ABSTRACT

Previously, the author asked forgiveness from Allah SWT. Here I am trying to open the veil that covers the secret about humans learning to use their minds, angels learning are only memorized from the point of view of the molecular structure of nucleic acid or deoxyribonucleic acid (DNA).

There are several verses in the Qur'an that write down the problem of humans learning to use the minds and angels learning is only memorized, namely the following verses:

"And He taught Adam the names (objects) entirely, then presented them to the Angels and said: "Name me the objects if you are true people who are true!" (Al Baqarah: 2 : 31)

"They replied: "Glory be to You, we know nothing but what You have taught us; Verily, You are All-Knowing, All-Wise." (Al-Baqarah: 2:32)

Allah said: "O Adam, tell them the names of these things." So after he told them the names of these objects, Allah said: "Have I not told you that I know the secrets of the heavens and the earth and know what they are. what you give birth to and what do you hide?" (Al Baqarah: 2:33)

Where in an effort to open the veil that covers the secrets of humans learning to use mind, angels learning is only memorized, I use a tool called deoxyribonucleic acid or deoxyribonucleic acid or the molecular structure of nucleic acids.

HYPOTHESIS

Here I propose the hypothesis that humans learn to use their minds while learning angels are only memorized on the basis of Deoxyribonucleic acid (DNA).

DEOXYRIBONUCLEIC ACID (DNA)

DNA is a repository of genetic information that has a double structure that forms a double helix and which contains polynucleotide macromolecules that are arranged repeatedly from nucleotide polymers. This nucleotide is composed of folate, a 5 carbon sugar and one of the nitrogenous bases. The nitrogenous bases are Guanine (G), Adenine (A), Cytocine (C) and Thymine (T). Guanine (G) is composed of 5 carbon atoms, 5 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms.

Adenine(A) has 5 carbon atoms, 5 nitrogen atoms and 5 hydrogen atoms. Cytocine (C) contains 4 carbon atoms, 3 nitrogen atoms, 1 oxygen atom and 5 hydrogen atoms. Thymine (T) contains 5 carbon atoms, 2 nitrogen atoms, 2 oxygen atoms and 6 hydrogen atoms. Folate contains 1 phosphorus atom, 4 oxygen atoms and 2 hydrogen atoms. The 5 carbon sugar has 5 carbon atoms, 2 oxygen atoms and 8 hydrogen atoms.

ANGEL IS A MAN

Now we begin again to reveal the secret behind the verse: *"... if We made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)*

It was clear and clear that the angel was a man just like us human men.

Angels are also perfect humans *"... We sent our spirit to him, so he incarnated before him (in the form of) a perfect human being. (Mary: 19:17)*

Angels when speaking to humans, he uses the language used by those he is talking to as revealed in the verse: *"The messengers (angels) said: "O Lut, indeed we are messengers of your Lord..." (Huud: 11: 81)*

HUMANS LEARN TO USE THE MIND WHILE ANGELS LEARN ONLY REMEMBER

Now we dig into the secret behind the verse: *"And He taught Adam the names (objects) entirely, ... (Al Baqarah: 2: 31)*

Well, here Adam, when Allah taught him about life, circumstances, situations, nature and the environment in heaven, where all the information taught by Allah was not only memorized and remembered, but analyzed, processed, explored and understood and stored in memory.

Meanwhile, when Allah teaches angels about life, circumstances, situations, nature and the environment in heaven, all information conveyed and taught by Allah to angels is only remembered and memorized.

This is proven when Allah tested Adam and the angels, *Allah "...said: "Mention to me the names of these objects if you are true people who are right!" (Al Baqarah: 2:31)*

When the angel was asked to answer *"... "Glory be to You, we know nothing but what You have taught us; "*

Well, it is clear from the angel's answer, where the angel only accepts, memorizes and remembers all the information conveyed by Allah without involving the mind to analyze, think about and explore the information conveyed by Allah.

On the other hand, Adam, when Allah asked Adam *"..." O Adam, tell them the names of these things." So after he told them the names of these objects,... (Al Baqarah: 2:33)*

Now here, clearly and clearly, Adam not only received the information conveyed by Allah by remembering and memorizing it, but thought about it, analyzed it, understood it, studied it and lived it.

Because Adam easily explained to the angels about all the information concerning the heavens and the earth and what was between them that Allah had taught him.

So Allah declared, *"Didn't I tell you that I know the secrets of the heavens and the earth (Al Baqarah: 2:33)*

FROM HUMAN THINKING LEVEL IS HIGHER THAN ANGELS

Now it is revealed that humans are superior in terms of using the mind compared to angels, so it is not surprising that angels must honor Adam by prostrating to Adam *"And (remember) when We said to the angels: "Prostrate yourselves to Adam," then bow down. them...(Al Baqarah: 2:34)*

Well, here it describes humans who use the mind that has been given by Allah to a higher degree than angels who only use memory and memorization without involving the way of thinking to

understand the heavens and the earth and the entire universe.

CONCLUSION

Based on the description above, we can conclude that the secret behind the verse: *"... if We made the apostle an angel, We would certainly have made him a man... (Al An'aam: 6: 9)*

It was clear and clear that the angel was a man just like us human men.

Angels are also perfect humans *"... We sent our spirit to him, so he incarnated before him (in the form of) a perfect human being. (Mary: 19:17)*

Angels when speaking to humans, he uses the language used by those he is talking to as revealed in the verse: *"The messengers (angels) said: "O Lut, indeed we are messengers of your Lord..." (Huud: 11: 81)*

Now we dig into the secret behind the verse: *"And He taught Adam the names (objects) entirely, ... (Al Baqarah: 2: 31)*

Well, here Adam, when Allah taught him about life, circumstances, situations, nature and the environment in heaven, where all the information taught by Allah was not only memorized and remembered, but analyzed, processed, explored and understood and stored in memory.

Meanwhile, when Allah teaches angels about life, circumstances, situations, nature and the environment in heaven, all information conveyed and taught by Allah to angels is only remembered and memorized.

This is proven when Allah tested Adam and the angels, *Allah "...said: "Mention to me the names of these objects if you are true people who are right!" (Al Baqarah: 2:31)*

When the angel was asked to answer *"... "Glory be to You, we know nothing but what You have taught us; "*

Well, it is clear from the angel's answer, where the angel only accepts, memorizes and remembers all the information conveyed by Allah without involving the mind to analyze, think about and explore the information conveyed by Allah.

On the other hand, Adam, when Allah asked Adam *"..." O Adam, tell them the names of these things." So after he told them the names of these objects,... (Al Baqarah: 2:33)*

Now here, clearly and clearly, Adam not only received the information conveyed by Allah by remembering and memorizing it, but thought about it, analyzed it, understood it, studied it and lived it.

Because Adam easily explained to the angels about all the information concerning the heavens and the earth and what was between them that Allah had taught him.

So Allah declared, *"Didn't I tell you that I know the secrets of the heavens and the earth (Al Baqarah: 2:33)*

Now it is revealed that humans are superior in terms of using the mind compared to angels, so it is not surprising that angels must honor Adam by prostrating to Adam *"And (remember) when We said to the angels: "Prostrate yourselves to Adam," then bow down. them...(Al Baqarah: 2:34)*

Well, here it describes humans who use the mind that has been given by Allah to a higher degree than angels who only use memory and memorization without involving the way of thinking to understand the heavens and the earth and the entire universe.
