## ABSTRACT

Before the author writes about why in Hindu teachings, incarnation is made as a center point of Hindu beliefs, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret of why in Hindu teachings, incarnation is made as a center point of Hindu beliefs, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about why in Hindu teachings, incarnation is made as a center point of Hindu beliefs, namely the following verses:

*"And indeed We have created man from an extract from the soil (Al Mu'minuun: 23: 12)*

*"Then when I have perfected the body and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)*

*"So when I have perfected the body, and have breathed into him My spirit, then submit to him with prostration (Al Hijr: 15: 29)*

*"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)*

*"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)*

*"And Maryam bint Imran who maintains her honor, then We breathed into Maryam's womb Our spirit, and she confirms the words of her Lord and His Books, and she is one of those who obey. (At Tahrir: 66: 12)*

*"So Maryam made a veil from them; then We sent Our spirit to her, so Our spirit incarnated before Maryam, a perfect human being. (Maryam: 19: 17)*

*"Who has created the seven skys in layers. You never see in the creation of God the Most Gracious something that is not balanced. So look again and again, do you see anything that is not balanced? (Al Mulk: 67: 3)*

In an effort to uncover Allah's secret veil about why in Hindu teachings, incarnation is made as a center point of Hindu beliefs, the author uses the basis of deoxyribonucleic acid.

## HYPOTHESIS

Here the author proposes a hypothesis in Hindu teachings, incarnation is made as a center point of Hindu beliefs, based on Deoxyribonucleic acid (DNA)

## PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

## QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

## DEOXYRIBONUCLATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

## WHY IN HINDU TEACHINGS, INCARNATION IS MADE AS A CENTER POINT OF HINDU BELIEFS

Now, we are still concentrating on dismantling the secrets contained behind the verse: *"...I breathed into human my spirit...Shaad : 38: 72)"...Our spirit incarnated...human...(Maryam :19:17)*

Well, the question arises,

What exactly is hidden behind the declaration of Allah or Jahve or Adonai *"...Our spirit incarnated...human...(Maryam :19:17)*

Well, the answer is *"...incarnated...(Maryam: 19: 17)*

What exactly does Allah or Jahve or Adonai mean by *"...incarnated...(Maryam: 19: 17)?*

The answer is in the secret behind the verse: *"Allah has created the seven skys...(Al Mulk: 67: 3)*

Because *"Allah has created the seven skys...(Al Mulk: 67: 3)*, then whatever lives in *"...the seven skys...(Al Mulk: 67: 3)* must be preserved for their survival.

So, to maintain the survival of whatever is in *"...the seven skys...(Al Mulk: 67: 3)*, Allah or Jahve or Adonai has made a model *"...incarnated...(Maryam: 19: 17)* as a way to maintain survival in *"...seven skys...(Al Mulk: 67: 3)*

Why did Allah or Jahve or Adonai make the model *"...incarnated...(Maryam : 19: 17)* as a way to maintain survival in *"...seven skys...(Al Mulk: 67: 3) ?*

Because everything in the *"...seven skys...(Al Mulk: 67: 3)* is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms.

Well, hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms will continue to live until they reach the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years

Well, because these atoms have a very long life span, while organisms, which are built with these atoms, such as humans, animals, plants, fungi, amoebas, bacteria, archaea, viruses, have limited lives, the atoms that are used as building blocks human bodies, animals, plants, fungi, amoebas, bacteria, archaea, viruses will be reused to give life in *"...seven skys...(Al Mulk: 67: 3)*.

So, in order to maintain survival in these *"...seven skies...(Al Mulk: 67: 3)*, one way is used *"...incarnated...(Maryam: 19: 17)*

That is, hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms, which are the building blocks of organisms, when the organisms die, the carbon atoms, nitrogen atoms, oxygen atoms and other atoms, come out of the body of the dead organism and these atoms are reused by living or recently living organisms.

Well, it turns out, in Hindu teachings, this incarnation model is used as a central point in Hindu beliefs.

And, indeed, without incarnation, there would be no survival in the *"...seven skys...(Al Mulk: 67: 3)*.

The Indian thinkers who gave birth to Hindu teachings that focused their teachings on incarnation are the same as those declared by Allah or Jahve or Adonai *"...Our spirit incarnated...human...(Maryam :19:17)*

## CONCLUSION

Based on the description above, we can conclude that the secrets contained behind the verse: *"...I breathed into human my spirit...Shaad : 38: 72)"...Our spirit incarnated...human...(Maryam :19:17)*

Well, the question arises,

What exactly is hidden behind the declaration of Allah or Jahve or Adonai *"...Our spirit incarnated...human...(Maryam :19:17)*

Well, the answer is *"...incarnated...(Maryam: 19: 17)*

What exactly does Allah or Jahve or Adonai mean by *"...incarnated...(Maryam: 19: 17)*?

The answer is in the secret behind the verse: *"Allah has created the seven skys...(Al Mulk: 67: 3)*

Because *"Allah has created the seven skys...(Al Mulk: 67: 3)*, then whatever lives in *"...the seven skys...(Al Mulk: 67: 3)* must be preserved for their survival.

So, to maintain the survival of whatever is in *"...the seven skys...(Al Mulk: 67: 3)*, Allah or Jahve or Adonai has made a model *"...incarnated...(Maryam: 19: 17)* as a way to maintain survival in *"...seven skys...(Al Mulk: 67: 3)*

Why did Allah or Jahve or Adonai make the model *"...incarnated...(Maryam : 19: 17)* as a way to

maintain survival in "...seven skys...(Al Mulk: 67: 3) ?

Because everything in the "...seven skys...(Al Mulk: 67: 3) is made up of hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms.

Well, hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms will continue to live until they reach the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000** years

Well, because these atoms have a very long life span, while organisms, which are built with these atoms, such as humans, animals, plants, fungi, amoebas, bacteria, archaea, viruses, have limited lives, the atoms that are used as building blocks human bodies, animals, plants, fungi, amoebas, bacteria, archaea, viruses will be reused to give life in "...seven skys...(Al Mulk: 67: 3).

So, in order to maintain survival in these "...seven skys...(Al Mulk: 67: 3), one way is used "...incarnated...(Maryam: 19: 17)

That is, hydrogen atoms, carbon atoms, nitrogen atoms, oxygen atoms and other atoms, which are the building blocks of organisms, when the organisms die, the carbon atoms, nitrogen atoms, oxygen atoms and other atoms, come out of the body of the dead organism and these atoms are reused by living or recently living organisms.

Well, it turns out, in Hindu teachings, this incarnation model is used as a central point in Hindu beliefs.

And, indeed, without incarnation, there would be no survival in the "...seven skys...(Al Mulk: 67: 3).

The Indian thinkers who gave birth to Hindu teachings that focused their teachings on incarnation are the same as those declared by Allah or Jahve or Adonai "...Our spirit incarnated...human... (Maryam :19:17)
