## **ABSTRACT**

First of all, by asking forgiveness from Allah SWT, here I try to reveal the signs of Allah SWT regarding humans and jinn to compete in using science based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, one verse is found which is the key to unlocking the secrets of humans and jinn to compete in using knowledge, namely the verse:

*"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross it, you cannot penetrate it except with strength. (Ar Rahmaan: 55: 33)*

*"We will pay full attention to you, O humans and jinn. (Ar Rahmaan: 55: 31)*

In an effort to open the veil of humans and jinn to compete using science, I based on photons, quarks and deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

## **HYPOTHESIS**

Here I propose the hypothesis that humans and jinn are able to use science to traverse the heavens and the earth when viewed from the point of view of photons, quarks and deoxyribonucleic acid (DNA).

## **DEOXYRIBONUCLEIC ACID (DNA)**

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

## **PHOTON**

Photons are elementary particles of the boson type and carriers of electromagnetic interactions.

## **QUARK**

To find out quarks, let's look at one of the hydrogen atoms that are the building blocks of the human

body, animals, plants and fruits and inanimate objects. Then we open the body of the hydrogen atom, we will find one electron and one proton nucleus. Then if this proton is split, then we will find two up quarks and one down quark. Where these three quarks are combined with gluons.

## **HUMANS AND JINN ARE THE SAME TYPE**

Well, now we dig to the root of the secret contained behind the verse: *"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross it, ... (Ar Rahmaan: 55: 33)*

It turns out that now the secret behind the verse has been revealed (*Ar Rahmaan: 55: 33*)

That is, humans have rivals in terms of using science to navigate this universe.

## **JINN IS HUMAN'S STRONG COMPETITION TO CROSS THE UNIVERSE**

Why are jinn considered rivals of humans?

The answer is

Hidden behind the verse: *"Say (O Muhammad): "It has been revealed to you that: have heard a group of jinn (of the Qur'an), then they say: Verily we have heard a wonderful Qur'an, (Al-Jin: 72: 1)*

Then hidden behind the verse: *"And indeed we have tried to know (the secret) of the sky, then we find it full of strong guard and fire arrows, (Al Jin: 72: 8)*

Now, how do humans and jinn accept Allah's challenge *"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross it, ... (Ar Rahmaan: 55: 33)*

## **WHO MASTERS SCIENCE HE IS THE WINNER**

Now, Allah has opened the way out which is hidden in the verse: *"...you cannot penetrate it except by force. (Ar Rahmaan: 55:33)*

Well apparently, with power which means science about the universe.

Whoever among humans and jinn has mastered the knowledge of this universe, then he is the one who will reach Allah.

Of course, until now, human knowledge about the universe is still like a grain of sand and cannot be used to reach the real Allah.

## **TO WHAT EXTENT JINN'S KNOWLEDGE OF THE UNIVERSE IS NOT THAT DIFFERENT FROM WHAT HUMANS HAVE BEEN MASTERED**

Why is the knowledge of the universe owned by the jinn not much different from the knowledge of the universe that is owned by humans?

The answer is,

Because, if humans had mastered this universe more than the jinn, then it would be impossible for

Allah to declare: ***"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross, ... (Ar Rahmaan : 55:33)***

This is where the secret is revealed, namely the knowledge of the universe that is owned by humans and jinn is still balanced.

## CONCLUSION

Based on the description above, we can conclude that the secret contained behind the verse: ***"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross it, ... (Ar Rahmaan: 55: 33)***

It turns out that now the secret behind the verse has been revealed (***Ar Rahmaan: 55: 33***)

That is, humans have rivals in terms of using science to navigate this universe.

Why are jinn considered rivals of humans?

The answer is

Hidden behind the verse: ***"Say (O Muhammad): "It has been revealed to you that: have heard a group of jinn (of the Qur'an), then they say: Verily we have heard a wonderful Qur'an, (Al-Jin: 72: 1)***

Then hidden behind the verse: ***"And indeed we have tried to know (the secret) of the sky, then we find it full of strong guard and fire arrows, (Al Jin: 72: 8)***

Now, how do humans and jinn accept Allah's challenge ***"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross it, ... (Ar Rahmaan: 55: 33)***

Now, Allah has opened the way out which is hidden in the verse: ***"...you cannot penetrate it except by force. (Ar Rahmaan: 55:33)***

Well apparently, with power which means science about the universe.

Whoever among humans and jinn has mastered the knowledge of this universe, then he is the one who will reach Allah.

Of course, until now, human knowledge about the universe is still like a grain of sand and cannot be used to reach the real Allah.

Why is the knowledge of the universe owned by the jinn not much different from the knowledge of the universe that is owned by humans?

The answer is,

Because, if humans had mastered this universe more than the jinn, then it would be impossible for Allah to declare: ***"O congregation of jinn and humans, if you are able to penetrate (cross) the corners of the heavens and the earth, then cross, ... (Ar Rahmaan : 55:33)***

This is where the secret is revealed, namely the knowledge of the universe that is owned by humans and jinn is still balanced.
