ABSTRACT

Before the author writes about why most scientists do not believe in Allah, first of all, the author asks forgiveness from Allah SWT. Here the author tries to lift the veil covering the secret of why most scientists do not believe in Allah, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about why most scientists do not believe in Allah, namely the following verses:

"So when I have perfected the body of Adam and breathed into Adam my spirit, then you will fall down and prostrate to him." (Shaad: 38: 72)

And to Allah belongs the east and the west, so wherever you turn there is the face of Allah. Indeed, Allah is All-Encompassing, All-Knowing. (Al Baqarah : 2: 115)

"We create you from semen (Al Mursalaat: 77: 20)

In an effort to uncover the secret of Allah as to why most scientists do not believe in Allah, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes a hypothesis why most scientists do not believe in Allah, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

QUARKS

If we want to know quarks then we pay attention to one of the hydrogen atoms which is a building element of the human body, animals, plants and fruit as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Next, if this proton is split, we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLIC ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules which are composed repeatedly of nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogen bases. The nitrogen bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4

carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are found in abundance around us and in the atmosphere.

WHY MOST SCIENTISTS DON'T BELIEVE IN ALLAH

So now, we still continue to focus our minds on uncovering the secret contained behind the verse: *"We create you from semen (Al Mursalaat: 77: 20)"... I...breathed into Adam my spirit... (Shaad: 38 : 72)*

Well, it turns out that here Allah has declared *"We create you from semen (Al Mursalaat: 77: 20)*

Now the question arises,

What exactly is in *"...semen (Al Mursalaat: 77: 20)*

Well, the answer is, it turns out that *"...semen (Al Mursalaat: 77: 20)* contains deoxyribonucleic acid (DNA). Human DNA consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78 % oxygen atoms, and 35.59% hydrogen atoms.

So, actually, humans, were created with carbon atoms, nitrogen atoms, oxygen atoms, hydrogen atoms and other atoms.

Another question arises,

Why do most scientists not believe in Allah?

Well, the answer is, because most scientists need proof, based on experimental results and empirical proof, to believe in Allah.

The problem now is that most scientists do not understand the real Allah, through the form of Allah in the form of Allah's energy, Allah's particles and *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit... (Shaad : 38: 72)*

Well, because most scientists do not understand the real Allah, through the form of Allah in the form of Allah's energy, Allah's particles and *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit... (Shaad : 38: 72)*, then most scientists do not believe in Allah.

Even though Allah is in the body of every scientist.

Well, this is the basis why most scientists do not believe in Allah.

Well now, if most scientists understand the real Allah through the form of Allah in the form of Allah's energy, Allah's particles and *"...my spirit...(Shaad : 38: 72)* or *"...Allah's spirit... (Shaad : 38: 72)*, then Allah will be found in every scientist's body.

So actually, if most scientists understand the real Allah through the form of Allah in the form of Allah's energy, where Allah's energy is very small, **0.000000000 000000000 000000000 01** grams per

cubic cm, in the form of Allah's particles, where Allah's particles are very small, almost no there is, **0.000000000 000000000 000000000 000000000 00000 3335917542091889** grams, which has a speed of light of **5 475 103 664 604.84** km per second, and is in the form of "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)* which is built with carbon atoms, nitrogen atoms, oxygen atoms, hydrogen atoms, then Allah will be found in every body of scientists.

So, everything that exists in this universe is built with Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)*.

Or in other words, whatever exists in this universe, was built by Allah through the form of Allah in the form of Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)*.

Where, Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)* can be proven experimentally and empirically.

Now, if most scientists still don't believe in Allah, even though Allah can be proven experimentally and empirically, then most scientists don't understand themselves.

CONCLUSION

Based on the description above we can conclude that the secret contained behind the verse: "*We create you from semen (Al Mursalaat: 77: 20)*"... *I...breathed into Adam my spirit... (Shaad: 38 : 72)*

Well, it turns out that here Allah has declared "*We create you from semen (Al Mursalaat: 77: 20)*

Now the question arises,

What exactly is in "*...semen (Al Mursalaat: 77: 20)*

Well, the answer is, it turns out that "*...semen (Al Mursalaat: 77: 20)* contains deoxyribonucleic acid (DNA). Human DNA consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78 % oxygen atoms, and 35.59% hydrogen atoms.

So, actually, humans, were created with carbon atoms, nitrogen atoms, oxygen atoms, hydrogen atoms and other atoms.

Another question arises,

Why do most scientists not believe in Allah?

Well, the answer is, because most scientists need proof, based on experimental results and empirical proof, to believe in Allah.

The problem now is that most scientists do not understand the real Allah, through the form of Allah in the form of Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)*

Well, because most scientists do not understand the real Allah, through the form of Allah in the form of Allah's energy, Allah's particles and "*...my spirit...(Shaad : 38: 72)* or "*...Allah's spirit... (Shaad : 38: 72)*, then most scientists do not believe in Allah.

Even though Allah is in the body of every scientist.

Well, this is the basis why most scientists do not believe in Allah.

Well now, if most scientists understand the real Allah through the form of Allah in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72), then Allah will be found in every scientist's body.

So actually, if most scientists understand the real Allah through the form of Allah in the form of Allah's energy, where Allah's energy is very small, 0.000000000 000000000 000000000 01 grams per cubic cm, in the form of Allah's particles, where Allah's particles are very small, almost no there is, 0.000000000 000000000 000000000 000000000 00000 3335917542091889 grams, which has a speed of light of 5 475 103 664 604.84 km per second, and is in the form of "...my spirit...(Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72) which is built with carbon atoms, nitrogen atoms, oxygen atoms, hydrogen atoms, then Allah will be found in every body of scientists.

So, everything that exists in this universe is built with Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72).

Or in other words, whatever exists in this universe, was built by Allah through the form of Allah in the form of Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72).

Where, Allah's energy, Allah's particles and "...my spirit...(Shaad : 38: 72) or "...Allah's spirit... (Shaad : 38: 72) can be proven experimentally and empirically.

Now, if most scientists still don't believe in Allah, even though Allah can be proven experimentally and empirically, then most scientists don't understand themselves.
