ABSTRACT

Before the author writes about why is Allah's spirit that is put in paradise and in hell, not the humans, the author first asks forgiveness from Allah SWT. Here the author tries to open the veil that covers the secret of why is Allah's spirit that is put in paradise and in hell, not the humans, based on Deoxyribonucleic acid (DNA)

There are several verses that become Allah's secret about why is Allah's spirit that is put in paradise and in hell, not the humans, namely the following verses:

"Then when I have completed the body and I have breathed on him my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

"So Maryam made a veil from them, then We sent Our spirit to Maryam, so Our spirit incarnated before her the perfect human. (Maryam: 19: 17)

"And Maryam who has preserved her honor, then We breathed into her womb a spirit from Us and We made her and her child a great sign to the worlds. (Al Anbiyaa': 21: 91)

In an effort to uncover Allah's secret veil about why is Allah's spirit that is put in paradise and in hell, not the humans, the author uses deoxyribonucleic acid as a basis.

HYPOTHESIS

Here the author proposes a hypothesis why is Allah's spirit that is put in paradise and in hell, not the humans, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic acid (DNA) humans are composed of 32.20 % atoms carbon, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in atmosphere.

WHY IS ALLAH'S SPIRIT THAT IS PUT IN PARADISE AND IN HELL, NOT THE HUMANS

So now, we are still concentrating on dismantling the secrets contained behind the verses: *"...I breathed on him my spirit...(Shaad : 38: 72)"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Here, Allah or Jahve or Adonai, opens the secret to all people in the world, including to all Muslims in the world, about *"...Our spirit...(Maryam: 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, who is put into paradise and into hell.

Based on what, Allah or Jahve or Adonai, put *"...Our spirit...(Maryam: 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, into paradise and into hell, not man with his body?

The answer is in the secret behind the verse: *"...Our spirit incarnated...the perfect human (Maryam: 19: 17)*

Well, based on the law of incarnation, which is valid in the universe.

Why is the law of the incarnation, which is used as a legal basis, to include *"...Our spirit...(Maryam: 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, into paradise and into hell?

Because for survival in the universe, only through incarnation.

That is, survival in the universe will be guaranteed, because of *"...Our spirit...(Maryam: 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Where is *"...Our spirit...(Maryam: 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live to the age of 10 000000000 000000000 000000000 000000000 000000000 00000000 0 000000000 000000000 years.

The human body, which is made up of 7 000000000 000000000 000000000 atoms, forms a body in the form of flesh, bone and blood.

Where when a human dies, the body in the form of flesh, bone and blood, returns to being energy,

while 7 000000000 000000000 000000000 atoms, including "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, came out of the dead human body.

Well, 7 000000000 000000000 000000000 atoms are reused by humans, animals, plants, fungi, amoebas, bacteria, archaea and viruses.

Meanwhile, a small portion of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that form the building "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, which comes out of the body of a dead human being, does not incarnate, but becomes the form of a dead person, in the form of an atom.

Now, the form of a dead person, in the form of this atom, will be held accountable for the actions that have been committed by a dead person while still alive in the world.

Or in other words, "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, who comes out of the body of a dead man, who will give account for the deeds that have been done by a dead person, while that person is still alive in the world.

Or it could also be said, "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, which united in the nervous system in the human brain, when the human is still alive, who will be held accountable for the actions that have been carried out by a person who died, when that person was still alive in the world.

After the human dies, "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, becomes the form of the dead, in the form of atoms.

So, with this reason, why "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, entered into paradise and into hell.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: "...I breathed on him my spirit...(Shaad : 38: 72)"..."Our spirit incarnated...the perfect human (Maryam: 19: 17)

Here, Allah or Jahve or Adonai, opens the secret to all people in the world, including to all Muslims in the world, about "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, who is put into paradise and into hell.

Based on what, Allah or Jahve or Adonai, put "...Our spirit...(Maryam: 19: 17) or "...my spirit...(Shaad : 38: 72) or "...the spirit of Allah...(Shaad : 38: 72) or the spirit of Jahve or the spirit of Adonai, into paradise and into hell, not man with his body?

The answer is in the secret behind the verse: "...Our spirit incarnated...the perfect human (Maryam: 19: 17)

Well, based on the law of incarnation, which is valid in the universe.

Why is the law of the incarnation, which is used as a legal basis, to include "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, into paradise and into hell?

Because for survival in the universe, only through incarnation.

That is, survival in the universe will be guaranteed, because of "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which is composed of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Where is "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, built with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live to the age of **10 000000000 000000000 000000000 000000000 000000000 000000000 0 000000000 000000000** years.

The human body, which is made up of **7 000000000 000000000 000000000** atoms, forms a body in the form of flesh, bone and blood.

Where when a human dies, the body in the form of flesh, bone and blood, returns to being energy, while **7 000000000 000000000 000000000** atoms, including "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, came out of the dead human body.

Well, **7 000000000 000000000 000000000** atoms are reused by humans, animals, plants, fungi, amoebas, bacteria, archaea and viruses.

Meanwhile, a small portion of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms that form the building "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which comes out of the body of a dead human being, does not incarnate, but becomes the form of a dead person, in the form of an atom.

Now, the form of a dead person, in the form of this atom, will be held accountable for the actions that have been committed by a dead person while still alive in the world.

Or in other words, "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, who comes out of the body of a dead man, who will give account for the deeds that have been done by a dead person, while that person is still alive in the world.

Or it could also be said, "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, which united in the nervous system in the human brain, when the human is still alive, who will be held accountable for the actions that have been carried out by a person who died, when that person was still alive in the world.

After the human dies, "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, becomes the form of the dead, in the form of atoms.

So, with this reason, why "*...Our spirit...(Maryam: 19: 17)* or "*...my spirit...(Shaad : 38: 72)* or "*...the spirit of Allah...(Shaad : 38: 72)* or the spirit of Jahve or the spirit of Adonai, entered into paradise and into hell.
