ABSTRACT

Before I write down God's secret problem on what basis God cannot have partners from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA)

There are several verses that become God's secret unlocking tool on what basis it is impossible for God to have partners, namely the following verses:

"So do not establish partners for Allah. Verily Allah knows, while you do not know. (An Nahl: 16: 74)

"...Indeed to Allah belongs all that is in the heavens and all that is in the earth. And those who call on partners other than Allah do not follow (a belief). They do not follow except for mere prejudice, and they only assume - guess (Jonah: 10:66)

"It is He who made the earth a bed for you and the sky a roof, and He sends down water (rain) from the sky, then He produces with it all the fruit as sustenance for you; Therefore do not establish partners with Allah, even though you know. (Al Baqarah: 2:22)

"Indeed, Allah will not forgive the sin of shirk, and He forgives all sins other than that (shirk), for whom He wills. Whoever associates partners with Allah, then indeed he has committed a great sin. (An Nisa': 4:48)

"So when I have perfected the event and have breathed into it my spirit; then you should fall down prostrating to him." (Shaad: 38: 72)

In an effort to unmask Allah's secret on what basis Allah could not possibly have an ally I used the basis of deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that Allah cannot have partners because "... My spirit..." (Shaad: 38: 72) there are no two types of "... My spirit..." (Shaad: 38: 72) seen from the basic corner of Deoxyribonucleic acid (DNA)

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine(A), Cytocine(C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms. 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains

1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

THE SPIRIT OF ALLAH IS NOT TWO TYPES

Now, we continue to focus our minds on uncovering the secret behind the verse: *"...I breathed into him my spirit;...(Shaad: 38:72)*

It turns out that *"... My spirit;... (Shaad: 38: 72)* is the spirit of Allah which was breathed into Prophet Adam.

Well, because Prophet Adam is the ancestor of mankind on this earth, then all humans on this earth contain *"...my spirit;...(Shaad: 38: 72)*

Where *"...my spirit;...(Shaad : 38:72)* this is Deoxyribonucleic acid (DNA)

Well, based on human deoxyribonucleic acid (DNA) in which there is *"... My spirit;...(Shaad: 38: 72)* is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78 % oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

THE SPIRIT OF ALLAH HAS NO ALLYS

Now, let's unveil the secret behind the verse: *"...do not make partners for Allah, .. (Al Baqarah: 2: 22)*

It turns out that now it's been revealed, it's true, it's impossible *"...my spirit;...(Shaad: 38: 72)* there are two kinds, but only one kind *"...my spirit;...(Shaad: 38:72)*

Therefore, if there are people *"...who call on partners other than Allah, they do not follow (a belief). They follow nothing but prejudice, and they only conjecture. (Jonah: 10:66)*

It is true, humans who make partners with Allah, stated by Allah *"...they are only guessing. (Jonah: 10:66)*

Because it is not possible *"...my spirit;...(Shaad: 38:72)* can be made another type of my spirit.

BECAUSE HUMANS ONLY GUESS, GOD DOESN'T FORGIVE HUMANS WHO HAVE GUESSED WITHOUT KNOWLEDGE

Now, the secret behind the verse has been revealed: *"Indeed, Allah will not forgive the sin of shirk, and He forgives all sins other than (shirk), ... (An Nisaa ': 4:48)*

So humans who associate partners with Allah are only guessing, as a result, their sins are not forgiven by Allah.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"...I breathed into him my spirit;...(Shaad: 38:72)*

It turns out that *"... My spirit;... (Shaad: 38: 72)* is the spirit of Allah which was breathed into Prophet Adam.

Well, because Prophet Adam is the ancestor of mankind on this earth, then all humans on this earth contain "*...my spirit;...(Shaad: 38: 72)*

Where "*...my spirit;...(Shaad : 38:72)* this is Deoxyribonucleic acid (DNA)

Well, based on human deoxyribonucleic acid (DNA) in which there is "*... My spirit;...(Shaad: 38: 72)* is composed of 32.20% carbon atoms, 25.43% nitrogen atoms, 6.78 % oxygen atoms and 35.59% hydrogen atoms. Where carbon, nitrogen, oxygen and hydrogen atoms are widely available around us and in the atmosphere.

Now, let's unveil the secret behind the verse: "*...do not make partners for Allah, .. (Al Baqarah: 2: 22)*

It turns out that now it's been revealed, it's true, it's impossible "*...my spirit;...(Shaad: 38: 72)* there are two kinds, but only one kind "*...my spirit;...(Shaad: 38:72)*

Therefore, if there are people "*...who call on partners other than Allah, they do not follow (a belief). They follow nothing but prejudice, and they only conjecture. (Jonah: 10:66)*

It is true, humans who make partners with Allah, stated by Allah "*...they are only guessing. (Jonah: 10:66)*

Because it is not possible "*...my spirit;...(Shaad: 38:72)* can be made another type of my spirit.

Now, the secret behind the verse has been revealed: "*Indeed, Allah will not forgive the sin of shirk, and He forgives all sins other than (shirk), ... (An Nisaa ': 4:48)*

So humans who associate partners with Allah are only guessing, as a result, their sins are not forgiven by Allah.
