ABSTRACT

Before the author writes about why did Allah or Jahve created the 7 skys, it is not enough only one sky, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of why did Allah or Jahve created the 7 skys, it is not enough only one sky, based on Deoxyribonucleic acid (DNA)

There are several verses that reveal Allah's secrets about why why did Allah or Jahve created the 7 skys, it is not enough only one sky, namely the following verses:

"Allah...the light of the skys and the earth...a light upon a light...(An Nuur : 24: 35)

"Read in the name of your Lord Who created (Al 'Alaq : 96: 1) "He has created man from a clot of blood. (Al 'Alaq: 96: 2) "Those who teach by means of kalam (Al 'Alaq: 96: 4)

"those who remember Allah while standing or sitting or lying down and they think about the creation of the heavens and the earth: "O our Lord, you did not create this in vain, Glory be to You, so protect us from the torment of hell. (Ali 'Imran : 3: 191)

"And indeed We have created man from an extract from the soil (Al Mu'minuun: 23: 12)

"Then when I have perfected what happened and I have breathed into him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected what happened, and have breathed into it My spirit, then submit to him with prostration (Al Hjr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And if We had made the apostle an angel, We would have made him a male and, surely We would have doubted about them what they doubted about themselves (Al An'aam: 6: 9)

"And it is not possible for any human being that Allah spoke with him except by means of revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Asy Shuura : 42: 51)

"And when My servants ask you about Me, then, that I am near. I grant the request of the one who prays when he asks Me, then let them fulfill (all My commandments) and let them believe in Me Ku, so that they are always in the truth (Al Baqarah: 2: 186)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)

"He arranges affairs from skys to earth, then it rises to Him in one day, the amount of which is a thousand years according to your calculations (As Sajdah: 32: 5)

"Angels and spirits ascend to God in a day which is fifty thousand years (Al Ma'aarij: 70:4)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)

"And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Surely Allah is All-Wise, All-Knowing. (Al Baqarah: 2: 115)

"descend angels and spirits with the permission of their Lord to arrange all affairs (Al Qadr: 97: 4)

"And they ask you about the spirit. Say: "The spirit is a matter of my Lord, and you are not given knowledge but a little." (Al Israa ': 17: 85)

"Indeed, We have decorated the skys close to the stars, and We have made the stars the tools of throwing devils, and We have prepared for them the torment of a burning hell. (Al Mulk: 67: 5)

"And We did not create the heavens and the earth and everything between them playing games (Al Anbiyaa ': 21: 16)

"So He made seven skys in two days. He revealed to each sky its affairs. And We decorated the nearest sky with bright stars and We took care of it in the best way. Such is the provision of the Almighty, All-Knowing. (Fushshilat) :41:12)

"Surely your Lord is Allah who created the skys and the earth in six days, then He resided on the Throne. He closed the night to the day that followed quickly, and the sun, moon and stars were subject to His commands. Remember, creating and governing is only the right of Allah. Glory be to Allah, Lord of the Worlds. (Al A'raaf : 7: 54)

"God created the skys and the earth with rights. Indeed, in that there are signs of God's power for the believers (Al 'Ankaboot: 29: 44)

"Those who when disaster strikes, they say Inna lillaahi wa innaa ilaihi raaji'uun (Surely we belong to Allah and to Allah we return) (Al Baqarah: 2: 156)

"And everything they have done is recorded in the record books (Al Qamar: 54: 52)

"And We made before them a wall and behind them a wall, and We covered them so that they could not see." (Yaasiin: 36: 9)

In an effort to uncover Allah's secret veil about why did Allah or Jahve created the 7 skys, it is not enough only one sky, the author uses the basic deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes the hypothesis that Allah or Jahve created the 7 skys, it is not enough only one sky, because whatever is in sky 1 does not disappear, before anything in sky 1 returns to being energy, it needs to be made a copy, an imitation of sky 1, is stored in sky 2 to sky 7, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

WHY DID ALLAH OR JAHVE CREATE THE 7 SKYS, IT'S NOT ENOUGH ONLY ONE SKY

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...He made the seven skys in two days...(Fushshilat: 41: 12)"...we belong to Allah and to Allah we return (Al Baqarah: 2: 156)*

Well, here, Allah has declared *"...He made seven skys in two days...(Fushshilat: 41: 12)"...we belong to Allah and to Allah we return (Al Baqarah: 2: 156)*

This, is Allah's secret that was opened to all people in the world, *"... He made the seven skys...(Fushshilat: 41: 12)" ... we belong to Allah and to Allah we return (Al Baqarah: 2: 2: 156)*

Now, with Allah's declaration *"...seven skys...(Fushshilat: 41: 12)"...to Allah we return (Al Baqarah: 2: 156) proves that whatever is in "...the nearest sky...(Al Mulk : 67: 5) not lost, everything "... to Allah...return (Al Baqarah: 2: 156)*

Well, *"...the nearest sky...(Al Mulk : 67: 5) is "...the sky...(Al Mulk : 67: 5) that exists"...the stars... (Fushshilat : 41: 12)*

Or in other words, *"...the nearest sky...(Al Mulk : 67: 5) is the sky that has 100 000 000 000 galaxies, each galaxy consists of 150 100 000 stars.*

Well, "...*the nearest sky...*(*Al Mulk : 67: 5*) is skys 1, which has the Milky Way galaxy, in which there are the sun, earth, moon and other planets that surround the sun.

Now the question arises,

Why did Allah "...*create seven skys...*(*Fushshilat: 41: 12*) is it not enough for "...*the nearest sky...*(*Al Mulk : 67: 5*) that there are **100 000 000 000** galaxies, each galaxy consists of **150 100 000** stars ?

The answer is in the secret behind the verse: "... *we belong to Allah and to Allah we return* (*Al Baqarah: 2: 156*)

Well, because whatever is in "...*the nearest sky...*(*Al Mulk : 67: 5*) or sky 1, comes from Allah's energy "... *wherever you turn there is the face of Allah...*(*Al Baqarah: 2: 115*), then it will return "...*to (energy) Allah...* (*Al Baqarah: 2: 156*)

So, whatever is in "...*the nearest sky...*(*Al Mulk : 67: 5*) or sky 1 does not disappear, but returns again to become Allah's energy "... *wherever you turn, that's where Allah's face is..* .(*Al Baqarah : 2: 115*)

Now another question arises,

What about information from anything in "...*the nearest sky...*(*Al Mulk : 67: 5*) or sky 1, is the information lost?

The answer is in the secret behind the verse: "...*He made seven skys...*(*Fushshilat: 41: 12*)

Well, it turns out, the solution made by Allah to store all information from whatever is in "...*the nearest sky...*(*Al Mulk : 67: 5*) or sky 1, Allah "...*made seven skys...*(*Fushshilat : 41: 12*)

So, sky 1 is "...*the nearest sky...*(*Al Mulk : 67: 5*) which has **100 000 000 000** galaxies, each galaxy consists of **150 100 000** stars, while sky 2 to sky 7 is used as a place to store all information from whatever is in "...*the nearest sky...*(*Al Mulk : 67: 5*) or sky 1.

Another question arises,

How did Allah "...*make seven skys...*(*Fushshilat: 41: 12*)?

Well, it turns out that Allah's evidence in "...*seven skys...*(*Fushshilat: 41: 12*) contains 72% dark energy, 23% dark matter and 5% is a neutrino element or elementary particle which has a very small mass and atoms atom (*Universe, Martin Rees, Dorling Kindersley Limited, London, 2005*).

So, actually, most of it is dark energy, or Allah's energy, 72%, then dark matter 23%, where this matter is invisible to the human eye, the remaining 5% is atoms like hydrogen atoms, carbon atoms, oxygen atoms , nitrogen atoms, and other atoms.

Well, now, based on Allah's declaration "*God created the skys and the earth with rights...* (*Al 'Ankabuut: 29: 44*), then whatever is in these seven skys, can be counted with certainty and correctly.

It turns out that after calculating, the total mass of dark matter (23%) is added to the mass of "...*the nearest sky...*(*Al Mulk : 67: 5*) which contains **100 000 000 000** galaxies (5%), a total of **28** is found. % of the total percentage as a whole.

Then, if we divide this 28% of mass into several skies that have the same mass, we will find 7 skies

that have the same mass, namely each sky has the same 4% mass.

So, in fact, after human calculations, it turns out that "...the nearest sky...(Al Mulk : 67: 5) which contains 100 000 000 000 galaxies is only (4%) in mass. Then, the 2nd – 7th sky have 4% dark matter mass each.

This, Allah's secret, that almost all people in the world do not understand.

"God created the skies and the earth with rights...(Al 'Ankabut: 29: 44). Where "...seven skys... (Fushshilat: 41:12) which consists of sky 1 is "...the nearest sky...(Al Mulk : 67: 5) which contains 100 000 000 000 galaxies, while sky 2 – sky 7 is to store all information from whatever is in "...the nearest sky...(Al Mulk : 67: 5) or sky 1.

So, now, another question arises,

How does Allah store all information from anything that is in "...the nearest sky...(Al Mulk : 67: 5) or sky 1?

The answer is in the secret behind the verse: **"... recorded in the notebooks (Al Qamar: 54: 52)**

So, whatever is in "...the nearest sky...(Al Mulk : 67: 5) which contains 100 000 000 000 galaxies is copied or recorded in the form of **"...notebooks (Al Qamar : 54: 52)**

Or in other words, whatever is in "...the nearest sky...(Al Mulk : 67: 5) which contains 100 000 000 000 galaxies are copied or recorded stored in database and placed in sky 2 – sky 7 .

So, how to make an imitation or record of all information from whatever is in "...the nearest sky...(Al Mulk : 67: 5) or the 1st sky?

The answer is, because whatever is in "...the nearest sky...(Al Mulk : 67: 5) or in sky 1 is built by atoms, just as humans are built by 7 000000000 000000000 000000000 atoms, then information from these atoms are imitated or recorded every 0.5 nanoseconds.

By using Allah's particle 0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9 grams, which has speed of light 5 475 103 664 604.84 km per second, absorbing Allah's energy 0.000000000 000000000 000000000 01 gram, to do imitation or recording of anything that is in "...the nearest sky...(Al Mulk : 67: 5) or sky 1, including humans and all actions, both visible and invisible, where the results of imitation or recording is stored in the form of **"...notebooks (Al Qamar: 54: 52)** and stored in sky 2 - sky 7.

Well, it turns out, what is called **"... notebooks (Al Qamar: 54: 52)** or databases that contain imitations or recordings of anything in "...the nearest sky...(Al Mulk : 67: 5) or sky 1 is stored in sky 2 - sky 7 which contains 23% dark matter, where this dark matter is invisible to the human eye.

This, Allah's secret, is not understood and known by the majority of people in the world.

CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verses: **"...He made the seven skys in two days...(Fushshilat: 41: 12)"...we belong to Allah and to Allah we return (Al Baqarah: 2: 156)**
