ABSTRACT

Before the author writes about why is incarnation made a belief in Hindu teachings, whereas incarnation is the way to survival in the seven skys, the author first asks Allah SWT for forgiveness. Here the author tries to open the veil that covers the secret about why is incarnation made a belief in Hindu teachings, whereas incarnation is the way to survival in the seven skys, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secret about why is incarnation made a belief in Hindu teachings, whereas incarnation is the way to survival in the seven skys, namely the following verses:

"Then when I have perfected what happened and I have breathed into him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"So when I have perfected what happened, and have breathed into him My spirit, then submit to him with prostration (Al Hjr: 15: 29)

"Then He perfected and breathed into it His spirit and He made for you hearing, sight and heart; you are very little grateful. (As Sajdah: 32: 9)

"And it is not possible for any human being that Allah spoke with him except by means of revelation or behind a veil or by sending a messenger and then revealed to him with His permission what He wills. Verily, He is Most High, Most Wise. (Asy Shuura : 42: 51)

"And when My servants ask you about Me, then, I am near. I grant the request of those who pray when he asks Me, then let them fulfill (all My commandments) and let them believe in Me , so that they are always in the truth (Al Baqarah: 2: 186)

"He is the First and the Last, the Zhahir and the Inner; and He is All-Knowing of all things. (Al Hadiid: 57: 3)

"God holds the soul when it dies and the soul that has not died in its sleep; so He holds the soul for which He has ordained death and He releases the other soul until the appointed time. Indeed, in that there are signs of Allah's power for people who think .(Az Zumar : 39: 42)

"It was He who created the skys and the earth in six days: Then He dwells on the Throne. He knows what enters the earth and what comes out of it and what descends from the heavens and what ascends to Him. And He is with you in wherever you are. And Allah is Seeing of what you do. (Al Hadiid: 57: 4)

"Allah, there is no God but He who lives eternally, continuously takes care of; does not get sleepy and does not sleep. What belongs to Him in the heavens and on earth. No one can intercede with Allah without His permission? Allah knows what is before them and behind them, and they do not know anything from Allah's knowledge except what He wills. Allah's Chair covers the heavens and the earth. And Allah does not find it hard to care for them both, and Allah is Most High, Most Great.(Al Baqarah: 2: 255)

"So he made a veil over them; then We sent Our Spirit to him, so he manifested before him a perfect human. (Maryam: 19: 17)

"So He made seven skies in two periods. He revealed to each sky its affairs. And We decorated the skies that were near with brilliant stars and We took care of them in the best way. Such is the provision of the Almighty, All-Knowing. (Fushshilat) :41:12)

"And verily We have created man and know what his heart whispers, and We are nearer to him than his jugular vein." (Qaf: 50:16)

In an effort to uncover Allah's secret veil about why is incarnation made a belief in Hindu teachings, whereas incarnation is the way to survival in the seven skies, the author uses the basis of Deoxyribonucleic acid (DNA)

HYPOTHESIS

Here the author proposes the hypothesis that incarnation is the way to survival in the seven skies, based on Deoxyribonucleic acid (DNA).

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building block of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLEATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

WHY IS INCARNATION MADE A BELIEF IN HINDU TEACHINGS, WHEREAS INCARNATION IS THE WAY TO SURVIVAL IN THE SEVEN SKYS

Now, we are still concentrating on dismantling the secrets contained behind the verse: *"...I breathed into humans my spirit...(Shaad : 38: 72)"...We sent our spirit to Maryam, our spirit incarnated.. .perfect human. (Maryam : 19: 17)*

Apparently, Allah has opened the secret of life in the seven skies through the declaration *"...our*

spirit incarnated... perfect human (Maryam : 19: 17)

So now the question arises,

Why does Allah reveal the secret of living in the seven skys through *"...our spirit incarnated...perfect human (Maryam : 19: 17) ?*

The answer is in the secret behind the verse: *"Allah...who lives eternally, continuously takes care of... (Al Baqarah: 2: 255)*

Well, *"Allah...who lives eternally...(Al Baqarah: 2: 255)"...I breathed into humans my spirit...(Shaad : 38: 72)"...our spirit incarnated...perfect human (Maryam : 19: 17).*

It means *"...our spirit incarnated...perfect human (Maryam : 19: 17)* is a way for survival in *"...seven skys...(Fushshilat : 41: 12)*

Now, by means of *"...our spirit incarnated...(Maryam : 19: 17)*, life is guaranteed in *"...seven skys...(Fushshilat : 41: 12)*

Apparently, for survival in *"...seven skys...(Fushshilat : 41: 12)*, Allah has made a way which is called *"...incarnated...(Maryam: 19: 17)* or borrowing a term in Hindu teachings are incarnations.

So, actually, Allah is to maintain survival in *"...seven skys...(Fushshilat : 41: 12)* using the method *"...incarnated...(Maryam: 19: 17).*

So, now another question arises,

What exactly is *"...incarnated...(Maryam: 19: 17) ?*

Well, the answer is in the secret behind the verse: *"...our spirit incarnated...perfect human (Maryam : 19: 17)*

So, what *"...incarnated...(Maryam : 19: 17)* is *"...our spirit...(Maryam : 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72).* Where...*"...our spirit...(Maryam : 19: 17)* or *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit...(Shaad : 38: 72)* which is built up with hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live to age
10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000
000000000 000000000 years

These very long-lived hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms were used by Allah to create *"...the seven skies ...(Fushshilat : 41: 12)* and all in them, including humans, animals, plants, fungi, bacteria, amoebas, archaea and viruses. Where in the human body there are 7
000000000 000000000 000000000 atoms.

Because the age of humans, animals, plants, fungi, bacteria, amoeba, archaea and viruses is not long, when humans, animals, plants, fungi, bacteria, amoeba, archaea and viruses die, then hydrogen atoms, carbon atoms, nitrogen atoms and oxygen that is in the bodies of humans, animals, plants, fungi, bacteria, amoebas, archaea and viruses that have died, is released.

Some hydrogen atoms and nitrogen atoms rise into the atmosphere. Some of the oxygen atoms and carbon atoms form carbon dioxide, inhaled by plants, flowers and fungi, the carbon atoms are used

as glucose as a food source, while the oxygen atoms are released, inhaled by humans, animals, bacteria, amoebas, archaea and viruses.

This is what is called incarnation, meaning that the oxygen atoms in the human body that have died, come out, are inhaled by humans, animals, bacteria, amoebas, archaea and viruses. Likewise, carbon atoms are sucked up by plants, flowers and fungi to be used as glucose as a food source.

So, actually, with this incarnation Allah can continue to maintain the survival of humans, animals, plants, fungi, bacteria, amoebas, archaea and viruses.

If in Hinduism, incarnation is used as a belief, like Vishnu's incarnation, one of which becomes a fish, a turtle, a Buddha, with the aim of being close to humans.

When in fact incarnation is a way for humans, animals, plants, fungi, bacteria, amoeba, archaea and viruses to survive on "*...earth...(Al Hadiid: 57: 4)* and in "*...the seven skies...(Fushshilat : 41: 12)*

CONCLUSION

The conclusions that can be drawn from the explanation above are the secrets contained behind the verse: "*...I breathed into humans my spirit...(Shaad : 38: 72)*" "*...We sent our spirit to Maryam, our spirit incarnated.. .perfect human. (Maryam : 19: 17)*
