ABSTRACT

Before the author writes about why gan eden and incarnation are accepted by Allah and are in the Al Quran, the writer first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of why gan eden and incarnation are accepted by Allah and are in the Al Quran, based on deoxyribonucleic acid (DNA).

There are several verses that are Allah's secret tools about why gan eden and incarnation are accepted by Allah and are in the Al Quran, namely the following verses:

"So when I have perfected the body and I have breathed on him my spirit, then you should fall down and prostrate to him." (Shaad: 38: 72)

"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see something that is not balanced? (Al Mulk: 67: 3)

"So Maryam made a veil from them, then We sent Our spirit to Maryam, Our spirit incarnated before her the perfect human (Maryam: 19: 17)

"And Maryam who has preserved her honor, then We blew breathed into her womb a spirit from Us and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)

"Allah has promised the believers, men and women, gardens beneath which rivers flow, eternal life in them, and good places in paradise 'Adn. And the pleasure of Allah is greater, it is a great fortune. (At Tawba: 9: 72)

In an effort to uncover Allah's secret veil about why gan eden and incarnation are accepted by Allah and are in the Al Quran, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes a hypothesis why gan eden and incarnation are accepted by Allah and are in the Al Quran, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are

combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHY GAN EDEN AND INCARNATION WERE ACCEPTED BY ALLAH AND ARE IN THE QURAN

Now, we are still concentrating on dismantling the secrets contained behind the verses: *"...good places in paradise 'Adn...(At Taubah : 9: 72) "...We sent Our spirit to Maryam, Our spirit incarnated before her the perfect human (Maryam : 19: 17)*

Here Allah or Jahve or Adonai declares, *"...paradise 'Adn...(At Taubah : 9: 72) "...Our spirit... incarnated...the perfect human (Maryam : 19: 17)*

Well, there are two important factors, which are declared by Allah or Jahve or Adonai, namely factor 1, is *"...paradise 'Adn...(At Taubah : 9: 72)*. Factor 2, is *"...Our spirit... incarnated...the perfect human (Maryam : 19: 17)*

Well, it turns out, *"...paradise 'Adn...(At Taubah : 9: 72)* comes from the thoughts of the Jewish religious leaders, who think about life after life in this world. After the religious leaders of the Jews racked their brains, they found, **gan eden**, which means paradise and **gehennom** which means hell.

Why did the religious leaders of the Jews, twist their brains, to think about life after life in this world and found, **gan eden** or paradise and **gehennom** or hell. ?

Because in the Torah that is now in the hands of the Jews, there is no mention of life in the afterlife, life in paradise and life in hell, which is written only after life in this world there is no life in the afterlife.

Besides that, when the Babylonian King Nebuchadnessar, in present-day Southern Iraq, in 589 BC occupied the area of present-day Jerusalem, the seat of the Jewish people. For 2 years this place of power of the Jews was ruled with an iron fist by the Babylonian King Nebuchadnessar.

So, because the Jewish people were ruled with an iron fist by the Babylonian King Nebuchadnessar, the Jewish religious leaders thought about life after life in this world. After the Jewish religious leaders racked their brains, they discovered **gan eden** or paradise and **gehennom** or hell.

So, actually, these Jews only discovered paradise and hell, 2612 years ago, after these Jews were suppressed and oppressed by the Babylonian King Nebuchadnezzar, in present-day Southern Iraq.

Now, the question is

Why is it that **gan eden**, or paradise, the result of the ideas of the Jewish religious leaders, is inside Al Quran, with the name "*...paradise 'Adn...(At Tawbah : 9: 72) ?*

The answer is in the secret behind the verse: "*You never see in the creation of God...something that is not balanced...(Al Mulk: 67: 3)*

Well, it turns out, **gan eden** according to human thought "*...balanced...(Al Mulk: 67: 3)* with "*...paradise 'Adn...(At Tawbah : 9: 72)* according to Allah's mind.

Likewise with the incarnation, which is the result of human thought, 3500 – 4500 years ago, is in the Koran, with the name "*...tamatsal (incarnate)...(Maryam: 19: 17)*

Now, here too, the incarnation, which is the product of human thought, 3500 – 4500 years ago "*...balanced...(Al Mulk: 67: 3)* with "*...tamatsal (incarnated)...(Maryam: 19: 17)* according to Allah's mind.

So, here, proving, the human mind reflects Allah's mind.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "*...good places in paradise 'Adn...(At Taubah : 9: 72)* "*We sent Our spirit to Maryam, Our spirit incarnated before her the perfect human (Maryam : 19: 17)*

Here Allah or Jahve or Adonai declares, "*...paradise 'Adn...(At Taubah : 9: 72)* "*Our spirit... incarnated...the perfect human (Maryam : 19: 17)*
