ABSTRACT

Before the author writes about why, Hinduism and Buddhism use incarnation as a way out, empirical evidence, the author first apologizes to Allah SWT. Here the author tries to open the veil covering the secrets of why, Hinduism and Buddhism use incarnation as a way out, empirical evidence, based on deoxyribonucleic acid (DNA).

There are several verses that reveal Allah's secrets about why, Hinduism and Buddhism use incarnation as a way out, empirical evidence, namely the following verses:

"Then when I have perfected the body and I have breathed on him my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

"And Maryam bint Imran who maintains her honor, then We breathed into Maryam's womb Our spirit, and she confirms the words of her God and His Books, and she is one of those who obey. (At Tahrir: 66: 12)

"So Maryam made a veil from them; then We sent Our spirit to her, so Our spirits incarnated before Maryam, the perfect human. (Maryam: 19: 17)

In an effort to uncover Allah's secret veil about why, Hinduism and Buddhism use incarnation as a way out, empirical evidence, the author uses the basis of deoxyribonucleic acid.

HYPOTHESIS

Here the author proposes hypothesis that Hinduism and Buddhism use incarnation as a way out, empirical evidence, based on Deoxyribonucleic acid (DNA)

PHOTON

Photons are elementary particles of the boson type and carriers of electromagnetic interaction.

QUARK

If we want to know about quarks, then we have to look at one of the hydrogen atoms, which is the building element of the human body, animals, plants and fruits, as well as inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. So if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with a gluon.

DEOXYRIBONUCLATED ACID (DNA)

DNA is a storehouse of genetic information that has a double structure that forms a double helix and contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide consists of folate, a 5-carbon sugar and one of the nitrogenous bases.

The nitrogenous bases are Guanine (G), Adenine (A), Cytosine (C) and Thymine (T).

Guanine (G) consists of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytosine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 atom of phosphorus, 4 atoms of oxygen and 2 atoms of hydrogen. A 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

Based on human Deoxyribonucleic acid (DNA), it consists of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

WHY, HINDUISM AND BUDDHISM USE INCARNATION AS A WAY OUT, EMPIRICAL EVIDENCE

So now, we are still concentrating on dismantling the secrets contained behind the verses: *"...I breathed on him my spirit...(Shaad : 38: 72)"...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12) "...Our spirits incarnated before Maryam, the perfect human (Maryam : 19: 17)*

Well, here, Allah or Jahve or Adonai, reveals the true secret about how to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through empirical evidence, *"...I breathed on him my spirit...(Shaad : 38: 72)"...Our spirits incarnated before Maryam, the perfect human (Maryam : 19: 17)*

Well, it turns out, empirical evidence, *"...my spirit...(Shaad : 38: 72) or "...Our spirits incarnated...,the perfect human (Maryam : 19: 17)*

Or in other words, *"...my spirit...(Shaad : 38: 72) or "...our spirit...(Maryam : 19: 17)* which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, *"...incarnated...,the perfect human (Maryam : 19: 17)*

Or it could also be stated, *"...my spirit...(Shaad : 38: 72) or "...our spirit...(Maryam : 19: 17)* which is built with Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms, *"...incarnated...,the perfect human (Maryam : 19: 17)*, incarnated into plants, flowers, fungi, bacteria, amoebas, archaea, viruses

Well, the secret revealed by Allah or jahve or Adonai, about *"...Our spirits incarnated...,the perfect human (Maryam : 19: 17)* are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which is the building block of Deoxyribonucleic acid (DNA) which incarnated into humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses.

That is, humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses need hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival.

Or in other words, Allah or Jahve or Adonai, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, this is a big secret that almost all people in the world do not understand, how is Allah or Jahve or Adonai, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen atoms and

oxygen atoms.

Well, the incarnation method is used as the basis of thought in Hinduism and Buddhism.

Only the followers of Hinduism and the followers of Buddhism do not understand what incarnation, for example, of Vishnu becomes fish, turtle and human. Humans are incarnated many times, what is incarnated from within humans becomes new humans again, or becomes animals, or becomes stone, becomes iron, becomes other inanimate objects.

In Hinduism and Buddhism is not explained clearly, and there is no empirical evidence.

Well, here, Allah or Jahve or Adonai, has revealed the true secret, regarding “*...Our spirits incarnated...,the perfect human (Maryam : 19: 17)*”

That is, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms are incarnated into humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses.

Now the question arises,

Why do hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms incarnate into humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses?

Because, hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms will live to age
10 000000000 000000000 000000000 000000000 000000000 000000000 000000000 000000000
000000000 000000000 years.

So, as long as hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms live, during that time these atoms, enter and leave the human body, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses.

Well, this, in fact, is the basis of Hinduism and Buddhism. Only the followers of Hinduism and the followers of Buddhism don't understand.

CONCLUSION

Based on the description above we can conclude that the secrets contained behind the verses: “*...I breathed on him my spirit...(Shaad : 38: 72)”...We breathed into Maryam's womb Our spirit. ..(At Tahrir : 66: 12)* “*...Our spirits incarnated before Maryam, the perfect human (Maryam : 19: 17)*”

Well, here, Allah or Jahve or Adonai, reveals the true secret about how to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through empirical evidence, “*...I breathed on him my spirit...(Shaad : 38: 72)”...Our spirits incarnated before Maryam, the perfect human (Maryam : 19: 17)*”

Well, it turns out, empirical evidence, “*...my spirit...(Shaad : 38: 72)*” or “*...Our spirits incarnated...,the perfect human (Maryam : 19: 17)*”

Or in other words, “*...my spirit...(Shaad : 38: 72)*” or “*...our spirit...(Maryam : 19: 17)*” which is made up of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms, “*...incarnated...,the perfect human (Maryam : 19: 17)*”

Or it could also be stated, “*...my spirit...(Shaad : 38: 72)*” or “*...our spirit...(Maryam : 19: 17)*” which is built with Deoxyribonucleic acid (DNA). Human DNA is composed of 32.20% carbon atoms,

25.43% nitrogen atoms, 6.78% oxygen atoms and 35.59% hydrogen atoms, "...*incarnated...,the perfect human (Maryam : 19: 17)*, incarnated into plants, flowers, fungi, bacteria, amoebas, archaea, viruses

Well, the secret revealed by Allah or jahve or Adonai, about "...*Our spirits incarnated...,the perfect human (Maryam : 19: 17)* are hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms which is the building block of Deoxyribonucleic acid (DNA) which incarnated into humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses.

That is, humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea, viruses need hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms for survival.

Or in other words, Allah or Jahve or Adonai, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, this is a big secret that almost all people in the world do not understand, how is Allah or Jahve or Adonai, to maintain the survival of humans, animals, plants, flowers, fungi, bacteria, amoebas, archaea to viruses, through the incarnation of hydrogen atoms, carbon atoms, nitrogen atoms and oxygen atoms.

Well, the incarnation method is used as the basis of thought in Hinduism and Buddhism.

Only the followers of Hinduism and the followers of Buddhism do not understand what incarnation, for example, of Vishnu becomes fish, turtle and human. Humans are incarnated many times, what is incarnated from within humans becomes new humans again, or becomes animals, or becomes stone, becomes iron, becomes other inanimate objects.

In Hinduism and Buddhism is not explained clearly, and there is no empirical evidence.
