**ABSTARCT**

Before the author writes why Al Azhar University in Egypt did not begin to give a lesson to seek Allah through Allah's form, in the form of Allah's spirit, Allah's energy and Allah's particles, the author first forgiveness to Allah SWT. Here the author tries to open the veil that covers the secret about why Al Azhar University in Egypt did not begin to give a lesson to seek Allah through Allah's form, in the form of Allah's spirit, Allah's energy and Allah's particles, based on deoksiribonucleat acid (DNA).

There are several verses that open Allah's secret about why Al Azhar University in Egypt did not begin to give a lesson to seek Allah through Allah's form, in the form of Allah's spirit, Allah's energy and Allah's particles, namely the following verses:

*"Allah ... the light of skys and earth ... Light above light ... (An Nuur: 24: 35)*

*"Read it with the name of your Lord who created (Al 'Alaq: 96: 1)*

*"He has created humans from a lump of blood (Al 'Alaq: 96: 2)*

*"Those who remember God while standing or sitting or in the situation lying down and they think about the creation of heaven and earth:" O our Lord, you are not in vain, the Holy You, then we are from the torments of hell. (Ali 'Imran: 3: 191)*

*"And in fact we have created humans from a juice from the ground. (Al Mu'minuun: 23: 12)*

*"So if I have perfected the incident and breathed into him my spirit; then you should fall down by prostrating to him. "(Shaad: 38: 72)*

*"So if I have perfected the incident, and has breathed into my spirit, then you submit to him by prostrating (Al Hijr: 15: 29)*

*"Then he perfects and breathed into his spirit and he makes you hearing, vision and heart; you are very grateful. (As Sajdah: 32: 9)*

*"And in fact we have created humans and know what is whispered, and we are closer to him than the veins of his neck." (Qaf: 50:16)*

*"And it is impossible for a human being, God said with him except by the mediation of revelations or behind the veil or by sending a messenger and then revealed to him with his permission what he wanted. Indeed, he is all of the high wise. (Ash Syuura: 42: 51)*

*"And if my servants ask you about me, then, that I am close. I grant the request of the person who prayed if he begged me, then they should fulfill and should they believe in me, so that they are always in in truth. (Al Baqarah: 2: 186)*

*"He is the beginning and the end of the Zhahir and inner who is inner, and he knows everything. (Al Hadiid: 57: 3)*

*"He regulates the affairs from skys to earth, then it rises to him in one day which is a thousand years according to your calculations (as sajdah: 32: 5)*

*"Angels and souls rise to God in a day whose levels are fifty thousand years (Al Ma'aarij: 70: 4)*

*"Who has created seven layered skys. You don't look at the creation of God Almighty, something unbalanced. So look repeatedly, are you seeing something that is not balanced? (Al Mulk: 67: 3)*

*"And belonging to the eastern and western God, then wherever you face there the face of Allah. Verily Allah is the most broad again knowing. (Al Baqarah: 2: 115)*

*"And they ask you about the Spirit. Say:" The Spirit is the affairs of my God, and you are not given knowledge but a little. "(Al Israa ': 17: 85)*

*"And we don't create heaven and earth and everything that exists between the two by playing (Al Anbiyaa ': 21: 16)*

*"Allah created heaven and earth with rights. In fact, there are signs of God's power for the believers (Al 'Ankabut: 29: 44)*

*"And so we show Ibrahim the signs of majesty in skys and earth and so that he is a person who is sure. (Al An'aam: 6: 75)*

*"When the night was dark, he saw a star he said:" This is my God ", but when the star drowned he said:" I don't like the drowning. "(Al An'aam: 6: 76)*

*"Then when he saw the moon he said:" This is my God. "But after that month set, he said:" Truly if my Lord does not give me a guide, surely I am a misguided person. "(Al An'aam: 6: 77)*

*"Then when he saw the sunrise, he said:" This is my God, this is bigger. "So when the sun sets, he said:" O my people, in fact I remove from what you are associated. (Al An'aam: 6: 78)*

*"When his Lord said to him:" Submitting to obedient "Ibrahim replied:" I submit obedient to the Lord of the Universe ". (Al Baqarah: 2: 131)*

*"And at the time Ibrahim said to his father, Aazar" Did you make you idol as God? Indeed I see you and your people in real error. "(Al An'aam: 6: 74)*

In an effort to open the veil of Allah's secret about why Al Azhar University in Egypt did not begin to give a lesson to seek Allah through Allah's form, in the form of Allah's spirit, Allah's energy and Allah's particles, the author uses the basis of deoksiribonucleate acid.

## **HYPOTHESIS**

Here the writer submits a hypothesis Al Azhar University in Egypt did begin to give a lesson to seek Allah through Allah's form, in the form of Allah's spirit, Allah's energy and Allah's particles, because Allah's spirit, Allah's energy and Allah's particles can be proven, based on Deoxyribonucleic Acid (DNA )

## **PHOTON**

Photon is an elementary particle of the boson type and carrier of electromagnetic interactions.

## QUARK

If we want to know the quark then we pay attention to one of the hydrogen atoms which is an element of the building of the human body, animals, growing plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two quarks above and one lower quark. Where these three quarks are combined with gluon.

## DEOXYRIBONUCLEIC ACID (DNA)

DNA is a genetic information warehouse that has a double structure that forms a double helix and contains macromolecules of polynucleotides that are arranged repeatedly from the nucleotide polymer. This nucleotide consists of folate, 5-carbon sugar and one of the nitrogen bases. Nitrogen bases are guanine (g), adenin (A), cytosine (C) and thymine (T).

Guanine (g) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenin (A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Timin (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on Deoxyribonucleic Acid (DNA) humans consisting of 32.20 % of carbon atoms, 25.43 % nitrogen atoms, 6.78 % oxygen atoms and 35.59 % of hydrogen atoms. Where carbon atoms, nitrogen, oxygen and hydrogen are widely available around us and in the atmosphere.

## WHY AL AZHAR UNIVERSITY IN EGYPT DID NOT BEGIN TO GIVE A LESSON TO SEEK ALLAH THROUGH ALLAH'S FORM, IN THE FORM OF ALLAH'S SPIRIT, ALLAH'S ENERGY AND ALLAH'S PARTICLES

Now, we still continue to concentrate our minds to expose the secrets contained behind the verses: *"People who remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191) "... we show Ibrahim the signs of majesty in skys and earth and so that he is a person who is sure (Al An'aam: 6: 75)" ... He saw the star he said: "This is my God" .. (Al An'aam: 6: 76) "... He sees the moon he said: " This is my God " ... (Al An'aam: 6: 77)" ... He saw the sun rising he said: "This is my God ..." ... (Al An'aam: 6: 78)*

Well, it turns out that here Allah declared: *"People who remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Here Allah has opened the true secret of Allah, namely to understand the true Allah, humans must *"remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Well, *"... think about the creation of skys and earth ... (Ali 'Imran: 3: 191)* is the way to understand the true God.

As Ibrahim has done *"... He saw the star he said: " This is my God" ... (Al An'aam: 6: 76)" ...He saw the moon he said: "This is my God" ... (Al An'aam: 6: 77) "...He saw the sunrise he said: " This is my God" ... (Al An'aam: 6: 78)*

It turns out that the declaration of Allah *"... seeing ... stars ... (Al An'aam: 6: 76)" ... seeing ... month ... (Al An'aam: 6: 77) "... seeing ... sun ... (Al An'aam: 6: 78)* is a lesson that can be applied in high school

and at university to understand the true Allah *"... think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Now, to seek Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and Allah's particles *"... the face of Allah ... (Al Baqarah: 2: 115)*, must first be understood what it is *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, what is Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and what is Allah's particles *"... the face of Allah ... (Al Baqarah: 2: 115)*

Well, starting with Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, Allah has declared *"... He ... breathed into his spirit man and he made you hearing, vision and heart ... (as sajdah: 32: 9)*

That is, here *"... His spirit ... (As Sajdah: 32: 9)* or *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)* is a source that makes *"... hearing, vision and heart ... (as sajdah: 32: 9)*

While the sources that make *"... hearing, vision and heart ... (as sajdah: 32: 9)* In the human body is Deoxyribonucleic Acid (DNA). Based on human DNA, it consists of 32.20 % of carbon atoms, 25.43 % of nitrogen atoms, 6.78 % oxygen atoms and 35.59 % hydrogen atoms.

Well, because Deoxyribonucleic Acid (DNA) is built with carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms, humans by studying carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms in the subject of physics and chemicals, will reach understanding About Allah.

So, when Allah *"... He ... breathed into his spirit man and he made you hearing, vision and heart ... (as sajdah: 32: 9)* is actually, deoxyribonucleic acid (DNA) that is in the human body, which is derived from sperm that came from the father and eggs who came from the mother.

So, actually, *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)* *"... breathed into Adam (human) .. (Shaad: 38: 72)* is Deoxyribonucleic Acid (DNA)

Well, Deoxyribonucleic Acid (DNA) was revealed by Adam and his wife to Adam's children and grandchildren, to us today.

Likewise with seeking Allah through Allah's form in the form of Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and in the form of Allah's particles *"... the face of Allah ... (Al Baqarah: 2: 115)*

Now, with the declaration of Allah *"... wherever you face there the face of Allah ... (Al Baqarah: 2: 115)*, proves that Allah is through Allah's form in the form of Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and Allah's particle *"... the face of Allah ... (Al Baqarah: 2: 115)*, make Allah through Allah's form everywhere. Wherever the human eye sight is addressed, before the eyes look at one point, Allah through Allah's form in the form of Allah's energy and Allah's particles are already at that point.

How did it happen ?

Well, if humans look for Allah through Allah's form in the form of Allah's very small energy **0.000000000 000000000 000000000 01** grams per cubic cm, moving the very small Allah's particle almost non-existent, **0.000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams with the speed of light of Allah's particle **5 475 103 664 604.84** km per second, then humans will understand the true Allah.

Now, when Allah declared *"...I breathed into human my spirit... (Shaad: 38: 72)* prove Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)* is in the human body.

Likewise Allah through Allah's form in the form of Allah's energy and Allah's particles, is in the human body. This means that here, when the human eye view is addressed to a point in the human body, then before the eyes are fixed on the point in the human body, Allah's energy is very small **0.000000000 000000000 000000000 01** grams per cubic cm, moving Allah's particle is very small is almost nothing, **0.000000000 000000000 000000000 000000000 000000000 000000000 000000000 000 000 333 591 754 209 188 9** grams with the speed of light of Allah's particle **5 475 103 664 604.84** km per second, until first in the point of the human body.

This is the secret of Allah, seeking Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, Allah's energy and Allah's particles, then humans will understand the true Allah.

For this reason, Al Azhar University must have begun to give lessons about seeking Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, Allah's energy and Allah's particles, so that humans understand the true Allah.

Not like now, Allah only reaches the mouth.

## CONCLUSION

Based on the description above we can draw the conclusion that the secrets contained behind the verses: *"People who remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191)* *"... we show Ibrahim the signs of majesty in skys and earth and so that he is a person who is sure (Al An'aam: 6: 75)" ... He saw the star he said: "This is my God" .. (Al An'aam: 6: 76)* *"... He sees the moon he said: "This is my God" ... (Al An'aam: 6: 77)" ... He saw the sun rising he said: "This is my God ..." (Al An'aam: 6: 78)*

Well, it turns out that here Allah declared: *"People who remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Here Allah has opened the true secret of Allah, namely to understand the true Allah, humans must *"remember God while standing or sitting or in the situation lying down and they think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Well, *"... think about the creation of skys and earth ... (Ali 'Imran: 3: 191)* is the way to understand the true God.

As Ibrahim has done *"... He saw the star he said: "This is my God"... (Al An'aam: 6: 76)" ...He saw the moon he said: "This is my God"... (Al An'aam: 6: 77)* *"...He saw the sunrise he said: "This is my God"... (Al An'aam: 6: 78)*

It turns out that the declaration of Allah *"... seeing ... stars ... (Al An'aam: 6: 76)" ... seeing ... month ... (Al An'aam: 6: 77)* *".. seeing ... sun ... (Al An'aam: 6: 78)* is a lesson that can be applied in high school and at university to understand the true Allah *"... think about the creation of skys and earth ... (Ali 'Imran: 3: 191)*

Now, to seek Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72)* or *"... Allah's spirit... (Shaad: 38: 72)*, Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and Allah's particles *"... the face of Allah ... (Al Baqarah: 2: 115)*, must first be understood what it is *"... my*

*Spirit ... (Shaad: 38: 72) or "... Allah's spirit... (Shaad: 38: 72), what is Allah's energy "... wherever you face ... (Al Baqarah: 2: 115) and what is Allah's particles " ... the face of Allah ... (Al Baqarah: 2: 115)*

Well, starting with Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72) or "... Allah's spirit... (Shaad: 38: 72)*, Allah has declared *"... He ... breathed into his spirit man and he made you hearing, vision and heart ... (as sajdah: 32: 9)*

That is, here *"... His spirit ... (As Sajdah: 32: 9) or "... my Spirit ... (Shaad: 38: 72) or "... Allah's spirit... (Shaad: 38: 72)* is a source that makes *"... hearing, vision and heart ... (as sajdah: 32: 9)*

While the sources that make *"... hearing, vision and heart ... (as sajdah: 32: 9)* In the human body is Deoxyribonucleic Acid (DNA). Based on human DNA, it consists of 32.20 % of carbon atoms, 25.43 % of nitrogen atoms, 6.78 % oxygen atoms and 35.59 % hydrogen atoms.

Well, because Deoxyribonucleic Acid (DNA) is built with carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms, humans by studying carbon atoms, nitrogen atoms, oxygen atoms and hydrogen atoms in the subject of physics and chemicals, will reach understanding About Allah.

So, when Allah *"... He ... breathed into his spirit man and he made you hearing, vision and heart ... (as sajdah: 32: 9)* is actually, deoxyribonucleic acid (DNA) that is in the human body, which is derived from sperm that came from the father and eggs who came from the mother.

So, actually, *"... my Spirit ... (Shaad: 38: 72) or "... Allah's spirit... (Shaad: 38: 72) "... breathed into Adam (human) .. (Shaad: 38: 72)* is Deoxyribonucleic Acid (DNA)

Well, Deoxyribonucleic Acid (DNA) was revealed by Adam and his wife to Adam's children and grandchildren, to us today.

Likewise with seeking Allah through Allah's form in the form of Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and in the form of Allah's particles *" ... the face of Allah ... (Al Baqarah: 2: 115)*

Now, with the declaration of Allah *"... wherever you face there the face of Allah ... (Al Baqarah: 2: 115)*, proves that Allah is through Allah's form in the form of Allah's energy *"... wherever you face ... (Al Baqarah: 2: 115)* and Allah's particle *"... the face of Allah ... (Al Baqarah: 2: 115)*, make Allah through Allah's form everywhere. Wherever the human eye sight is addressed, before the eyes look at one point, Allah through Allah's form in the form of Allah's energy and Allah's particles are already at that point.

How did it happen ?

Well, if humans look for Allah through Allah's form in the form of Allah's very small energy **0.000000000 000000000 000000000 01** grams per cubic cm, moving the very small Allah's particle almost non-existent, **0.000000000 000000000 000000000 000000000 000000000 000 333 591 754 209 188 9** grams with the speed of light of Allah's particle **5 475 103 664 604.84** km per second, then humans will understand the true Allah.

Now, when Allah declared *"...I breathed into human my spirit... (Shaad: 38: 72)* prove Allah through Allah's form in the form of *"... my Spirit ... (Shaad: 38: 72) or "... Allah's spirit... (Shaad: 38: 72)* is in the human body.

Likewise Allah through Allah's form in the form of Allah's energy and Allah's particles, is in the

human body. This means that here, when the human eye view is addressed to a point in the human body, then before the eyes are fixed on the point in the human body, Allah's energy is very small **0.000000000 000000000 000000000 01** grams per cubic cm, moving Allah's particle is very small is almost nothing, **0.000000000 000000000 000000000 000000000 000000000 000000000 000 000 333 591 754 209 188 9** grams with the speed of light of Allah's particle **5 475 103 664 604.84** km per second, until first in the point of the human body.

This is the secret of Allah, seeking Allah through Allah's form in the form of "... *my Spirit ... (Shaad: 38: 72)* or "... *Allah's spirit... (Shaad: 38: 72)*, Allah's energy and Allah's particles, then humans will understand the true Allah.

For this reason, Al Azhar University must have begun to give lessons about seeking Allah through Allah's form in the form of "... *my Spirit ... (Shaad: 38: 72)* or "... *Allah's spirit... (Shaad: 38: 72)*, Allah's energy and Allah's particles, so that humans understand the true Allah.

Not like now, Allah only reaches the mouth.
