ABSTRACT

Before the author writes about what is Allah's throne on the water, even though Allah is in every human body, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of what is Allah's throne on the water, even though Allah is in every human body, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about what is Allah's throne on the water, even though Allah is in every human body, namely the verses:

"So when I have perfected the existence of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him (Shaad: 38: 72)

"And Allah created the sky and the earth in six days, and is the throne of Allah above the water, so that Allah will test which of you is better in deeds, and if you say: "Indeed you will be resurrected after death", surely people those who disbelieve will say: "This is nothing but real magic." (Huud: 11: 7)

"Who has created the seven skys in layers. You never see in the creation of the Most Gracious God anything that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)

"So He made seven skys in two days. He revealed to every sky that the sky needs And We decorated the nearby sky with brilliant stars and We looked after them as well as possible. That is the decree of the Almighty, the All-Knowing. (Fushshilat :41:12)

"And among the signs of His power, He shows you lightning for fear and hope, and He sends down rain from the sky, and revives the earth with its water after its death. Verily in this are truly signs for a people who uses his mind (Ar Ruum: 30: 24)

In an effort to open the veil on what is Allah's throne on the water, even though Allah is in every human body, the author based it on deoxyribonucleic acid.

HYPOTHESES

Here the author proposes hypothesis what is Allah's throne on the water, even though Allah is in every human body, seen from the perspective of photons, quarks and Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building

element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a storage place for genetic information which has a double structure that forms a double helix and which contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5 carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

WHAT IS ALLAH'S THRONE ON THE WATER, EVEN THOUGH ALLAH IS IN EVERY HUMAN BODY

So now, we still focus our minds on continuing to try to uncover the secret hidden in the verse: *"...Allah created the sky and the earth in six days, and is the throne of Allah above the water...(Huud: 11: 7)*

Well, it turns out, Allah has prepared with water *"...the throne of Allah above the water...(Huud: 11: 7)*, before the creation of *"...the sky and the earth...(Huud: 11: 7)*

Now, what is called *"...the sky...(Huud: 11: 7)* is an expanse of space, above which there is the earth and other planets, as well as the sun or stars.

So actually, what is meant by *"...the sky and the earth...(Huud: 11: 7)* is that the earth is above the expanse of space.

So, why did Allah prepare water, before *"...the sky and the earth...(Huud: 11: 7)* were created?

The answer is

The secret is hidden in the verse: *"..He sends down rain from the sky, and revives the earth with its water after its death...(Ar Ruum: 30: 24)* *"...I breathed into Adam my spirit...(Shaad: 38: 72)*

Well, the presence of water, which consists of hydrogen atoms and oxygen atoms, will provide life to all living organisms on earth.

Or in other words, *"..Allah...revives the earth with (Allah's spirit) after its death....(Ar Ruum : 30: 24)* where *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* is built with hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms.

Now the question arises,

Why is it only on Earth that there is water, not on other planets, even though the other planets are also partly like Earth?

The answer is

Because on these planets there are no oxygen atoms, only hydrogen atoms.

Well, because on other planets there are no oxygen atoms, water will not form, even if there are hydrogen atoms.

Why didn't Allah create oxygen atoms on a planet where there were only hydrogen atoms?

The answer is

Stored in the secret behind the verse: ***"...He made seven skys in two days. He revealed to every sky that the sky needs...(Fushshilat: 41: 12).***

This means that Allah gives power to every ***"...sky...(Huud: 11: 7)*** to manage ***"...the sky needs... Fushshilat: 41: 12).*** The distribution of hydrogen atoms, carbon atoms, oxygen atoms, nitrogen atoms, is handed over to every ***"...sky...(Huud: 11: 7)*** to arrange it.

Or in other words, every expanse of space is given the power to manage ***"...the sky needs... Fushshilat: 41: 12).***

The division of hydrogen atoms, carbon atoms, oxygen atoms, nitrogen atoms, is left to each ***"...sky...(Huud: 11: 7)*** to regulate it.

Well, on ***"...earth...(Ar Ruum : 30: 24)*** there are oxygen atoms, hydrogen atoms, carbon atoms and nitrogen atoms.

Because of the expanse of space or sky above which there is the earth and oxygen atoms on ***"...the earth...(Ar Ruum: 30: 24),*** water can be created, after the union of two hydrogen atoms with one oxygen atom.

Well, next, when Allah declared ***"...You never see in the creation of the Most Gracious God anything that is not balanced....(Al Mulk: 67: 3)***

Well, that means, Allah's law or natural law, applies in ***"...sky and earth...(Huud: 11: 7).*** All living organisms that live in ***"...sky and earth...(Huud: 11: 7),*** following Allah's law or natural law.

Or in other words, all living organisms that follow Allah's laws or natural laws, become Allah's creation ***"...in balance (Al Mulk: 67: 3).***

Well now, the secret hidden behind the verse has been revealed: ***"...Allah created the sky and the earth in six days, and is the throne of Allah above the water...(Huud: 11: 7)***

Namely, ***"...water...(Huud: 11: 7)*** which contains oxygen atoms and hydrogen atoms which provide life to living organisms on earth.

So actually, when Allah declared ***"...the throne of Allah above the water...(Huud: 11: 7)*** refers to ***"...my spirit...(Shaad: 38: 72)*** or ***"...Allah's spirit ...(Shaad : 38: 72)*** which is built with hydrogen atoms,

carbon atoms, nitrogen atoms, oxygen atoms.

Or in other words, *"...the throne of Allah above the water...(Huud: 11: 7)* refers to *"...my spirit...(Shaad: 38: 72)* or *"...Allah's spirit ...(Shaad : 38: 72)* which contains hydrogen atoms and oxygen atoms which form *"...water...(Huud : 11: 7)*.

CONCLUSION

Based on the description above we can conclude that the secret hidden in the verse: *"...Allah created the sky and the earth in six days, and is the throne of Allah above the water...(Huud: 11: 7)*

Well, it turns out, Allah has prepared with water *"...the throne of Allah above the water...(Huud: 11: 7)*, before the creation of *"...the sky and the earth...(Huud: 11: 7)*
