah : 32: 9)*

Well, *"...Allah's spirit...(As Sajdah: 32: 9)* which is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which gives rise to *"....the light above the light...(An Nuur : 24: 35).*

It means, *"....the light above the light...(An Nuur : 24: 35)* that comes out of the sun is the light that arises because two hydrogen atoms collide in the sun. As a result, two hydrogen atoms collide, energy is released which causes light, called sunlight, where two hydrogen atoms collide to form helium atoms.

The energy in the form of light is carried by photons throughout the sky, down to the earth, where humans live.

Well, the light that is carried by this photon, which is called "*....the light above the light...(An Nuur : 24: 35)*".

Well, here, Allah's law or law of "*... balanced...(Al Mulk: 67: 3)*" applies.

That is, "*....the light above the light...(An Nuur : 24: 35)*", following the law of "*...balanced...(Al Mulk: 67: 3)*", there is male light and female light.

The female type of light consists of red light found in the electromagnetic spectrum between 625 and 740 nanometers. Orange light is found in the electromagnetic spectrum between 590 and 625 nanometers. Yellow light, found in the electromagnetic spectrum between 565 and 590 nanometers.

Male light consists of green light found in the electromagnetic spectrum between 520 and 565 nanometers. Blue light is found in the electromagnetic spectrum between 450 and 520 nanometers. Indigo light in the electromagnetic spectrum between 430 - 450 nanometers. And purple light in the electromagnetic spectrum between 380 - 430 nanometers.

This, Allah's theory or Jahve's theory or Adonai's theory about "*....the light above the light...(An Nuur : 24: 35)*".

Or in other words, Allah's theory or Jahve's theory or Adonai's theory about "*....the light above the light...(An Nuur : 24: 35)*" which "*...balanced...(Al Mulk: 67: 3)*", between male-type light (green light, blue light, indigo light, purple light) and female-type light (red light, orange light, yellow light).

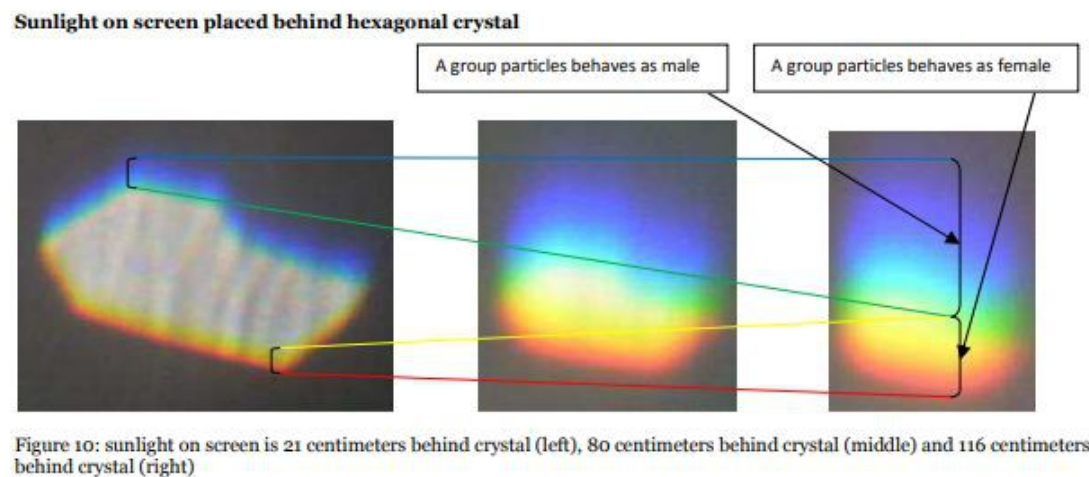

Figure 1: a group particles behaves as female

Figure 2: a group particles behaves as male

Sunlight move through pattern of a rectangular hole in paper reflects spot images on hexagonal crystal

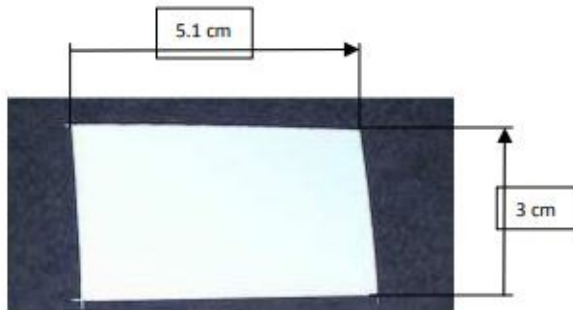

Figure 3: pattern of a rectangular hole in paper 5.1 cm x 3 cm

Figure 4: hexagonal crystal

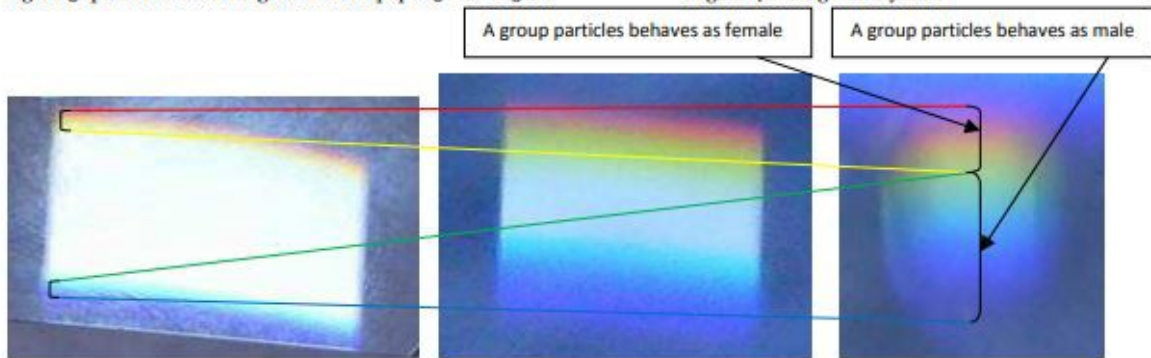

Figure 5: pattern reflects spot images on crystal, pattern placed 14 cm in front of crystal (left), 60 cm in front of crystal (middle) and 205 cm in front of crystal (right)

So, from the light of the sun that is carried by photons throughout the sky, down to the earth, where humans live, is the light that is the light of husband and wife, following the law of *"...balanced...(Al Mulk: 67: 3)"*

So, if sunlight is broken down through a prism, you will see the husband's light (green light, blue light, indigo light, purple light) and wife's light (red light, orange light, yellow light).

This is Allah's secret or Jahve's secret or Adonai's secret that most people in the world do not understand.

CONCLUSION

From what has been described above we can now conclude that the secret behind the verses: *"... You never see in the creation of the Most Gracious God something that is not balanced... (Al Mulk: 67: 3)" Allah the light skys and earth...the light above the light...(An Nuur : 24: 35)*

Apparently, here Allah or Jahve or Adonai has declared Allah's theory or Jahve's theory or Adonai's theory, about *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...God's creation.. ..which is...balanced...(Al Mulk: 67: 3)*

So, let's prove Allah's theory or Jahve's theory or Adonai's theory, about *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...God's creation.. ..which is...balanced...(Al Mulk: 67: 3)* empirically.

Is it true, *"Allah the lightthe light above the light...(An Nuur : 24: 35)"...balanced...(Al Mulk: 67: 3)?*

The answer is in the secret behind the verse: *"...Allah...breathes into human Allah's spirit...(As Sajdah : 32: 9)*

Well, *"...Allah's spirit...(As Sajdah: 32: 9)* which is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, which gives rise to *"....the light above the light...(An Nuur : 24: 35).*

It means, *"....the light above the light...(An Nuur : 24: 35)* that comes out of the sun is the light that arises because two hydrogen atoms collide in the sun. As a result, two hydrogen atoms collide, energy is released which causes light, called sunlight, where two hydrogen atoms collide to form helium atoms.

The energy in the form of light is carried by photons throughout the sky, down to the earth, where humans live.

Well, the light that is carried by this photon, which is called *"....the light above the light...(An Nuur : 24: 35).*

Well, here, Allah's law or law of *"... balanced... (Al Mulk: 67: 3)* applies.

That is, *"....the light above the light...(An Nuur : 24: 35),* following the law of *"...balanced...(Al Mulk: 67: 3),* there is male light and female light.

The female type of light consists of red light found in the electromagnetic spectrum between 625 and 740 nanometers. Orange light is found in the electromagnetic spectrum between 590 and 625 nanometers. Yellow light, found in the electromagnetic spectrum between 565 and 590 nanometers.

Male light consists of green light found in the electromagnetic spectrum between 520 and 565 nanometers. Blue light is found in the electromagnetic spectrum between 450 and 520 nanometers. Indigo light in the electromagnetic spectrum between 430 - 450 nanometers. And purple light in the electromagnetic spectrum between 380 - 430 nanometers.

This, Allah's theory or Jahve's theory or Adonai's theory about *"....the light above the light...(An Nuur : 24: 35).*

Or in other words, Allah's theory or Jahve's theory or Adonai's theory about *"....the light above the light...(An Nuur : 24: 35)* which *"...balanced...(Al Mulk: 67: 3)*, between male-type light (green light, blue light, indigo light, purple light) and female-type light (red light, orange light, yellow light).

So, from the light of the sun that is carried by photons throughout the sky, down to the earth, where humans live, is the light that is the light of husband and wife, following the law of *"...balanced...(Al Mulk: 67: 3)*

So, if sunlight is broken down through a prism, you will see the husband's light (green light, blue light, indigo light, purple light) and wife's light (red light, orange light, yellow light).

This is Allah's secret or Jahve's secret or Adonai's secret that most people in the world do not understand.
