ABSTRACT

First of all, by asking forgiveness from Allah SWT here I try to reveal the signs of Allah SWT about Allah's secret about how the residents of paradise, talk directly to the residents of hell, based on photons, quarks and the molecular structure of nucleic acids or deoxyribonucleic acid (DNA).

In the Qur'an, several verses are found that are the key to unlocking the secret of how the residents of paradise, talk directly to the residents of hell, namely the following verses:

"Read your book, it is enough for yourself at this time as a reckoning against you." (Al Israa ': 17:14)

"Have We not made the earth (a place) to gather, (Al Mursalaat: 77: 25) the living and the dead? (Al Mursalaat: 77: 26)

"On the day the earth will be replaced with another earth and sky, and they will all gather before the presence of Allah, the One, the Most Mighty. (Ibrahim: 14:48)

"And the earth shone brightly with the light of its Lord; and books were given and prophets and witnesses were brought and judged between them with justice, while they were not harmed. (Az Zumar: 39: 69)

"like the condition of the people of Noah, 'Aad, Thamud and those who came after them. And Allah does not want to do injustice to His servants. (Al Mu'min: 40: 31)

"O my people, indeed I fear for you the torment of the day of calling (Al Mu'min: 40: 32)

"And between the two there is a boundary; and above A'raaf there are people who know each of the two groups by their signs. And they call out to the people of Paradise: "Salaamun 'alaikum." They have not yet entered it , while they want it immediately (Al A'raaf: 7: 46)

And the inhabitants of Paradise will cry out to the inhabitants of Hell: "Indeed, we have actually obtained what our Lord promised us. So have you actually obtained what your Lord promised?" They replied: "That's right." Then a caller announced between the two groups: "The curse of Allah is upon the wrongdoers, (Al A'raaf: 7:7) 44)

"Allah is the light of the skys and the earth.

"... We are closer to him than his jugular vein, (Qaf: 50:16)

"The angels and Gabriel ascended (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)

"... We made the apostle an angel, of course We made him a male... (Al An'aam: 6: 9)

"So when I have perfected the event, and have breathed into it my spirit, then submit to it prostrating yourselves (Al Hijr: 15: 29)

In an attempt to unmask Allah's secret about how the residents of paradise, talk directly to the residents of hell, I based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis of the residents of paradise, talking directly to the residents of hell using photon frequency vibrations, based on photons, quarks and deoxyribonucleic acid or the molecular structure of nucleic acids.

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T).

Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

MY SPIRIT IN PARADISE AND MY SPIRIT IN HELL

Now, we still continue to focus our minds to reveal the secret behind the verse: *"O my people, I am really worried for you about the torment of the day of calling (Al Mu'min: 40: 32)*

Apparently, the residents of paradise and the residents of hell are calling each other.

How can the residents of paradise and the residents of hell call each other?

The answer is

It is hidden in the secret of the verse: *"... and has breathed into it my spirit... (Al Hijr: 15: 29)*

It turned out that it was actually revealed that the residents of paradise and the residents of hell are *"... my spirit... (Al Hijr: 15: 29)*

That is, all humans who have died come out of their *"... my spirit... (Al Hijr: 15: 29)*.

After Allah commanded: *"Read your book, it is enough for yourself at this time as a judgment against you." (Al Israa ': 17: 14)* then Allah decided, *"... my spirit... (Al Hijr: 15: 29)* enter paradise, then *"... my spirit... (Al Hijr: 15: 29)* enter Paradise, and become residents of Paradise. Likewise, if Allah decides, *"... my spirit... (Al Hijr: 15: 29)* goes to hell, then *"... my spirit... (Al Hijr: 15: 29)* goes to hell, and becomes residents of hell.

RESIDENTS OF PARADISE CAN TALK DIRECTLY WITH RESIDENTS OF HELL

Now, then, we will unravel the secret behind the verse: "And the residents of paradise cry out to the residents of hell: *"Indeed, we have actually obtained what our Lord promised us. So have you actually*

obtained what your Lord promised?" They replied: "Yes." (Al A'raaf: 7: 44)

How do the residents of paradise speak directly to the residents of hell?

The answer is

Hidden behind the secret of the verse: *"The angels and Gabriel ascend (to face) God in a day whose level is fifty thousand years. (Al Ma'aarij: 70: 4)*

Well here it is described when the angels and Gabriel ascend to meet Allah by using the speed of light. With the image of one light day according to Allah's calculation is equal to 50 000 light years according to human calculations.

The distance between the earth and the place where Allah was at that time was 50 000 light years.

Earth and the place where Allah is at that time is in the Milky Way Galaxy. The distance between Earth and the center of the Milky Way Galaxy is 25 000 light years. Likewise, the distance between the place where Allah was at that time and the center of the Milky Way Galaxy is 25 000 light years.

Well, because *"the angels and Gabriel...(Al Ma'aarij : 70: 4)* are *"...a man...(Al An'aam: 6: 9)* , then *"the angels and Jibril...(Al Ma'aarij : 70: 4)* cannot fly.

So, *"Angels and Gabriel ... (Al Ma'aarij: 70: 4)* to meet and talk directly with Allah using the speed of light or photons.

The speed of light of this photon is, according to human calculations, one second the speed of light is 299 792 km.

Well, because, *"...my spirit...(Al Hijr: 15: 29)* is made up of oxygen atoms, hydrogen atoms, nitrogen atoms and carbon atoms, then *"...my spirit...(Al Hijr: 15: 29)* the residents of paradise and *"...my spirit... (Al Hijr: 15: 29)* the residents of hell relate and speak directly by using the vibration of the light frequency of photons, which has a speed of 299 792 km per second.

Now the secret has been revealed, how the inhabitants of heaven talk directly to the inhabitants of hell, namely speaking directly by using the vibration of the light frequency of photons, which has a speed of 299 792 km per second.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"O my people, I am really worried for you about the torment of the day of calling (Al Mu'min: 40: 32)*

Apparently, the residents of paradise and the residents of hell are calling each other.

How can the residents of paradise and the residents of hell call each other?
